## DISCUSSIONS UNDERWAY ON PROPOSED TRAFFIC CONTROL AND PARKING REGULATIONS

Discussions between the Estate Division and representative groups within the University about proposed traffic control and parking regulations are underway.

The representative groups include the Students' Representative Council, the Academic Staff Association, the Public Service Association and other interested people.

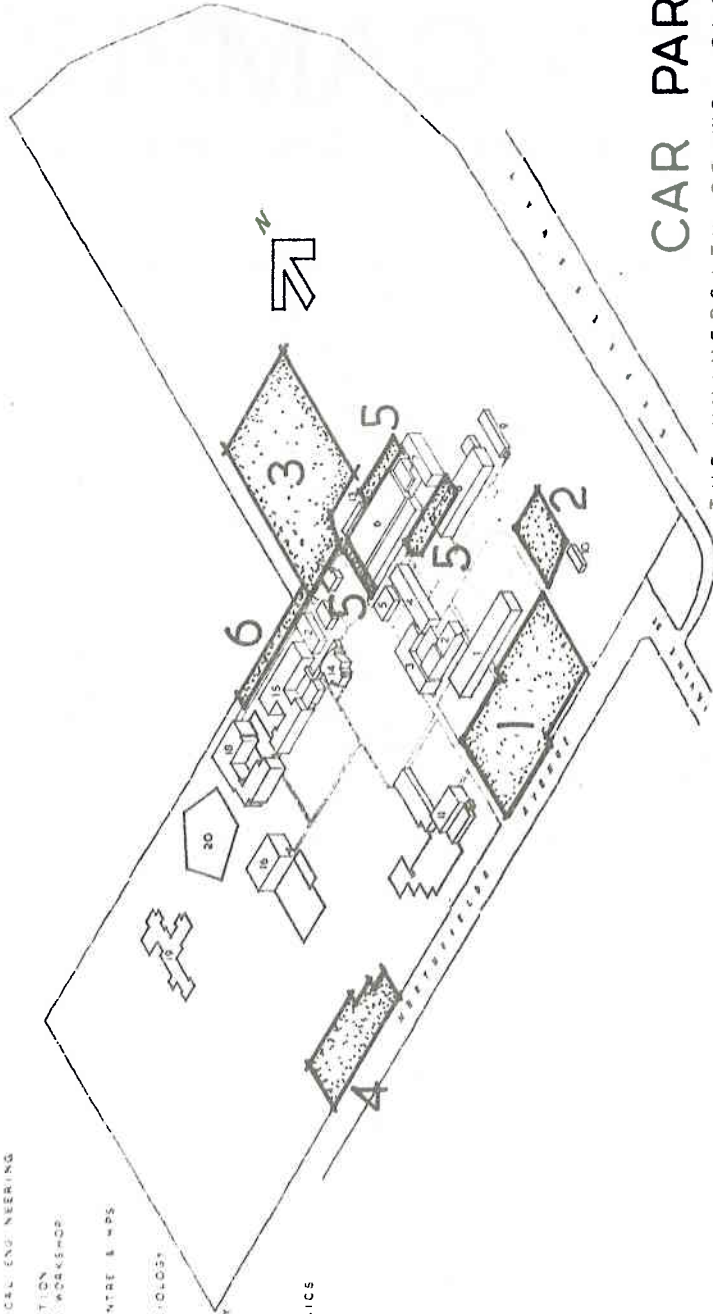

An unresolved matter is a proposal to introduce parking permits for regular users of University car parks and to charge a fee for these permits. Before making a policy decision, the University Council wishes to be informed of the views of all concerned.

Estate Manager, Mr. J. F. Bell, this week summarised the proposals. He said: "To construct properly marked parking spaces in surfaced car parks, which are provided with convenient access to the pedestrian area of campus, will in future cost at least \$200 per parking space.

"The Australian Universities Commission, which recommends the grant of government funds for both capital and operating costs of universities, does not accept that the government should pay the full costs of this amenity for those members of the University who bring their own cars.

"Unless the University demonstrates a degree of self-help in providing additional funds for new parking areas, we can expect to have our use of funds for this purpose severely restricted. This will in turn mean either that late-comers will be unable to park or they will have to use open areas which will rapidly become unsightly and very uncomfortable to use. Many University people are all too familiar with the muddy, rutted areas which result from use of unmaintained open areas for parking.

# CAR PARKS

THE UNIVERSITY OF WOLLONGONG  
JANUARY 1975

"The desirability of having fewer cars and more people coming by public transport is represented by some people. But unless they convince others, and the University can establish that there is a sufficient demand for public transport - or possibly for some form of university subsidised transport, this does not solve the problem.

"A poll of users is planned in first session to obtain information about transport needs and the co-operation of all members of the University is sought to make this survey as useful as possible."

## 800 VEHICLES EXPECTED ON CAMPUS AT PEAK TIMES

The latest estimate of the maximum number of motor vehicles which staff, students and visitors are likely to bring onto the campus at any one time during 1975 is 800.

This peak number may be reached early in first session. Accordingly, the University Council has approved action to increase the number of vehicle spaces, in designated parking areas, to this number. (See map, Page 2.)

Estate Manager, Mr. J. F. Bell, said this week that to achieve full utilisation of these areas all users would need to park in the defined spaces and not obstruct the access of others nor occupy more than one car space. He sought the co-operation of all users.

Mr. Bell said: "The reconstruction of Car Park No. 1 between Northfields Avenue and the Metallurgy Building is well underway and will provide spaces for 308 motor vehicles.

"The area is being laid out to permit landscaping, and our landscape consultants, Bruce McKenzie & Associates, are detailing the treatment preparatory to calling tenders for this work. Meanwhile, drains and water supplies are being provided and light standards have been ordered.

"This area should be available for use in March, though the landscaped planting will still remain to complete the area."

Mr. Bell said that, in addition to Car Park No. 1, the following other sections were being marked out:

Car Park No. 2	60 including 12 visitors' places
Car Park No. 3	200
Car Park No. 5	55 in three sections
Car Park No. 6	58

Altogether, the number of existing motor vehicle spaces was 681.

Mr. Bell said: "To meet expected requirements, at least 120 additional spaces are needed and these were planned for Car Park No. 4. Work to provide a temporary surface for this car park is at present awaiting Wollongong City Council approval.

"If the City Council refuses our application, it will be necessary to extend Car Park No. 3 to the north. This would be unsatisfactory because of the traffic increase on the north-south road and doubts about the final configuration of Car Park No. 3. The configuration will depend upon approval to the proposed

4.  
revised master plan to provide access to the northern side of the pedestrian precinct by direct entry from Irvine Street."

Mr. Bell said that decisions were being pursued urgently to avoid overcrowding and inconvenience at the beginning of first session.

## ORIENTATION WEEK BEGINS

The first Orientation Week of The University of Wollongong begins today. In previous years, Orientation has been held over three days. However, with this week being the first Orientation of the new University, a greater variety of functions and activities has been planned for students.

The week is designed to introduce new students to their University - academically and socially. The academic side of Orientation comprises a set of introductory lectures which are given by one or more academic staff members of a department and usually by a S.R.C. member who has been involved with the department. From this the new student obtains a brief outline of the course from the points of view of both staff and students. The lectures are usually informal and are run for the enlightenment of new students.

The social aspect of Orientation is everything else that happens, most of which is free to all students. The organisation of these social functions is undertaken by the S.R.C., the Union, or individual clubs and societies. The revised programme is set out below.

### RESEARCH GRANT TO DR. DE LACEY

Dr. P. R. de Lacey, Chairman, Department of Education, was granted \$7739 earlier this month for his research into the immediate and long-range effects of compensatory preschooling. The Australian Advisory Committee on Research and Development in Education recommended the grant.

### COUNSELLOR TO SPEAK AT DRUG SEMINAR

The University Counsellor, Mr. Jim McLennan, will be among the speakers at the Wollongong Drug Committee seminar on Community Health and Drugs at the Barclay Reception Centre, Wollongong, on March 12, 13, 14, 17 and 18. Mr. McLennan will deliver a paper on Problems of Communication, in the section headed Drug Effects and Consequences, during the morning session on March 13.

The Committee has invited the University to send representatives, but at this stage is interested only in accepting people who are able to attend the full five days. The initial reservation of places will close at 5pm on Thursday, February 27. Anyone interested should contact Mrs. Helen Visser (telephone 28 8699). There is no seminar fee.

Among its general objectives the Committee has the aim of improving community awareness and knowledge of drug problems in general. The specific aims of the seminar are: 1. to provide information and resource material for key people in the community; and 2. to train people who may be available to lecture interested community groups.

## POSTGRADUATE TRAVEL GRANT

Application forms are available from the Student Enquiries Office for the 1975 Canadian Pacific Airlines Award. The award entails one free economy-class return flight a year from any airport in Australia used by the company to any airport in Canada used by the company. Candidates must be graduates of an Australian university. The award is not available to permanent staff, students who hold or are already enrolled for a Ph.D., or students who hold another award which pays all or part of the fare. Applications must be lodged with the Registrar, Mr. R. F. Stewart, by May 15, 1975.

## CORRECTION

In Campus News Vol.1 No. 1 (Feb.7, 1975) on page 3, reference was made, in the first line of the second last paragraph of the "Report from Academic Senate", to "the Audio-Visual Unit". This should have read, "Audio-Visual Committee". No decision has yet been made to constitute a unit.

ITEMS FOR DIARY

All sections of the University are invited to submit items for publication in the Diary.

CAMPUS NEWS: IS YOUR COMMUNICATION CHANNEL

Campus News is intended to be a communication channel for students and staff. Frequency of publication will depend not only on the flow of news and information reaching the Information Office from students and staff but also on the need to keep the campus informed of various events and activities. All members of the University are invited to submit material for publication.

Campus News carried a variety of news and information, including:

- \* reports of meetings of University Council and Academic Senate;
- \* news from the Vice-Chancellor;
- \* announcements, notices and news from the University administration, academic departments, the Library, the Union, and the Students' Representative Council;
- \* appointments and resignations of staff;
- \* a Diary of Dates and Events;
- \* letters from students and staff (200 words maximum);
- \* reports from clubs and societies;
- \* sporting results and news;
- \* news from other universities; and,
- \* 'classified' advertisements.

Material for publication should be typed or neatly handwritten and forwarded to the Information Office which is now located in Room 116, Administration Building. Telephone extension: 375.
