CALENDAR FOR 1967

LENT TERM

February 6, Monday	Unsupervised practice teaching begins for second year students.
February 17, Friday	Unsupervised practice teaching ends.
February 21, Tuesday	Deferred examinations begin.
February 22, Wednesday . .	11 a.m. New University students meet in Music Auditorium. 2 p.m. New Physical Education students meet in Music Auditorium.
February 27, Monday	Deferred examinations end. Staff meeting 10.0 a.m. 2 p.m. Continuing University students meet in Music Auditorium. Continuing Physical Education students meet: 2nd Year Room 225. 3rd Year Room 223.
February 28, Tuesday	10 a.m. Formal Assembly: Music Auditorium. All first year <i>General Primary</i> and <i>Physical Education</i> students. Enrolment and medical examinations take place after the assembly.
March 1, Wednesday	9 a.m. All second year <i>General Primary</i> and second and third year <i>Physical Education</i> students meet in the Music Auditorium. Re-enrolment takes place immediately after the assembly. Lectures commence for all students, after re-enrolment.
March 7, Tuesday	First year students visit the demonstration school.
March 9, Thursday	Demonstrations begin for second year students.
March 14, Tuesday	Demonstrations begin for first year students.
March 24, Friday	Good Friday.
March 26, Sunday	Easter Day.
March 27, Monday	Easter Monday.
April 3, Monday	Practice teaching begins.
April 21, Friday	Practice teaching ends.
April 25, Tuesday	Anzac Day.
April 27, Thursday	Demonstrations resume for second year students.
May 2, Tuesday	Demonstrations resume for first year students.
May 11, Thursday	School term ends.
May 12, Friday	College term ends.

TRINITY TERM

May 23, Tuesday	School term begins.
May 29, Monday	College term begins.
May 30, Tuesday	Demonstrations resume for first year students.
June 1, Thursday	Demonstrations resume for second year students.
June 5, Monday	Mid-Year Examinations begin for first year students.
June 9, Friday	Mid-Year Examinations end.
June 13, Tuesday	Demonstrations resume for first year students.
August 8, Tuesday	Intercollegiate.
August 11, Friday	College term ends.
August 24, Thursday	School term ends.
August 28, Monday	Post-College Courses commence.
September 1, Friday	Post-College Courses conclude.

MICHAELMAS TERM

September 4, Monday	College term begins.
September 12, Tuesday	School term begins.
September 18, Monday	Practice teaching begins.
October 2, Monday	Labour Day.
October 6, Friday	Practice teaching ends.
October 10, Tuesday	Demonstrations resume for first year students.
November 7, Tuesday	Lectures cease.
November 10, Friday	Yearly examinations begin for all students.
November 23, Thursday	Yearly examinations end.
December 14, Thursday	School term ends. Graduation Day.
December 15, Friday	College term ends.

TERM DATES 1967

COLLEGE

Lent Term	February 27 to May 12.
Trinity Term	May 29 to August 11.
Michaelmas Term.....	September 4 to December 15.

WOLLONGONG UNIVERSITY COLLEGE

First Term	March 6 to May 20.
Second Term	June 5 to August 12.
Third Term	September 4 to November 4.

SCHOOL

First Term	January 31 to May 11.
Second Term	May 23 to August 24.
Third Term	September 12 to December 14.

A. S. Brown, B.A., Dip.Ed., Dip.P.E.

Map showing location of College and Fairy Meadow Demonstration School

WOLLONGONG TEACHERS COLLEGE

Wollongong Teachers College is the newest State teacher training centre in New South Wales. The site for the College, some 50 acres of land at the foot of Mt. Keira, on the outskirts of the city, was chosen early in 1959. Plans were prepared for the building of an administration unit, an extensive lecture block, an assembly hall, a gymnasium, a music centre, a library and a cafeteria, and for the development of a number of playing fields, but it was not until February, 1962, that the work of construction began.

The Principal, Mr. W. McGrath, and the Vice-Principal, Dr. F. Whitebrook, were appointed in 1961 and in 1962 the first session of the new college, 158 students, commenced studies in the Wollongong Technical College where staff and administrative offices, library facilities and classroom accommodation had been made available. It was only at the beginning of 1963 that staff and students, then numbering more than 280, were able to move into the completed administration and lecture blocks on the College site.

Since those early days the College has grown very rapidly. To the original buildings have been added the Principal's and Caretaker's residences, the music centre, the gymnasium and a magnificent, well-stocked library. Attractive gardens and playing fields are being laid out. The student population has increased considerably so that it now approaches 500, and courses are offered not only in infants' and primary school teaching, but also in the specialised field of physical education. A wide variety of club and sporting facilities provides opportunities for further student development.

The history of the College is short. In the four years since its foundation 600 students have successfully completed teacher training courses and entered the New South Wales Education Department.

WOLLONGONG TEACHERS COLLEGE ROOM LOCATION 1967

ADMINISTRATION

LECTURE BLOCK

COURSES 1967

The following courses will be undertaken by students in 1967.

1. FIRST YEAR

				<i>Hours per week</i>
			Term 1	Terms 2 and 3
Art 2	1
Craft 2	1
Education 4	3
English 4	3
Mathematics 2	1
Music 2	1
Natural Science 2	2
Physical Education 2	2
Social Science 3	2
Special Study A	-	2
Special Study B	-	2
Demonstrations 2	2
Total			.. 25	22

Every student will be expected to study one course from each of the following groups of special studies for the two years of College training. In the first year two hours per week will be devoted to each of the special study fields, and in the second year five hours per week. In determining special fields the wishes of the student will be considered.

The special study fields in 1967 will be selected from:

Group A

Education	History
English	Mathematics
Geography	Natural Science

Group B

Art
Craft
Dramatic Art

Music
Natural Science
Physical Education

2. SECOND YEAR

				<i>Hours per week</i>		
				General Primary	Small Schools	Lower Primary
Art	1*	1*	1
Craft	1*	1	1
Education	2	3*†	2
English	2	1	1
Health Education	1	1	1
Mathematics	1	1	—
Music	1*	1	1
Natural Science	1	1‡	1*
Physical Education	1	1	1
Social Science	2	1	—
Infants' Education	—	—	3†
Special Study A	5	5	5
Special Study B	5	5	5
Demonstrations	2	2	2
Total	24	24	24

* For two-thirds of year.

† Four periods for one-third of year.

‡ Infants Method for one-third of year, Primary Method for two-thirds of year.

In general students will continue the Special Study fields undertaken in first year.

For details of courses see pages 62 to 108.

TUTORIAL WORK

A minority of students finds difficulty in certain aspects of College training. To assist these students one hour per week is set aside on the time-table for tutorial work in the fields of English expression, mathematics, and in such other studies as circumstances may from time to time require.

COLLEGE REGULATIONS

Staff Advisers

Students who desire information or advice on any matters pertaining to their college work, or who wish to discuss problems related to their study or career, may, in the first instance, consult their Staff Adviser.

College Hours

If any student wishes to remain after 5 p.m., permission is to be obtained from the Principal. The Registrar's hours for business are notified at the entrance to the office.

Deportment

It is expected that students will use the facilities offered by the College to develop and maintain a mature attitude to their vocation and a high regard for the dignity of teaching as a profession. Dress should be neat and appropriate to the occasion and a habit should be made of maintaining acceptable standards of deportment.

Books

The Department of Education grants \$22 to each student for the purchase of text books. If requested, members of staff will make recommendations for purchase.

Some text books will be issued. Students will be required to give written acknowledgement of their receipt and books not returned on request, or damaged, are to be paid for by the student responsible.

Fees

Students are required to pay the fees mentioned in the Constitution of the Students' Representative Council.

Students' Residences

Students are required to live in residences approved by the Principal, unless living at home or with relatives. Immediate notification of any change of address should be given in writing to the Registrar.

Living in flats is not encouraged by the College. First Year students under 21 years of age will not be given approval to take up this kind of residence.

Correspondence

Students writing to the Principal, Registrar or any member of the staff, should indicate the number of their section immediately below their signature.

Any correspondence with the Department of Education must be sent through the Registrar.

Standards of Work

All work submitted to lecturers must represent the student's best effort. It is important that submissions be neat and well presented. Care must be taken with spelling and expression in reports, essays and examinations.

Part-Time Employment

Students are not permitted to undertake employment during term time which could interfere with their College work. Any proposed employment should be discussed with the Staff Adviser.

Leave of Absence

Where absence is anticipated, an application for leave must be submitted in advance. In cases where the student is compelled to be absent without notice, he or she should telephone the Vice-Principal or the Warden of Women Students, or arrange to have this done.

Appointments with doctors, dentists and others should not be made during College hours. If special circumstances exist, an application for leave must be submitted beforehand.

Full reasons for any absence must be given on the special *Application for Leave of Absence* card available at the office and the completed card handed in at the office. A medical certificate is necessary for absences of more than three days.

Regulations to be observed when a student is absent from

(a) a school during the practice teaching session, or

(b) a recognized examination,

are detailed on pages 24 and 32 respectively.

Medical Officer

The College Medical Officer does not treat students, but is available for advice on health matters when in attendance at the College.

Medical Examination

The Department requires all scholarship students to be re-examined by the College Medical Officer before the end of their course. It may be considered necessary by the Department that some students be examined periodically by the College Medical Officer.

INFORMATION FOR STUDENTS

Enrolment Procedure

Before students can be formally enrolled they are required to produce their birth certificate and the warrant for their admission to College as issued to them by the Department of Education.

Payment of allowance will depend upon these documents being received, and in no case will a student be paid an allowance for any period prior to such formal enrolment, notwithstanding that he may have been in attendance at classes.

Bonds

No student, until he has completed his bond, can be regarded as having properly enrolled; consequently, payment of scholarship allowance may be withheld.

Scholarship Allowances

For full details of scholarship allowances students should consult the current Teachers' College Scholarship Handbook.

The rate of scholarship allowance is determined individually for students at the time of award of scholarship. Should a student feel that he is eligible for a higher rate of scholarship allowance, or that, because of changed circumstances, he has become eligible for such a higher rate during his course, he should in the first instance consult the Registrar. If the student then wishes to apply for an increase in scholarship allowance he must make application in writing to the Principal.

Accident Insurance Scheme for Students

Immediately a student is injured, either during College hours or in the course of travelling to and from College, the Section Adviser should be notified. The student will be given a CLAIM FORM and STATEMENT OF WITNESS FORM, which must be completed and returned to the Adviser immediately.

Where the student is—

- (a) absent for three days or less and no medical or allied costs have been incurred, scholarship allowance will be continued and no insurance benefits will be payable;
- (b) absent for more than three days, or where medical or allied expenses are incurred, *even though the absence may be three days or less.*

Insurance benefits will be payable from the first date of absence and medical and allied expenses will be payable in respect of all claims for which liability is accepted. All doctors' accounts, etc., must be handed in to the office as soon as possible.

Expenses

(a) Claims for the refund of travelling expenses incurred in visiting Sydney for interviews and enrolment should be made on the prescribed forms obtainable from the Registrar's office. Refunds are made by the Department later in the year.

(b) Students entitled to concession fares on trains or buses should complete the appropriate certificate obtainable from the Registrar's office. These need to be returned to the Registrar for attention.

(c) For demonstrations and practice teaching, students are entitled to a refund of expenses incurred over what is normally paid to come to College. Forms are available from the office and, when completed, need to be signed by a lecturer.

(d) Students who live at home, and travel to College by train for a distance of over 7 miles, are entitled to a refund of the amount of rail fares paid in excess of the amount charged for a distance of 7 miles. Claims may be submitted to the Registrar at the end of second term.

(e) Week-end concession fare certificates may be obtained by students wishing to travel home for week-ends. They must be endorsed, *Travelling Home and Returning to College*. These should be completed and handed in for the Registrar's endorsement, at least two days prior to the week-end.

EXAMINATIONS AND CLASSIFICATION

Examinations

1. The recognized examinations are:

- (a) Mid-year examinations to be held during the second term of first year. This examination provides an opportunity for determining the student's fitness and adjustment in relation to tertiary education and continuance at College may be dependent upon receiving satisfactory results at the Mid-year examination.
- (b) Yearly Examinations to be held at the end of both first and second year.
- (c) Deferred examinations arranged after both yearly examinations for such cases as may be approved by the Principal in accordance with the regulations.

Recording Results

2. For the purpose of recording results in academic work in the Mid-year and Yearly examinations, students shall be divided into four grades, I to IV, of which Grade I shall be highest. These grades shall be known as distinction, credit, pass and failure.

In computing results, one hour per week for the duration of the course shall be taken as the unit, provided that a maximum of four units be allowed.

For any College course:—

Distinction shall carry four points per unit ;

Credit shall carry three points per unit ;

Pass shall carry two points per unit ;

Failure shall carry no points per unit.

Progression and Classification

3. (a) Progression from first to second year shall be contingent upon the student gaining 50 per cent of the available points in first year, provided that failures in two or more courses may be taken to disqualify a student from such progression.

Notwithstanding the above, if any student displays a marked deficiency in any course, the Principal may refuse that student progression.

(b) Students who fail to satisfy requirements for progression to second year either at the yearly or, if applicable, at the subsequent deferred examination, may be recommended for:—

(i) discontinuance,

(ii) repetition of the year without allowance, or

- (iii) progression carrying certain failed courses. Students recommended for progression under this clause may be required to carry the failed courses to the Teachers' Examination, or they may be examined in such courses at the end of the second year either by viva voce examination, or by thesis, or by essay, or by being required to sit again for the first year examination in the course being carried.

Students who fail a carried course at the end of the second year shall be required, if eligible for appointment to the service as a result of their second year attainments, to attempt a Teachers' Examination in the failed course.

No student shall be permitted to carry more than two failed courses into the second year.

(c) Students who gain 50 per cent or more of the available points in the final year of their studies provided that they have no marked deficiency in any course and have not failed in more than two of their second-year courses or in any courses carried from first year, shall, if they possess satisfactory professional records, be recommended as eligible in academic attainments for a Teachers' Certificate.

(d) Students who fail to qualify for recommendation for a Teachers' Certificate:—

- (i) may be recommended as eligible in educational attainments for a Conditional Certificate, in which case they may present themselves for deferred examination.
- (ii) may be granted an additional year's training on such conditions as may be determined by the Director-General, or,
- (iii) may be recommended for non-appointment.

(e) *Diploma of Physical Education.*—In the Diploma of Physical Education course progression from one year to the next and the ultimate granting of the Diploma will, in general, depend upon a student satisfying requirements in each of the six areas as defined in the College Calendar.

Deferred Examinations

4. (a) Students who fail to gain progression from first to second year at the Yearly Examination may, at the Principal's discretion, be granted deferred examinations. In cases where these are granted, the grades of pass or fail only shall be awarded at the examination.

(b) Absence from any examination may be regarded as failure in the course or courses concerned, but students who have been absent from the Yearly Examinations may, at the Principal's discretion, be granted deferred examinations. Students seeking deferred examinations in these circumstances must supply the Principal with the following information as soon as possible.

Name and Section.

Subject and Lecturer.

Reason for absence. The plea of illness must be supported by a medical certificate.

Full credit for a deferred examination granted by the Principal in these circumstances shall be given only to those students who show that they were unavoidably absent from the original examination.

(c) The deferred examination for students who have not gained admission to Second Year shall be held either in the first week of the new term or in the next preceding week, and shall be administered by the College.

(d) Students who in their final year fail to satisfy the academic requirements for the Teachers' Certificate shall present themselves for the deferred examination which will be held in conjunction with the Teachers' Examination conducted by the Department of Education during the August vacation following the yearly examinations of the College. Such examination shall be set by the College staff and examined by them.

(e) In general, the courses examined at deferred examinations shall be those in which the student has failed.

5. Courses for the purpose of these Regulations shall be as defined in the College Calendar.

6. *Spelling.*—A Departmental Regulation requires students to achieve a satisfactory standard in spelling. Students who fail to achieve this standard can be recommended only for the award of a Conditional Certificate, even though they have satisfied requirements as prescribed in those Regulations in all other courses.

7. Absence from lectures without acceptable explanation may preclude students from being admitted to college examinations.

Amendment to Examination Regulations

These regulations may be amended, such amendments to be effective from the commencement of any future college year.

PRIZE LIST 1965

Department of Education Prize.—Books to the value of \$32. This prize is awarded to the second year student with the most distinguished academic record.

Shared by:

Miss P. Thorsby.

Miss K. Black.

Principal's Prize.—Books to the value of \$10. This prize is awarded annually to the second year student obtaining the highest marks in Education, and who has also a distinguished record in practice teaching.

Miss M. Wessels.

Illawarra Teachers' Federation Prize.—Books to the value of \$10. This prize is awarded to the second year student with the most distinguished record in English Literature.

Miss K. Black.

Health Education Prize.—Books to the value of \$6.30. Awarded to the second year student having the most distinguished record in Health Education.

Mr J. Peel.

Demonstration School Building.

THE DEMONSTRATION SCHOOLS

1. For Primary And Lower Primary Demonstrations *Fairy Meadow Demonstration School*

Executive Officers: Principal: W. J. LANDY, Esq., B.A.

Deputy Principal: Miss J. HARRIS.

Mistress of Infants' Department: Mrs. E. M. SCHRODER.

Deputy Executive Officers: Mr J. SCARLETT (Deputy Master), Miss J. HODGE (Deputy Mistress), Miss H. POLLARD (Deputy Mistress, Infants).

The demonstration school, situated on the corner of Princes Highway and Balgownie Road, Fairy Meadow, is approximately one and a half miles from the teachers' college.

This first class school, made up of two departments (primary and infants'), is staffed with twenty-nine experienced teachers who have been specially chosen by the Department of Education to demonstrate methods of teaching to college students. The importance of this school, which all students visit weekly for a period of one and a half hours for the purpose of observing lesson techniques, cannot be overestimated for it is here that students become familiar with the practical application of methods which have previously been considered in college lectures. Thus the school plays an integral role in teacher-training and works in close liaison with the college.

Demonstration lessons are planned two weeks before the lessons are given by the teachers and are the result of careful planning by the lecturers, executive officers and teachers of the school. The demonstrating teacher writes the notes for his/her demonstration lesson and a copy is given to each student before the demonstration lesson takes place.

Demonstrations to first year students usually illustrate basic methods in the various subjects of the curriculum. Second year demonstrations aim at an extension of these methods to produce efficient teaching procedure.

Before each demonstration lesson a period of ten minutes is allotted for "briefing" of students by the college lecturer and the demonstrating teacher, both of whom discuss the particular lesson in terms of the aim, progression, preparation and lesson steps.

Immediately following the actual demonstrations, a similar period of ten minutes is allocated for lecturer-teacher-student discussion of the lessons. Subsequently students record their impressions of the lessons so that, over a period of two years, students will have built up quite a considerable amount of educational data which should prove invaluable during the first few years of teaching.

Other important services rendered by the demonstration school are:—

- (1) It affords the necessary link with college theory and allows that theory to be demonstrated in practice, at the same time providing the opportunity for students to “keep in touch” with children in the five to twelve age group.
- (2) It allows students to observe at first hand modern teaching methods, modern equipment and experimentation in classroom dynamics.
- (3) Opportunities exist for students to participate in some of the demonstration lessons.
- (4) College lecturers and students are afforded an opportunity to experiment in the field of educational psychology. It is at this school that material for case studies is gathered.

The principal and teachers of the demonstration school will have their work made easier on demonstration days by student observance of the following points:—

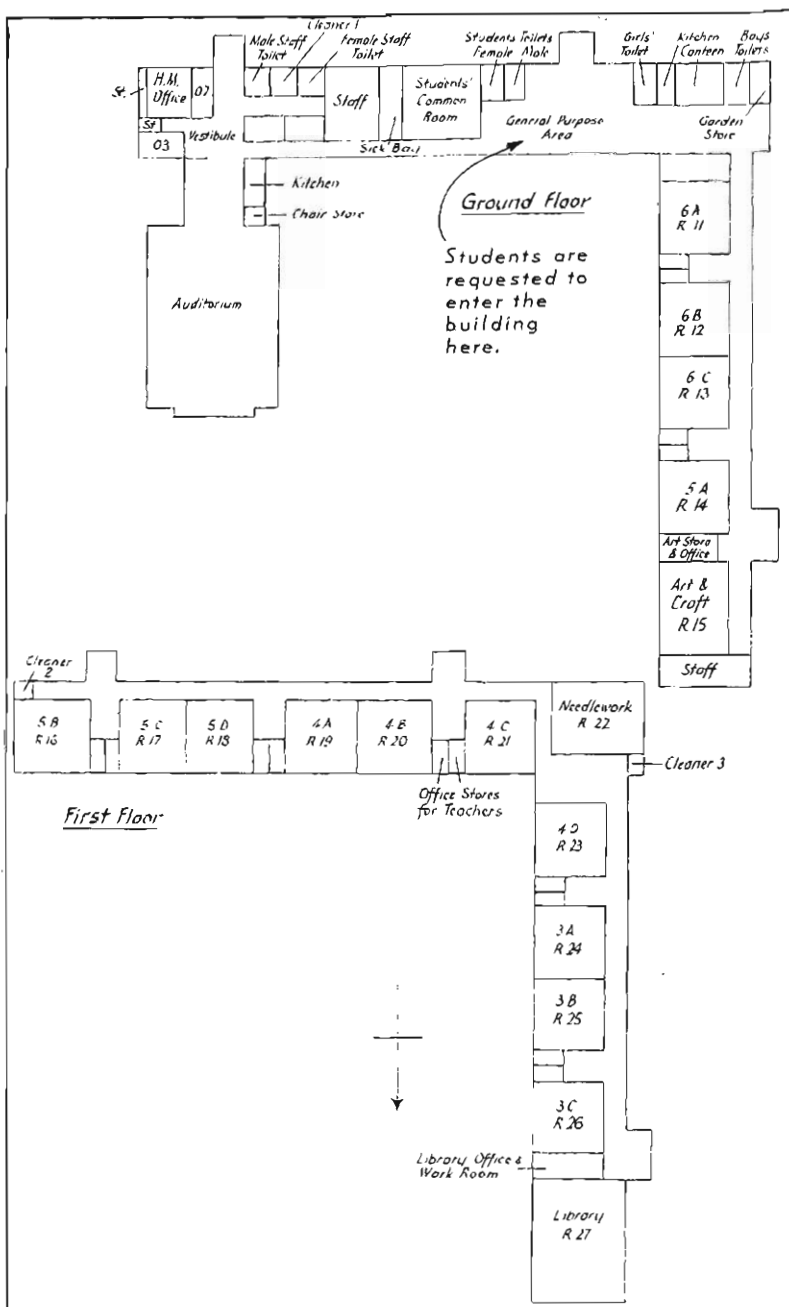

- (a) Students are not to enter the school building or the demonstration classrooms before 8.55 a.m.
- (b) Students are requested to be in attendance at the school at the time set down by the college lecturer. Late arrivals will not be permitted to enter a classroom once the demonstration has commenced.
- (c) Quiet, orderly movement of students through the corridors and to and from the demonstration rooms is requested.
- (d) The front lawn area is out of bounds for all students, who should use the concrete paths when entering the school grounds.
- (e) Students are asked to refrain from entering the main primary building by the front doors, which lead to the administrative section. Entry should be made from the asphalt assembly area and through the wire gates which lead on to the general purpose area.

2. For Small Schools Demonstrations

Mt. Keira Demonstration School

Principal: Mr. B. E. LENEHAN

This is a one-teacher school situated at the foot of Mt. Keira, in Mt. Keira Road. It is about 4 miles from the teachers' college, and is used for demonstrating the teaching techniques required for teaching in small schools.

Plan of the new Demonstration School at Fairy Meadow.

DEMONSTRATIONS

Students shall attend demonstrations at the following times:—

First Year—Tuesday, 9.0 a.m. to 11.0 a.m.

Second Year—Thursday, 9.0 a.m. to 11.0 a.m.

Students are expected to make their way directly to the demonstration school on the appropriate morning, arriving not later than 9.0 a.m.

The following procedure is to be followed:—

- (1) Students should assemble informally in sections in the playground near the entrance to the class-room in which the *first* demonstration is to be held. The accompanying map will assist in locating these rooms. All students should be present by 9.05 a.m.
- (2) Students will move into the classroom at the direction of the lecturer in charge of the first discussion and be ready to commence work at 9.10 a.m.
- (3) The *second* demonstration will be discussed first and then the *first* demonstration in the same room.
- (4) The first demonstration will be from 9.30 to 10.00, and the second from 10.05 to 10.35. The interval is to allow students and lecturers to move from room to room.
- (5) Post-demonstration discussions will be held in the room of the second demonstration after its completion. The *second* demonstration will be discussed from 10.35 to 10.45, and then the first from 10.45 to 10.55.
- (6) Buses will leave the school for the college at 11.00 a.m. Students are asked to make their way promptly to the buses on completion of the post-demonstration discussions.

PRACTICE TEACHING

NOTES FOR STUDENTS

1. Students should report to their schools at 9 a.m. on the first day of practice. (Coniston and Warrawong students 8.45 a.m.) No teaching will be done on this day. They will be allocated to their particular classes and will have the opportunity of seeing their class at work. On this day, they will obtain details of lessons to be given.

2. Students are to regard themselves as temporarily attached to the school staff and under the general control of the Principal of the school. They should accept all the obligations that the status of teacher implies. Apart from giving their set lessons, students are expected to take part in the duties for which the class teacher is responsible (e.g., playground supervision, games supervision). They should acquaint themselves with local rules and customs of the school.

3. Time of Duty:—

Students will sign a time-book each day indicating—

(a) time of arrival and departure,

(b) lessons, with times indicated, to be given for the day.

A student at each school or department will be made responsible for the return of the book to the Vice-Principal of the College at the end of the Practice.

Time of duty is normally from 9.0 a.m. to 3.30 p.m. Coniston and Warrawong: 8.45 a.m. to 3.15 p.m.

4. (i) Students who desire leave of absence, or are absent through illness or for any other reason, should forward an application for leave (the usual form used by teachers), signed by the Principal of the school, to the Vice-Principal of the College.

(ii) Students should avoid, as far as it is possible, any absence during the practice. When absence is unavoidable students should notify the school before the beginning of classes, by telephone or other means (e.g. it will be sufficient if another student at the school informs the Principal of the school).

5. Some students will be supervised by a member of the College staff, others by Principals, and Mistresses of Schools.

6. In general students will be required to teach one hour per day during the first week of practice. Thereafter, two hours per day should be attempted with a minimum of five hours per week.

First year students will follow a modified programme in their first period of practice-teaching.

Second year students should, in their final practice, obtain as much teaching experience as possible.

7. (i) First year students will be required to prepare comprehensive lesson notes for lessons given during the second practice. These notes should follow the general plan found in Demonstration School lesson notes and should be sufficiently detailed to make it clear that real thought has been given to the lesson and its needs foreseen in preparation. But the student must quickly learn that careful preparation and carefully recorded lesson notes are not necessarily the same thing. The details of preparation that a student has in his head are finally more important than those in the lesson notebook.

(ii) Students should use a foolscap-size book for their lesson notes. The lesson notes should be written neatly on the right-hand pages of the book, leaving the left-hand pages for commentary by class teachers or other supervisors, for the students' own criticism of the lesson, and for the recording of results of the lesson and analysis of errors.

(iii) These lesson notes should be shown to the class teacher prior to the presentation of the lesson.

(iv) In second year, students will use a Day-book to record their preparation. A second year student may be required to revert to full lesson-notes if the presentation of lessons suggests inadequate preparation.

8. Students are expected to use all their time at the school to the best advantage of their progress in teaching. This particularly applies to those periods when they are teaching and then to those periods when they are not responsible for class teaching. Students with initiative and concern for their own progress in the complex art of teaching will need little direction as to the use of this time.

Part of the time will be used on work for the Observation Book. Each student should have a special book for this purpose. In this book, the student will record those observations which he believes will be helpful to him. In each practice the College requires students to record observations under three major headings. These will be announced prior to the Practice.

In a Practice the student may be asked to base observations on the following aspects of teaching:

(a) Co-operation with the classroom.

- (i) Detailed observations on methods used to secure good class-morale, positive group loyalty and general co-operation.
- (ii) A student should include an account of methods he himself has attempted. The opinions may be tentative because of inexperience, but they will make an interesting record for the student in his later development.
- (iii) Detailed observations on the nature of what may be carefully described as a healthy spirit of competition within the class.

(b) Classroom management.

- (i) The student should describe instances of pupil misconduct he met in his own teaching. He should examine the possible causes and record the steps he took to overcome these difficulties. How much did individual misconduct interrupt or break the continuity of the lesson? How could this be reduced? How did the student deal with this difficulty? Were methods of management used by the student successful? If not, the student should attempt explanation.
- (ii) The student should also record successful approaches and methods which he learns about either as a result of discussion with the class teacher or as a result of examples provided by the class teacher or other teachers. The student should consider whether these methods could be successfully used in his own work. So many apparently successful methods lean heavily on the nature of the personality employing them.

(c) Teaching procedures.

- (i) Was the class subdivided for some lessons? What purpose does this serve?
- (ii) The student should give an account of various tests used in different subjects. He should also give an account of preparation, presentation, marking, recording and follow-up in relation to these tests.

In no circumstances may adverse assessment be recorded.

In their own interests students are advised to go beyond the three set headings if they believe the school offers valuable information.

9. In no circumstances whatsoever is a student allowed to punish a child in the sense of corporal punishment. Students must keep control of themselves: slapping, hitting with a ruler—any form of such punishment is completely banned. Detention of a child may occur but only with the knowledge of the class teacher.

10. Supervisors will show students a written report on their work. Students may discuss this with their supervisors and they should take particular note of references to points for development. Students will sign their reports as evidence of their having read the report.

11. Special care should be taken with dress, general deportment, and speech.

12. Library Hours: 3.30 p.m.-6.0 p.m. Pictures may be borrowed for two days only.

13. Blackboard writing—according to the school. Students should undertake practice as much as possible. Left-handed students are required to become proficient in using the right hand for blackboard work.

14. Refund of fares: Fares paid in excess of normal fares to College will be refunded to the student. The appropriate form may be obtained from the supervisors. Students will submit these to the Registrar of the College.

Unsupervised Practice

1. Students who have completed their first year course shall, towards the end of the summer vacation, spend two weeks practice-teaching. College staff will not supervise this work.

2. Students select their own school, subject to college approval.

3. The College will not, for this practice, refund any travelling or other expenses incurred by students.

4. The students should prepare lesson notes and compile their observation books as directed by the College.

THE COLLEGE LIBRARY

The library is freely available to all students and staff of the college and teachers may also apply for membership. It consists of a rapidly growing collection of books, periodicals and pamphlets as well as music scores, gramophone records, art prints, film strips and other teaching aids.

The card catalogue is an alphabetical index to the library collection, with entries for books under author, subject and title. The call number of a book is given at the top right-hand corner of its catalogue entries and indicates its location on the shelves. The books are arranged on the shelves by subject according to the Dewey Decimal Classification.

Hours

The library is open from 9 a.m. to 5 p.m., Monday to Friday, both during term and vacation. During practice teaching periods the library hours may be extended after 5 p.m. These times and any other variations in hours will be posted on the College notice boards.

Borrowing

A loan record must be made for every item borrowed from the library for however short a time.

Books may be kept for one week but if not in demand, the loan may be renewed. Books already on loan to others may be reserved and borrowers will be notified when they become available.

Books in great demand may be restricted to a loan period of two days or overnight only. These books will be kept at the charging desk.

Students may not have more than three books on loan at a time.

Periodicals, pictures and other material may also be borrowed on application to the library staff.

Care of Books

Library material of all kinds must be returned in good order and not marked in any way. Any damage or losses should be reported to the Librarian immediately.

Borrowers are held responsible for all material taken out of the library in their name and will be required to replace lost items.

College Library—Southern Entrance.

Library—Reading Room Entrance.

Photo: J. Cramp

Conduct in the Library

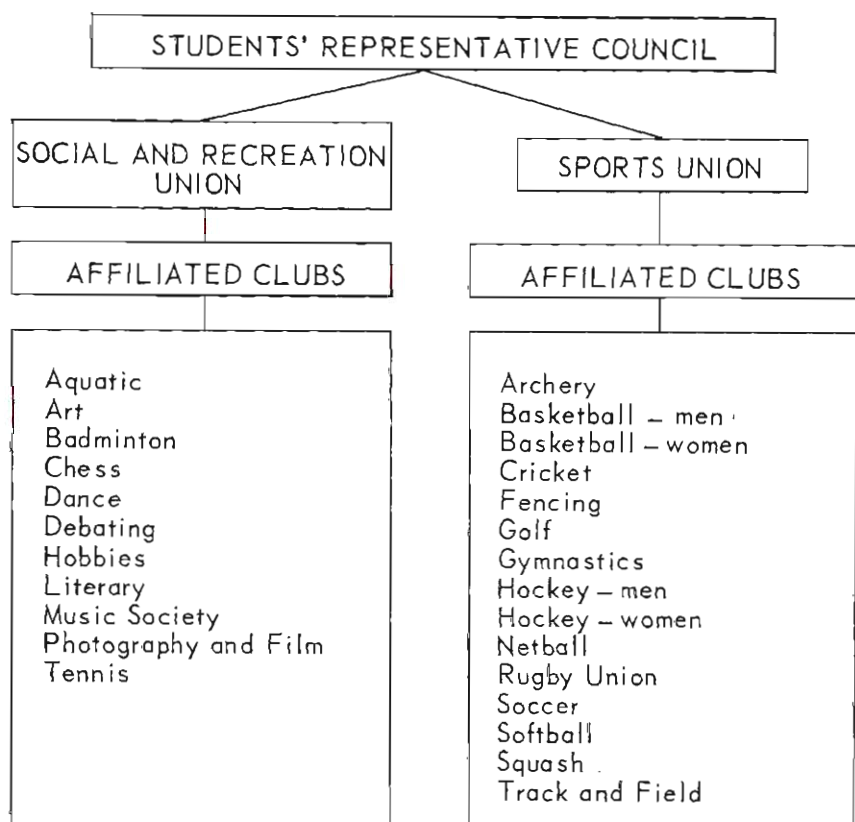

The library is a place for reading and study and should be quiet at all times. Students are not permitted to talk and they should move about quietly.

Eating or smoking is not permitted in the library.

Brief cases and bags must not be brought into the library.

If students have any difficulty in finding books or information they should ask the library staff. They will be pleased to help.

WOLLONGONG TEACHERS COLLEGE STUDENTS' REPRESENTATIVE COUNCIL CONSTITUTION

A. Composition

1. The Council shall consist of:—

- (a) President, Vice-President, Secretary and Treasurer. These Executive Officers shall be elected by the student body during the third term in each year, or at such time as the Principal may determine in the light of any special circumstances within the College.
- (b) Two representatives of the approved College Clubs affiliated with the Students' Social and Recreational Union to be elected by and from the members of these clubs within the last three weeks of the second term. The election of these representatives shall be supervised by a Special Club Executive, which is responsible to the S.R.C. for the general running of the clubs, societies, and associations of students affiliated with the Students' Social and Recreational Union and not embracing those associated with the Sports Union. The Special Club Executive shall be elected by the members of the clubs within the last three weeks of the second term.
- (c) One representative, to be known as the "Section Representative" elected by and from the members of each section within the College. Election of the Section Representative shall take place not earlier than three full weeks from the commencement of the College year.
- (d) Two representatives of the Sports Union elected by and from its members.
- (e) The continuation of these elected representatives in office may be terminated by the group which that person represents, or by the Council, or by the resignation of that representative.
- (f) Members absenting themselves from two (2) consecutive meetings without leave, shall cease, *ipso facto*, to be members of the Council. The sections or affiliated bodies concerned shall elect new representatives.

2. A Council member shall represent only one of the constituent bodies outlined above.

B. Election

1. Nominations for Executive Officers shall be in writing, signed by the person nominated and at least five other persons entitled to vote for him or her.

2. The names of all candidates for election to the Council shall be submitted to the Principal, who may exercise his right of veto.

3. Elections shall be by ballot, and by preferential voting. The Vice-President shall be the student who polls the highest number of votes after the President.

4. All nominations for Executive Officers are to be displayed on the Student Notice Board for one week prior to the day of the election.

5. Arrangements for the casting and counting of votes shall be made by the Principal or his nominee.

C. Meetings

1. The Council shall meet at least once a fortnight during terms.

2. The Principal or a member of staff nominated by the Principal shall have the power of attending the meetings of the Council, and of examining the minutes of any meeting.

3. The Council Executive may call a compulsory General Meeting of students when required. General Meetings may also be called if required by a majority vote at a Council meeting.

4. On written requisition of three (3) members of the Council, the Secretary in conjunction with the President, may call a special meeting of the Council.

5. The Executive shall meet at such times as it shall determine.

6. A quorum of the Council shall consist of 60 per cent of the Council members.

7. Issues shall be determined by simple majority, except those involving amendments to the Constitution (q.v.). The President shall have an original and a casting vote.

D. Powers of the Council

1. The Council may legislate, with the Principal's approval, with regard to, and make recommendation to the Principal, on any matter affecting the interests of the student body or of any individual student.

E. Powers of the Executive

1. Members of Council Executive are empowered to attend any meeting of any club, association or society.

2. The Executive of Council may meet at any time and make interim decisions on behalf of the Council.

3. In all matters involving student ballot, the executive shall act as scrutineers, the President of Council being the Returning Officer, subject to the operation of Section B, Clause 5 above.

4. A Judicial Committee consisting of the Principal and members of Council Executive shall be the sole authority empowered to interpret this Constitution if required to do so.

F. Sub-committees

1. Sub-committees shall be appointed by the Council as may from time to time be deemed necessary.

2. Sub-committees, on a request from Council, shall be required to submit reports.

3. Sub-committees must be authorised by Council in matters involving expenditure.

4. The Council shall have the power to co-opt any member of the student body who may so wish, to act as a member of any sub-committee formed by the Council.

5. The Council shall initiate the formation of a Social and Recreational Union from members of the student body, and this Union will be responsible for all social and recreational activities of the Wollongong Teachers College which lie outside the control of the Sports Union.

G. College Clubs

1. The terms Club, Association and Society are defined as those groups of students whose affiliation as a club, etc., is with the S.U. or S.R.U.C. Religious and political organizations within the College are not considered clubs in this sense.

2. No College club, association or society may be organized without the approval of the Principal, in the first instance.

3. The Secretary of every College club, society or association shall notify the S.U. or S.R.U.C. in writing of the names of the executive officers of that club, society, or association within seven days of the election of such executive officers.

4. The S.U. or S.R.U.C. may hold an enquiry into the management of any club or association or society or committee of these, and bring the matter before the Principal, if that be deemed necessary. The Secretary of any such club or committee shall, if called upon, furnish all information required by the S.U. or S.R.U.C.

5. The club is empowered to carry out activities for which it is formed.

6. Members of clubs may be drawn from the present students and staff of Wollongong Teachers College only. Membership may, at the discretion of the S.U. or S.R.U.C., be restricted if this becomes necessary for practical reasons. Should this occur, a restricted number of members will be invited from each section by the club executive, after recommendation by the S.U. or S.R.U.C. Membership of clubs is honorary, but with the permission of the S.U. or S.R.U.C., levies may be raised from members to augment club funds.

7. Meetings should be under control of a Chairman or Club Executive. Club, Association and Society Executives are required to keep, in a special book, written record of all meetings and activities held during the year.

8. Clubs, associations and societies when intending to hold functions at College, outside College lecture time, should seek the approval of the Principal and S.U. or S.R.U.C.

H. Finance

1. An annual subscription of \$12 shall be paid to the S.R.C. by each student immediately upon enrolment and re-enrolment. The Council, moreover, reserves to itself the right to levy further fees if necessary. From each student subscription, the sum of \$3 shall be made available on application, to the Sports Union, and \$2 to an Art and Craft Fund. The S.R.C. may consider applications from the Sports Union for additional moneys, and will make such additional grants if the S.R.C. considers that such grants are in the best interests of the student body.

2. All funds or donations of any kind received by any student bodies affiliated with S.R.C. shall be controlled by the S.R.C. and are not the property of a particular club or committee unless the S.R.C. has given prior approval for the fund to be used for a specific purpose of that club or committee. Such approval will be given unless the S.R.C. considers that to do so would be to conflict with the normal welfare of the whole student body.

3. One centralised bank account is to be held and shall be operated upon only by cheque signed by any two of the following:—the Principal, the Vice-Principal, the Registrar. Such cheque will be signed

on the written application of the Treasurer, approved by the President and Secretary.

4. The purchase of goods on credit on account of any club, association or society is not permitted unless a written order has been obtained from the Registrar.

5. The Council shall prepare a report and statement of accounts to be submitted by the retiring treasurer at a General Meeting of students to be held at the end of the treasurer's term of office.

6. Each College club, association or society shall forward to the S.R.C. a report and statement of accounts at the close of each executive year.

I. Alteration to Constitution

This constitution may be altered or amended only if:

- (a) notice of the amendment or alteration is submitted in writing to the secretary of the S.R.C.; and
- (b) the amendment or alteration is approved first by a three-quarter majority of the S.R.C. and then by a majority of students at a General Meeting for which at least seven days' notice has been given. Notice of the meeting shall include details of the proposed amendment or alteration of the constitution.

All such alterations and amendments, though constitutionally passed, shall require the approval of the Principal before taking effect.

SPECIMEN CONSTITUTION FOR CLUBS

1. Membership shall be open to all members of the student body except where membership is based on sex differences.

2. Committee of Management.—There shall be a Management Committee, which shall consist of President, Vice-President, Secretary and Treasurer.

3. The election of officers, including a representative for the Sports Union or Social and Recreation Union, shall take place at a general meeting to be held within three weeks of the commencement of First Term.

4. Vacancies.—Vacancies occurring shall be filled within two weeks by the vote of a general meeting.

5. Meetings.—Meetings shall be convened at the discretion of the Management Committee.

6. Finance:

- (a) all official transactions shall be recorded in the Minutes;
- (b) the treasurer shall ensure that the expenditure shall not exceed the limits of the S.R.C. grant;
- (c) the following procedure shall be followed when making application for grants from the S.R.C.:
 - (i) the application for a grant shall be submitted to the Sports Union or Social and Recreation Union to be considered in the annual budget;
 - (ii) the application shall state the number of active members;
 - (iii) the application shall state the amount of previous grant;
 - (iv) the application shall list equipment in hand;
 - (v) the application shall state the nature of the proposed expenditure.

7. Record.—The Secretary shall keep records which shall contain:

- (i) a statement of the constitution;
- (ii) copies of the reports submitted;
- (iii) details of all financial transactions;
- (iv) a list of the assets of the club;
- (v) a list of the names of officers;
- (vi) minutes of all meetings and details of the club's activities.

8. Amendments and Alterations to the Constitution.—The constitution may be amended or altered at a general meeting if a two-thirds majority favour such amendment or alteration. All intended amendments and alterations must be handed to the Secretary in the form of a notice of motion which will be displayed for at least seven days before the ensuing general meeting.

CONSTITUTION OF THE SOCIAL AND RECREATION UNION

This Union is responsible to the S.R.C. for all social and recreational activities of the Wollongong Teachers College which lie outside the control of the Sports Union. Responsibilities of the Union include the organization of the Graduation Ball, College dances, recreational and social functions, and also the consideration of matters referred to it by the various clubs affiliated with it.

1. *Name*.—The Wollongong Teachers College Social and Recreation Union.

2. *Purpose*.—The purpose of the S.R.U. shall be the promotion and control of all social and recreational activities of the Teachers' College outside the jurisdiction of the S.U., and as determined by the S.R.C.

3. *Social and Recreation Union Council*.—The Social and Recreation Council (hereinafter referred to as the S.R.U.C.) shall consist of:

- (a) Elected officers, viz., President, Vice-President, Secretary, Treasurer.
- (b) One member of the Lecturing Staff nominated by the Principal.
- (c) The President of the College Council or his nominee from within the S.R.C.
- (d) One representative of each of the clubs affiliated with the S.R.U.C.
- (e) Any other members whom the S.R.U.C. may co-opt from time to time.

The Secretary of the Social and Recreation Union shall notify the S.R.C. in writing of the names of the officers of the S.R.U.C. within seven days of the election thereof. Clubs affiliated with the S.R.U.C. shall do so through the club executives.

4. *Officers and Election of Officers*.—Officers shall be:

- (a) President
- (b) Vice-President
- (c) Secretary
- (d) Treasurer

The president-elect, vice-president elect, secretary-elect and treasurer-elect shall be elected from the S.R.U.C.-elect during third term and assume office at the beginning of the ensuing year. Other officers shall be elected at a general meeting held at the commencement of first term. Vacancies on the committee shall be filled within one month of their occurrence.

5. *Quorums*.—At a meeting of the S.R.U.C. sixty per cent of its members shall constitute a quorum.

6. *Enquiries*.—The S.R.C. on its own motion, or at the written request of ten members of the student body, shall be competent to address enquiries to the S.R.U.C. as to any of the activities of the S.R.U.C. and shall take appropriate action concerning such.

On the written request of five members of any affiliated club, the S.R.U.C. shall enquire into the management of that club, and shall take appropriate action.

7. *Meetings*.—The S.R.U.C. shall meet at least once every twenty-one days during every College term, and while the College is in session.

8. *Special Meetings*.—A special meeting of the S.R.U.C. shall be called within fourteen days following receipt by the Secretary of the S.R.U.C. of a request signed by twenty members of the student body. Matters for discussion shall be prominently posted for seven days prior to the meeting.

9. *Formation of Clubs*.—On the formation of any social or recreational club, its secretary shall forward to the S.R.U.C. with its application for affiliation two copies of its proposed constitution. One copy shall be retained by the S.R.U.C. and the other forwarded to the S.R.C. The Constitution of all social and recreational clubs must be acceptable to the S.R.U.C.

10. *Finance*.—The Social and Recreation Union shall make application to the S.R.C. for grants to finance social and recreational activities throughout the year. The S.R.U.C. Treasurer shall forward to the S.R.C. a statement of accounts at the close of each executive year.

Subject to the approval of the S.R.C. the S.R.U.C. shall have power to make grants to affiliated clubs from funds controlled by the S.R.C. Should a grant be refused by the S.R.U.C. an affiliated club has the right to appeal to the S.R.C.

Secretaries of clubs making application for grants shall supply the following particulars:

- (i) Number of active club members.
- (ii) The proposed expenditure of the grant.
- (iii) The amount of any previous grant made.
- (iv) Assets.

11. *Reports.*—The S.R.U.C. shall furnish to the S.R.C. reports submitted by the retiring secretary and treasurer. The reports shall be read at the annual meeting of the S.R.U.C. The balance sheet of the S.R.U.C. shall be placed in the students' notice case for at least seven days prior to its presentation to the general meeting of the Union.

12. *Attendance of Members.*—A representative absent from two consecutive meetings without sending a deputy (who shall be acceptable to the S.R.U.C. as representing the group whose member is absent) or without leave of absence, shall forfeit his or her position on the S.R.U.C.

13. *Alteration of the Constitution.*—The constitution may be amended only if such amendment is supported by a majority of two-thirds of the members present at a general meeting of the S.R.U.C.

SPORTS UNION CONSTITUTION

1. *Names*: The Wollongong Teachers College Sports Union (hereinafter referred to as S.U.).

2. *Purpose*: The purpose of the S.U. is to promote and manage all sporting activities of the Wollongong Teachers College.

3. *Membership*: The S.U. is open to all members of the Wollongong Teachers' College.

4. *Management Committee*: The management committee of the S.U. (hereinafter called the S.U.C.) shall comprise:

- (a) The President
- (b) The Vice-President
- (c) Two representatives of each club affiliated with the S.U.
At least one to be a member of First Year.
- (d) Two Executive members of the S.R.C.
- (e) Any other members co-opted by the S.U.C.

5. *Officers*:

- (a) The President—a member of staff nominated by the Principal.
- (b) The Vice-President—who is to be a member of staff of the opposite sex to the President.
- (c) The Student President.
- (d) The Secretary.
- (e) The Treasurer.
- (f) The Assistant Secretary who is to be a First Year student.
- (g) The Assistant Treasurer who is to be a First Year student.

6. *Election of Officers*: The election of officers for the S.U. shall take place prior to the Annual General Meeting.

7. *Quorums*: At a general meeting of the S.U. $\frac{1}{3}$ of the members present; and at a meeting of the S.U.C. ten members shall constitute a Quorum.

8. *Annual Meeting*: The Annual General Meeting of the S.U. shall take place at the end of the College year.

9. *Meetings*: The S.U.C. shall meet at least once every calendar month whilst the College is in session.

10. *Special Meetings*: A special meeting of the S.U. shall be called within seven days of the receipt by the Secretary of the S.U. of a request signed by at least ten members. The meeting to be advertised for at least four days before it is due to be held.

11. *Notices of Motion*: Notices of Motion affecting the S.U. must be handed to the Secretary in writing at least seven days prior to their being discussed.

12. *Formation of Clubs*: New Sports Clubs may be formed and affiliated with the S.U. only at the discretion of the S.U.C.

13. *Finance*:

- (a) The S.U. shall make application to the S.R.C. for grants to finance student sporting activities.
- (b) The S.U.C. shall allocate funds to affiliated sports clubs upon receipt of the following information from the various Secretaries:
 - (i) Number of active club members.
 - (ii) The proposed expenditure of the grant.
 - (iii) The amount of the previous grant.
 - (iv) Equipment in hand.

14. *Reports*:

- (a) The retiring Secretary and Treasurer of the S.U. shall furnish reports which will be read at the Annual General Meeting.
- (b) Each retiring Secretary of each Club affiliated with the S.U. shall furnish reports of the retiring Secretary and Treasurer of the S.U. so that these can be incorporated into the Annual Report.

15. *Alterations to the Constitution*: Alterations to the Constitution can be made only if two-thirds of the members present at a general meeting of the S.U. support the amendment.

THE INTERCOLLEGIATE BOARD

The Intercollegiate Board is responsible for the organization and administration of Intercollegiate activities with other Teachers' Colleges.

The Board is composed of the following:

- (a) The President—a member of Staff nominated by the Principal.
- (b) The executive Officers of the Sports Union:
 - (i) The President,
 - (ii) The Vice-President,
 - (iii) The Student President,
 - (iv) The Secretary,
 - (v) The Treasurer.
- (c) One representative from each of the activities of which inter-collegiate is comprised.
- (d) Any other persons whom the Board elects to co-opt.

SPORTS UNION MANAGEMENT COMMITTEE

	<i>Student President</i>	<i>Secretary</i>	<i>Treasurer</i>
1962 } 1963 }	Phillip Webster	Kirsten Ommer	Robert Trevenar
1964	Alan Bailey	Roslyn Tyndal	Cecil Ladwos
1965	Grahame Pearce	Sandra McDowell	Stuart Sheeran
1966	Michael Mackney	Alison Piper	Kenneth Crabbe

TEAMS ENDURANCE RACE

The "College to the Summit Cup" was donated by Dr. Whitebrook for annual competition between the male students of the College. The inaugural race was held on 7th August, 1962, just prior to the inter-collegiate visit.

Race Conditions

1. The "College to the Summit Cup" will be competed for on an inter-section basis.
2. Any number of men from each section can enter.
3. The time of each person competing shall be recorded.
4. The team time shall be the mean time of the section team.
5. If any member does not finish the course as a result of injury, the time given to this member will be the slowest recorded for the race.
6. Sections will start at five-minute intervals.
7. Starting times are to be drawn.
8. The race will be run from the corner of the road leading into the College from Northfields Lane to a point at the summit of Mount Keira approximately level with the kiosk.

N.B.—KOTARA is an aboriginal word meaning group. At one time students were placed in a KOTARA to facilitate administration of Sports Union activities. Now sections are the basis of these activities.

Winners

1962: Section 624.	36 minutes 3.3 seconds.
1963: Kotara 2.	35 minutes 52.3 seconds.
1964: Kotara A.	34 minutes 10.6 seconds.
1965: Section 641.	32 minutes 58.2 seconds.
1966: Phys. Ed. II	31 minutes 14 seconds.

RELIGIOUS SOCIETIES

The College Christian Fellowship

The College Christian Fellowship, an inter-denominational society, is the follow-up of the Inter-school Christian Fellowship of the primary and high schools. Similar groups exist in other teachers' colleges and in universities, and all are affiliated with the Inter-varsity Fellowship.

Meetings are held once each week and include Bible study, discussions, films and addresses from students, lecturers and prominent townspeople. Picnics and house-parties may be arranged during the year.

The aims of the Fellowship are to confront students with Jesus Christ and His Gospel, to lead them to commit themselves to Him and His way of life; to help them to grow into His likeness and in the understanding of the Christian faith; to unite them in fellowship of His Church and in the devotion of their whole lives to the Kingdom of God. The Fellowship is based on faith in the living God—Father, Son and Holy Ghost—who makes Himself known to us through the Scriptures and in the life of the Church.

All students will be made very welcome at the meetings of the College Christian Fellowship.

St. Thomas More Society

This society was formed by the Catholic students of the College shortly after the institution's commencement. The broad aims of the society are to encourage the responsible and active growth of Catholic thought, example and spiritual welfare of students during their College course and their subsequent professional careers.

The establishment of this society was blessed with the approval of His Lordship Bishop McCabe, who appoints a chaplain as spiritual adviser. Students elect their own President and Secretary for the year and plan details of the yearly programme of spiritual and social activities.

Meetings are organised regularly within the College. An annual Mass and Communion is held, together with general observance of the first Friday devotion. Other functions, often arranged in conjunction with the Newman Society of the Wollongong University College, include social events and outings such as dances and barbecue picnics, visiting speakers and lecture-discussion meetings.

COLLEGE CLUBS

Two periods per week of the College timetable have been set aside for voluntary student activities. College clubs, which meet during this time, provide excellent opportunities for students to explore mutual interests. Clubs also enable students to take an active part in the corporate life of the College.

Aquatic Club

This club was established at the beginning of 1965 with the general aim of fostering interest and participation in water sports. The only requirement for membership is a desire to take part in water sports. It is not intended that the club should only cater for those with experience, but that coaching in skills at the beginner's level should be made available to new inexperienced members.

So far, most of the major activities of the club have taken place at week-end camps, both winter (snow) and summer, but a start has been made on midweek sailing, and it is hoped to include midweek water skiing in the programme for 1967. Six week-end camps will be the base number for this year.

Art Club

The art club has been formed to provide an atmosphere in which students can experiment with visual arts media. It is the club's intention to encourage the participation of students who have limited opportunity for creative expression in their college courses and to provide for advanced students to develop their own interests and techniques.

Students who join the club will be assisted with materials and the club's executive and lecturers of the art department will be available to give advice and assistance when required.

To supplement the practical work done during the club hour, visits to art exhibitions will be arranged and it is anticipated that painting excursions and week-end activities can be organized to meet the interests of club members.

Students interested in art appreciation and the study of Art History will be able to pursue their interest through club association. Art films are available and screenings can be arranged.

Chess Club

The purpose of this club is the promotion of the game of Chess. This shall be done by—

- (a) Club gatherings both in and out of college, and friendly games between groups of players.

- (b) The organization of and participation in tournaments, competitions and matches.
- (c) The instruction of new members.

The Dance Club

Here is an opportunity for students to express themselves in a variety of dance media ; modern ballet, classical, ballroom, jazz and others which students are free to initiate. Both men and women are welcome to join.

Debating Club

We feel that debating is, and should become, an integral part of Teachers College activities. As future teachers we shall be expected to be able to express ourselves vocally, in a correct, concise and succinct manner. Debating assists in this.

Any students who are interested in debating will be welcomed, if they contact any member of the Club Committee.

Fencing Club

Those who are interested in something different will find in the fencing club a good opportunity for enjoyment.

We aim to revive interest in this age-old sport by providing instruction and exercise in the various techniques involved. The ultimate aim is to hold tournaments both within the club itself and with outside groups.

The Gymnastics Club

The gymnastics club has been formed for all those interested in gymnastics outside normal physical education lectures.

There is free use of equipment and help and advice given when necessary.

We welcome all those who are interested in gymnastics.

The Literary Club

The purpose of this club is to promote and stimulate creative writing in the College. It aims at providing an opportunity for interested students to meet and discuss their work. It encourages individual expression in prose and verse ; work in any literary form of reasonable length will be welcomed.

The club hopes to publish an anthology of students' literary work. Any student interested in joining this club should watch the notice boards for details of meetings.

Photography and Film Club

This club has been formed by those students interested in still photography, movie photography, films and their projection, to produce the college film, to organize and present entertainment and educational film programmes to the student body and generally to make critical appreciation of the film shown.

The Wollongong Teachers College Music Society

The Music Society was formed in March, 1963, at a general meeting of students held with the permission of the Principal. The structure of the society aims at promoting and sustaining the continuity of the music life of the College. Membership is open to all students in the College and allows for active honorary membership of staff.

All aspects of student musical interest are represented on the executive committee, consisting of President, Vice-President, Secretary/Treasurer, Representatives from an instrumental group, light and comic opera group, recorded music group, and concert-going group. The Lecturer in Charge of Music is the Principal's representative on the committee.

Yoga

Yoga is a system of "physical, mental and spiritual development". It begins with systematic control of reflexes, postures and respiratory functions and progresses to the higher mental processes, especially seeking the development of minute control in states of mental concentration.

The exercises consist mainly of graceful, smooth movements which are a pleasure to watch and give a great satisfaction to perform.

Classes will be dependent on the number of students wishing to participate, as an instructress will have to travel from Sydney each Club day. If sufficient students are interested a series of classes, six in number and costing approximately \$3, will be held during Trinity Term.

COURSES OF STUDY

TWO YEAR COURSES

ART

The aims of the two-year course in Art are:

- (1) To introduce and secure confidence in art experiences by practical contact with art media.
- (2) To develop thoughtful self-expression and the desire to use art media for creative ends by increasing competence in the use of media and promoting a spirit of enquiry and experiment.
- (3) To propose normative values in art which will enable practice and experience to synthesize into personal concepts of form, idea and content in art.
- (4) To create a general awareness of the place and function of Art Curricula in schools as an essential element of education with due regard to individual values.
- (5) To develop a thoughtful, flexible approach to curriculum planning through the demonstration of various methodologies in Art Education, and through a growing understanding of child nature and growth patterns related to the suitability of media, techniques and topics.
- (6) To develop a recognition of the teacher's responsibility for obtaining and managing the tools, equipment and materials that facilitate Art Education.

First Year

A course comprising lectures and practical work to introduce the student to art experience and art teaching method.

Term I

Two hours per week

Two strands will be followed with one lecture per week devoted to each.

- (a) Introduction to Child Art Education History and Theory. Discussion of teaching methods and how they relate to development in child art. Lectures will be supplemented with demonstration lessons.
- (b) An introduction to the vocabulary of art, leading to the appreciation of painting.

Terms II and III

One hour per week

Approach to Design to assist students develop their appreciation.

Discussion and lectures on the Development of European Art.

Theory and Practice of Colour.

General theory and practice in the care, use and organization of the materials and equipment in the art room.

Picture and pattern making—experiments in various media and techniques. Demonstration lessons will show the application of these techniques in the actual classroom.

Viola, W.: *Child Art*.

Lowenfeld, V.: *Your Child and His Art*.

Lindstrom, M.: *Children's Art*.

Second Year

One hour per week

Second Year students studying Art will be encouraged to extend their understanding and appreciation of the visual arts.

Practical work will emphasize the application of various media and techniques to the various grades in Infants and Primary Schools.

Lectures will be given on the practical aspects of:

- (a) Lesson preparation, including discussion of lesson types.
- (b) Lesson presentation, variations of procedure and classroom organization.
- (c) Programming, including discussion of the continuity, balance and variety of art experiences.
- (d) Relationship of technical skill, expression, aesthetic judgement and appreciation to curriculum content.

Students in each of the three courses, viz., Core Course, Small Schools and Infants will be given lectures specifically related to their chosen field of teaching.

Each student will be required to gain an understanding of the theories and methods of contemporary art education.

Special Studies

First and Second Years

FIRST YEAR: *Two hours per week*

SECOND YEAR: *Five hours per week*

This course will provide opportunity for students to achieve work of a more advanced level of creativity than would be possible in other art courses of the curriculum.

The First Year programme will be dominantly experimental and exploratory in nature allowing students to discover their own creative ability and to experience new art forms. It need not be considered a disadvantage to lack previous experience. Two groups will be formed in first year, viz.:—Art I with emphasis on graphic media and Art II with emphasis on three-dimensional art forms.

In Second Year students will have the opportunity to work in TWO areas of particular interest which can be elected from both the Art I and Art II courses, including—

- (1) The Graphic Arts, e.g., painting, drawing, etching, silk screen printing and design.
- (2) Sculpture in relief and in the round, mosaic design, pottery, ceramic and metal jewellery.

Students will be required to study the History of Art through lectures, seminars, essays and private study.

Special Studies "B" Craft

CRAFT

The courses in craft are designed to provide the student with the essential techniques and teaching methods associated with the primary school handicraft courses, together with the scope and educational implications of craft work and the cultural aspects of the various crafts treated. The practical work involved in these courses provides the student with the opportunity for individual expression and the development of creativity.

First Year

Two hours per week during Lent Term, then one hour per week

Bookcrafts.

Cane basketry.

Paper Decoration.

Puppetry and Dry-core Models.

Raffia and coiled basketry.

Weaving.

Second Year

For Students taking the General Primary Course

One hour per week

1. Development of skills and techniques in the following media:

Leather.

Paper.

Wood

Metal.

Wool.

Indigenous materials.

"Odds and Ends".

2. Lectures covering the following:

(a) The development of positive attitudes; achievement in relation to standards.

(b) Lesson types, preparation, organization, programming and correlation.

(c) Equipment—sources, care and maintenance.

For Students taking the Lower Primary Course

One hour per week for two terms

1. Activities suitable for lower primary children in the following crafts:

Paper crafts.

Soft crafts.

Creative activities.

Model making.

2. Lectures covering the following:

(a) The development of positive attitudes. Achievement in relation to standards.

(b) Lesson types, preparation, organization, programming and correlation.

(c) Equipment, sources, care and maintenance.

For Students taking the Small Schools Course

One hour per week

1. Development of skills and techniques in the following media:

Leather.

Paper.

Wood.

Metal.

Wool.

Indigenous materials.

"Odds and Ends".

Activities for the Lower Division.

2. Lectures covering the following:

(a) The development of positive attitudes; achievement in relation to standards.

(b) Lesson types, preparation, organization, programming and correlation.

(c) Equipment—sources, care and maintenance.

Special Studies

First Year

Two hours per week

Students in their first year will study and undertake expressive work within the following fields.

Craft I

Art metalwork.
Ceramics.
Graphic arts.
Jewellery making.
Leatherwork.
Wood turning.

Craft II

Textile Crafts

First Year—Students will develop techniques and skills involved in expressive work in the following crafts:

Embroidery—modern and traditional.
Fabric printing and dyeing.
Fashion design and construction.
Soft furnishings.
Weaving.

Second Year

Five hours per week

On the basis of their first year work, students will select at least two of the above craft fields for specialised and extensive study.

EDUCATION

The general aim of the complete course in Education is to engender in students a knowledgeable and technically competent approach to the profession of teaching, and a firm potential base for the establishment of a satisfying and effective personal philosophy of education.

As part of the students' induction into tertiary education an attempt will be made to inform students of the special and different demands of college life. Attention will be given to the development of efficient techniques of study and productive use of College resources, e.g., lectures, library, laboratories and other special facilities.

PART A. *A Course in the Psychological Foundations of Education*

This course is centred on the theme that the task of the teacher in the classroom is to bring about change in individual behaviour. Several problems emerge from this basic task.

(1) What changes *can* be made? This involves a study of the kinds of process by which change in behaviour occurs; of the kinds of limitations imposed on behaviour by organic, social and cultural forces. Fundamental questions concerning child development, personality and motivation will be explored.

(2) What changes do we *want* to make? A preliminary discussion of suitable classroom objectives and their relationship to the wider aims of socialization will be made.

(3) *How* to bring the changes about. The central question, how do people learn best, will be explored through a workshop course organized around the following topics: readiness and individual differences; motives; the role of practice; understanding and insight; transfer of training; remembering and forgetting; the learning situation; the evaluation and measurement of learning.

PART B. *The Social, Theoretical, Philosophical and Historical Foundations of Modern Educational Practice*

(1) In what ways are schools and their activities shaped by cultural factors?

The social and cultural context of education. The inter-relatedness of society, culture and personality. The transmission of culture. The role of the school in the transmission of culture.

(2) How is the curriculum shaped?

- (a) Patterns of curriculum organization. Subject, activity and core curriculum patterns.
- (b) Principles of curriculum construction. Identification of objectives, selection of content, determination of sequence, grade placement and time allocation.
- (c) Curriculum construction practices here and overseas. The teacher's part in curriculum development. Exploration of possible developments in curriculum construction procedures.
- (d) Change and the curriculum. Possible roles of the school in connection with change in the culture pattern.

(3) What do our practices tell us of our philosophy?

The relationship between philosophy and education. The philosophical background to current education practice and theory. Towards a personal philosophy of education.

(4) How have other societies sought to achieve their educational goals?

A comparative study of other systems of education and our own, analysing the parts played by tradition, philosophy, social factors and the influence of important persons.

PART C. *Principles and Practices in Education*

(1) The nature of the educative process:

- (a) What do we mean by education?
- (b) The role of the school in education.

(2) *Principles applied to administration*

- (a) Educational administration in New South Wales:
The Education Department; Area Directorates; system of inspection; school organization.
- (b) Educational services: types and levels of schools; ancillary branches of the Education Department.
- (c) Responsibilities of the teacher: Administrative requirements at class, school and inspectorial levels.

(3) *Principles applied to classroom practice and management.*

- (a) Classroom organization. The personality of the classroom.
- (b) Discipline and class control.
- (c) Lesson types and lesson planning.
- (d) The role of the teacher.
- (e) Qualities of the good teacher.

(4) *Professional Ethics.*

A course designed to develop a regard for high professional standards in teaching, in work with colleagues, and in relationships with the community.

PART D. *Small School Teaching*

Male students specializing in primary school education will devote part of their time in demonstrations and lectures to the problems of teaching in a one-teacher school.

Special Studies

FIRST YEAR: *Two hours per week*

SECOND YEAR: *Five hours per week*

It is expected that different groups will follow varying courses by selecting from such activities as the following—

- (i) a seminar series on atypical children (with visits to appropriate institutions) ;
- (ii) group and individual research projects ;
- (iii) the study of particular educational issues in greater detail ;
- (iv) an examination of recent research in child growth and development and child psychology ;
- (v) selected aspects of social and/or abnormal psychology.

ENGLISH

First Year

(i) Expression

One hour per week

This course will be mainly concerned with the student's proficiency in the use of written English, accurate use of words, the extension of vocabulary, appropriate styles for varying purposes of communication, consideration of sentence and paragraph.

There will be much practical work in the course. It is hoped that students may be grouped for this work so that those students who have already reached a proficient standard in expression may be able to devote their time to more general semantic matters.

Spelling proficiency is part of the work.

The nature and place of grammar will be considered.

Some lectures will be given on the history of the language.

Each student will be required to write one short story.

(ii) English Method

One hour per week

- (a) Aims of English teaching—
Qualifications of the teacher of English.
- (b) Lesson types—
Spelling, writing, reading.
- (c) The teaching of spelling.
- (d) Handwriting—various types.
The teaching of writing.
- (e) The teaching of language.
Sentence structure.
Oral expression.
Written expression.

(iii) Speech

One hour per week, Lent Term only

- (a) Qualities of effective speech.
- (b) Effective speech in the classroom. The teacher's voice and speech as the most important personal aid in teaching.
- (c) Lectures are mainly practical work involving the development of clear, pleasant and expressive speech for classroom purposes, for example, through the reading of prose and poetry and the telling of stories.

(iv) Literature

One hour per week

- (a) Poetry and the individual student. The place of poetry in community and school.
- (b) Selected poems reflecting the general development of English literature from the traditional ballads onwards.
- (c) A Shakespearian play.
- (d) Outstanding poets of the late nineteenth and twentieth centuries.
- (e) Three novels.

Selections from the Albatross Book of Verse will be required reading. Each student should have his own copy of this text. Reference may also be made to the Penguin Book of Modern Australian Verse and the Faber Book of Modern Verse. Students will be required to present to the section a poem from one of these three anthologies with their critical comments.

Second Year

(i) Method and Expression

One hour per week

- A.
 - (a) Thorough treatment of the teaching of reading.
 - (b) Further work in language activities, dictionary work, written expression.
The teaching of poetry, poetry writing, listening to poetry.
 - (c) Grade levels of attainment; remedial work to extend both the dull and the gifted child in spelling, reading, language and speech.
- B. The expression course will involve practical work devoted to the development of the student's expression of himself in the role of teacher.

(ii) *Literature: the modern novel*

One hour per week

This course will cover an important work by each of the following authors:

Samuel Butler, Aldous Huxley, George Orwell, Graham Greene, E. M. Forster, D. H. Lawrence, Joyce Cary, James Joyce, Evelyn Waugh, Stefan Zweig, William Golding.

Detailed consideration will be given the particular novel but students should read as many novels of each author as they can.

Special Studies

FIRST YEAR: *Two hours per week*

SECOND YEAR: *Five hours per week*

The Department of English will offer some special study courses for students.

Group A

English I—Drama and the Stage

This special study is concerned with the development of plays and their staging from medieval to modern times. (The course will be wide enough to include radio and film.)

Each of the selected plays will be considered essentially as dramatic literature and therefore in relation to the conditions under which it was performed. To further this approach, study of the plays in their written form will be supplemented wherever possible by dramatic recordings and films.

In the second year these aspects will be further treated with emphasis upon modern drama in its various forms. Also, students will be given the opportunity to specialize in some field of their choice.

English II—Australian Literature

In outline, the course consists of five separate topics:

- (1) History of Australian literature.
- (2) The Australian short story.
- (3) The Australian novel.
- (4) Australian poetry.
- (5) Australian drama.

As the course progresses, emphasis will be given to each of these in turn.

However, these separate topics will be integrated by considerations of the Australian character and consciousness. The literature will be viewed in relation to the social and cultural climate which produces it.

Students will be expected to read widely, especially in topics 3 and 4.

English III—Language

The first year of this course will consist of two introductory sections. One will deal with phonetics and dialects, such as Australian speech. The other will be a study of the history of English, and some reading from Anglo-Saxon and other early writers.

The second year will be spent on various aspects of communication in spoken and written language, such as the analysis of form in different areas, artificial talking devices and translation machines, etc., from which students may choose those that they prefer.

Group B

Dramatic Art

This course will cover the following aspects:

- (a) Development of confidence in self-expression, the problem of self-consciousness.
- (b) Improvisation.
- (c) Mime.
- (d) Dance Drama.
- (e) Speech.
- (f) Impromptu Drama.
- (g) Judgment in acting; relations between players; sense of truth.

In the second year, these aspects are further treated. Each student is required to participate in the production of major plays. There is also provision for the student to become acquainted with a wide number of plays and the different styles of production appropriate to them. Make-up, stage-lighting, sound effects are also included.

It is possible that drama students will be able to devote additional time to their work; they may be granted exemption from some of the second year general course English lectures and this time will be used in more extensive work in Dramatic Art.

HEALTH AND HEALTH EDUCATION

[General Primary, Infants and Small Schools Sections]

Second Year Students

One hour per week

The course in Health and Health Education is designed—

- (a) to equip students with a foundation in principles of health and bodily function which will help them to understand both themselves and their child pupils.
- (b) to give students a background on which to base their own Health Education programmes in schools.

The course will extend into the following fields, though not necessarily in this order:—

- (1) Normal growth and development.
- (2) Structure and function of the human body.
- (3) Health and the individual.
- (4) Health and the community.
- (5) The child at school.
- (6) Curriculum interpretation and development of appropriate method.

Emphasis will be given to those topics not covered in other subject fields.

Physical Education Diploma

Third Year Students

Approximately 22 hours will be devoted to Health Education during the third year of the Physical Education Diploma Course. It is proposed that students will undertake a group research study involving some work in schools.

* * * * *

A St. John's Ambulance course in First Aid will be conducted at the College. Students from both General Primary and Physical Education Diploma Courses will be able to attend.

MATHEMATICS

All students will be required to pass a test in primary school arithmetic. Students failing to reach the required standard will attend remedial classes, or do such other work as the lecturer directs, until the required standard is reached.

Mathematics I

First Year

Two hours per week, Lent Term, then one hour per week

This course is designed to acquaint the students with methods of instruction in arithmetic, to provide them with an historical background of the development of mathematical concepts and to improve their own mathematical ability.

1. Drill lessons in arithmetic

(a) Oral drill. Purposes, principles and techniques.

(b) Written drill. Principles and purposes. Preparation and grading of examples. Diagnosis of error. Provision for individual differences.

2. Reasons why children develop adverse *attitudes* and methods of developing and maintaining favourable attitudes.

3. Introduction of new work

(a) Development of concepts. Activity lessons.

(b) Mechanical skills.

(c) Inductive and deductive procedures.

4. *Cultural background*.—History of the development of number concepts and notation. Ancient methods of calculation. Interesting number properties. Stories of units of measurement.

5. The Structure of Arithmetic.

(a) The language of sets.

(b) Numbers and numerals; scales of notation.

(c) Basic operations with sets.

(d) Modular arithmetic.

(e) The real number line.

6. Those aspects of *infant number* relevant to the logical development of topics in the primary school.

(a) Development of number concepts.

(b) Cuisenaire and other structural aids.

Second Year

One hour per week

1. A detailed study of the syllabus in primary school arithmetic with particular emphasis placed on the development of mathematical concepts, grading and programming.

The following topics will be discussed.

(a) The four basic operations with number.

(b) The four operations with money, weights and measures.

(c) Common fractions, decimal fractions, percentage fractions.

(d) Spatial concepts.

(e) The teaching of problems.

2. Projects in arithmetic. The social aspect of arithmetic.

3. Techniques for special classes—small schools, composite, remedial and opportunity classes.

4. Research in the teaching of arithmetic.

Special Studies

First Year

Two hours per week

Mathematics I

In this course topics for discussion will be selected from the field of modern mathematics including symbolic logic. Students will be required to select one topic for individual research.

Mathematics II

This course will consist of:

(1) An introduction to computers.

(2) A survey of topics in modern mathematics.

Programmed learning materials will be used as an aid and individual research will be encouraged.

Second Year

Five hours per week

Mathematics I

Courses will be selected from:

- (1) Techniques and Applications of Calculus.
- (2) Elementary Mechanics.
- (3) Astronomy.

Students, as well as following the prescribed course, will be given the opportunity of pursuing a special interest.

Mathematics II

1. Further work on computers.
2. The slide rule and the abacus.
3. Investigations in number theory, statistics, topology, set theory, non-Euclidean geometry, vector spaces, history of mathematics, according to the special interests of individual students.

MUSIC

First Year

The course will be for two one-hour lectures per week during first term, and one hour per week during second and third terms, and will pursue various aspects of practical musicianship through the study of a portable musical instrument and singing which will be related to the classroom teaching situation. Lectures will cover the essentials of music theory, the development of pitch reading, rhythm reading and aural skills, and the presentation and study of recorded works to broaden the fields of student musical interest.

Second Year

General Primary

One hour per week

In this course established skills in practical musicianship are developed in lectures through the training of sections as unison, two- and three-part vocal ensembles and through performance on an instrument. Integrated in the song and instrumental music repertoire is the graded introduction of aspects of music notation aimed at increasing technical skill in music reading.

The study of teaching method covers: singing activities in the lower and upper primary class and the use of musical instruments in these activities; the importance of developing aural skills in teacher and pupil; activity approaches the use of "programme" and "absolute" music in the listening lesson, and the place of music reading in the school music course. This study is supplemented by observation of the above aspects of method in demonstration lessons, and by discussions and lectures on problems underlying music programming for primary grades.

Music Unit viewed from Library.

Photo: J. Crump

Lower Primary

One hour per week

As in the General Primary music course, music reading, practical musicianship and performance skills are further developed. Students who do not play the piano will be urged to take regular lessons, if possible under supervision from the College.

Lectures will deal with the following topics as specialized approaches to infants' music teaching and will give students practical experience in each:

- (i) Songs and singing games for children.
- (ii) Introduction of notation and rhythm reading skills.
- (iii) Musical response through rhythmic movement.
- (iv) The integration of percussion playing in infants' music activities.
- (v) Child response in the listening situation.

Special Studies

First Year

GROUP B

Two hours per week

Instrumental

In this course, music is treated as a practical and expressive medium requiring the growth of the individual's sensitivity and technical skill. The development of versatility and sound musicianship are the main aims of the course.

Tuition is available in: piano, violin, viola, 'cello, double bass, flute, clarinet, treble recorder and tenor recorder.

All students in the course participate in some vocal and instrumental ensemble work.

Lectures cover the essential elements of music theory, simple harmony and give background to the periods from which works are taken.

Special Studies "B" music students rehearsing as an orchestral ensemble.

Choral Singing

This course will cover such things as voice production, ear training and conducting. In the first year, emphasis will be given to unison choral singing and some two-part work. The second year course will cover the choral repertoire up to five-part songs. The work will be so divided that small groups work together constantly in order to become fully aware of the pitfalls that exist in choral singing.

A few voices may be selected in the second year for individual singing tuition.

An elementary "theory" course will be given in first year when necessary.

Second Year

GROUP B

Five hours per week

The further development of performance skills is the basic aim of this course. Individual instrumental tuition will continue. The development of tone control and basic skills of musicianship will be practised in solo works and in instrumental and vocal ensemble playing. Lectures will deal with the concept of style in music and the practical problems arising in performance. This development of performance skill will be supplemented by some study of the periods from which works are taken, and where necessary tuition in theory and elementary harmony.

Choral Singing

(See heading Choral Singing First Year.)

Special Studies "B" natural science Bonsai Culture and Lapidary work.

NATURAL SCIENCE

First Year

First year students will be grouped according to their prior knowledge of science. As far as possible those who have completed a Leaving Certificate course in physical science will do a course in biology at college; those who have taken Leaving Certificate biology will do physical science; and those who have done no Leaving Certificate science will take a course in general science.

Biology

Two hours per week

The microscope. Plant and animal cells. Unicellular and multicellular organisms.

Bacteria. Food preservation. Useful types.

Moulds. Lichen. Moss. Ferns.

Earthworm. Slugs. Snails.

Slaters. Insects. Spiders. Centipedes. Millipedes.

Insects: Orders. Life cycles. Predaceous insects. Water insects. Control of insect pests.

Fish. Frogs. Toads. Life-cycle of frog.

Birds. Migration.

Mammals.

Seashore animals.

The flowering plant. Seeds. Roots. Stems. Leaves. Flowers. Fertilization. Fruits.

Nutrition. Respiration. Excretion. Sensitivity. Reproduction.

Mitosis. Meiosis. Role of DNA in heredity.

Physical Science

Two hours per week

Chemistry

The role of theory and law in the growth of science.

Atomic structure. Ionic and molecular compounds, Valency, formulae and equations. Dissociation and ionisation.

Acid and base theory. Properties of acids and alkalis.

Significance of the activity series in a comparison of the general properties of metals.

Reactions of metallic and non-metallic ions in solution.

Physics

An introduction to mechanics. Velocity, acceleration, momentum, force. The equations of uniformly accelerated motion. Newton's laws of motion. Conservation of momentum. Universal gravitation. Weight and weightlessness.

Kinetic and potential energy. Work and power.

Machines.

Magnetism. Origins and properties of magnetic fields.

Electrostatics. Frictional charges.

Current electricity. Sources. Current, potential difference, resistance. Cost of electricity.

Nature and properties of light and sound waves.

General Science

Two hours per week

Biology

Basic generalisations in modern biology.

Animal and plant cells. Basic processes in a unicellular animal. Characteristics of living things.

Tissues, organs, systems.

Use of the microscope. Simple pond plant and animal life.

Simple biochemistry. Respiration.

Reproductive processes. Mitosis. Meiosis. Heredity.

Outline of photosynthesis chemistry. Simple experiments on photosynthesis.

Brief survey of the distinctive features used to classify plant and animal kingdoms into phyla, sub-phyla and classes.

Chemistry

Sub-atomic particles: electrons, protons, neutrons. Atomic structure of the twenty simplest elements. Ionic and molecular compounds. Valency, formulae, equations.

Nature and properties of acids and alkalis.

Comparison of properties of metals to illustrate generalisations in modern chemical principles.

Identifying tests for cations and anions.

Physics

Forms of energy: heat, kinetic energy, potential energy, chemical energy, nuclear energy.

Temperature and quantity of heat. Methods of heat transfer.

Basic concepts in light, sound, magnetism, electrostatics and current electricity.

Second Year

General Primary Sections

One hour per week

Aims of natural science teaching.

Teaching procedures and aids.

Conservation.

Experiments for the primary school.

Genetics and evolution.

Infants Sections

One hour per week for two-thirds of year

Aims of natural science teaching.

Teaching procedures and aids.

Experiments for the infants school.

Small School's Section

One hour per week

Aims of natural science teaching.

Teaching procedures and aids.

Conservation.

Experiments for the primary school.

Special Studies

First Year

GROUP A

NATURAL SCIENCE I

Two hours per week

Genetics.

Animal anatomy and physiology.

Dissection of rat.

NATURAL SCIENCE II

Two hours per week

This course will cover the following topics:

- (1) The earth and its surface.
- (2) Materials of the earth's crust.
 - (a) Rock-forming minerals.
 - (b) The main divisions of rocks.

GROUP B

Two hours per week

In this course the more practical aspects of natural science will be stressed. One or more of the following will be studied, the choice depending on facilities available when the course is commenced:

- (a) Horticulture.
- (b) Forestry and forestry nursery work.
- (c) Ecology—field studies.
- (d) Plant breeding.

Individual work will be expected of students.

Second Year

GROUP A

NATURAL SCIENCE I

Five hours per week

Animal behaviour.
Bacteriology.
Ecology.
Entomology.
Evolution.
Viruses.

NATURAL SCIENCE II

Five hours per week

The course will be selected from the following topics:

- (1) External geological processes.
- (2) Internal geological processes.
- (3) Large-scale crustal movements.
- (4) Applied geology.
- (5) Introductory mineralogy.
- (6) Palaeontology.
- (7) Local geology.

Practical and field work will be undertaken with emphasis on the local area.

GROUP B

Five hours per week

Garden design.
Bonsai.
Flower arrangement.
Lapidary work.

EXCURSIONS

Excursions are a feature of natural science special studies. Any student undertaking a course may be expected to attend a 2-4 day excursion each year, and meet his, or her, own accommodation expenses.

PHYSICAL EDUCATION

First Year

Two hours per week

This is the basic course which all students in their first year will follow.

(i) The aims, scope and nature of Physical Education in the primary school.

(ii) The needs of the child in relation to physical activity ; physical growth and development ; play interests at various stages.

(iii) The New South Wales Education Department Physical Education syllabus.

(a) The gymnastics lesson.

(b) The sports period.

(c) The dance lesson.

(iv) Lesson planning ; selection of activities ; introducing new activities ; activities progression ; group organization.

(v) Skeletal system and muscular system.

(vi) Fitness and the benefits of exercise.

(vii) The teaching of swimming.

Second Year

General Primary Course

One hour per week

This course is mainly concerned with the following areas of study:

Water safety and life saving ; programming ; gymnastics ; dance making ; basic movement ; the use of outdoor gymnasia ; improvisation and care of equipment ; the responsibilities of the primary school teacher in physical education.

In addition, further development of the work done in first year will be carried out, with special reference to:

(a) Small schools.

(b) The upper primary school.

Lower Primary Course

In the first year, students will follow the General Primary Course. In the second year special emphasis will be placed on the following courses:

- (1) The aims and principles of Physical Education in the lower primary school.
- (2) Programme planning and the planning and use of fixed apparatus.
- (3) Lesson planning with practice in the conduct of and suitable activities for the gymnastics lesson, the games lesson and the dance lesson.
- (4) All students are to gain a life-saving award unless there are extenuating circumstances.

Rhythmic Gymnastics

Special Studies

First Year

Two hours per week

In the first year the course will be mainly practical and will include a selection from the following fields:

- (a) Basic gymnastics.
- (b) Dance.
- (c) Recreational activities.
- (d) Fitness training for the individual.

Second Year

Five hours per week

A selection from the following topics will be studied in detail.

- (1) Applied physiology, *e.g.*, kinesiology and physiology of exercise.
- (2) Tests and measurements.
- (3) Adapted physical education.
- (4) Some historical aspects of physical education.
- (5) Planning facilities and administration.
- (6) Championship training.
- (7) Youth organizations.
- (8) Recreational activities, *e.g.*, fencing, archery, bushcraft, camping.
- (9) Gymnastics and dance.
- (10) Sport and literature.
- (11) Common sports injuries and their treatment.
- (12) Olympic and Commonwealth Games.

GYMNASIUM

Upper Deck

Ground Plan

The use of the main floor of the gymnasium is not permitted outside lecture periods without the express permission of the Physical Education Department. Strict enforcement of the rules of dress in the gymnasium will be carried out at all times.

SOCIAL SCIENCE COURSES

Preamble:

The Social Science courses, which occupy two lectures each week in the first and second years, and an additional integrated weekly lecture in first term of the first year, have the following general aims:

- (a) Through a study of the problems and challenges which face mankind in the present and have faced him in the past, to develop an understanding of the essential unity of mankind and to awaken sympathy and toleration within the student.
- (b) To present the chosen material at a depth and breadth resulting not merely in superficial knowledge, but in an understanding, and, it is hoped, a desire to read further for its own sake.
- (c) To enable the student to read in and to teach the broad fields of geography, history, economics and government, and to appreciate their inter-reactions.

For students with specific interests in geography or history, special study courses are offered, covering two lectures per week in the second and third terms of the first year, and five lectures each week in the second year.

First Year

Geography I

One hour per week

A geographical study of Developing Countries.

The aims of the course cover:

An assessment of the problems of development.

The role of government.

Analysis of economy.

Regional geography and the relevance of "backwardness" to political geography.

Examples will be taken from South America, Central Africa, the Middle East, Asia and Southern Europe.

Students will also be required to prepare for an examination in Current Affairs.

History I

One hour per week

The course will cover the following topics:

- (1) The Antiquity of Man.
- (2) Man begins to control his environment. From Cave Man to farmer.
- (3) "Cradles of Civilization."
- (4) Roman Britain.
- (5) Anglo-Saxons, Vikings, Normans, The Medieval Community.

Social Studies Method I

One hour per week in first term

A series of lectures will be given on the following aspects of method in the primary school:

- (a) The aims and nature of the Social Studies.
- (b) Lesson types—narrative, oral exposition, study, discussion, observation, film strip, broadcast and revision.
- (c) The nature and structure of a unit of work.

Second Year

Geography II

One hour per week

Aspects of Human Geography.

The aim is an analysis of selected environments and the socio-economic responses made by Man. The need for a harmonious adjustment to Nature and policies of Conservation will be indicated.

Students will be expected to show a knowledge of the functioning of climate and the characteristic features of Equatorial, Savanna, Desert, Mediterranean and Temperate regions. Examples will be selected from Australia and the World, allowing for a comparative study of the adaptations and utilization made by indigenous and exotic peoples.

In the third term lectures will deal with the regional geography of New South Wales.

History II

One hour per week

The course is divided into two areas:

(a) Government:

The evolution of parliamentary power in Britain.

The development of the machinery of democratic government of the British pattern.

Growth of self-government in New South Wales.

Federation in Australia: other examples of Federation, *e.g.*, the U.S.A., Canada.

(b) Modern world affairs:

A selection of topics from Africa and South-East Asia.

Impact on Australian policies.

Social Studies Method II

Some time will be devoted to the following aspects of social studies method in the primary school:

(a) Special methods in geography and history, *e.g.*, interviewing, use of the globes, excursions, source material.

(b) Programming.

Special Studies

First Year

Two hours per week in the second and third terms

Geography I

This course will be taken at an advanced level, and students who have completed a course in geography at the Leaving Certificate will find this an advantage.

The course will consist of a study of the principles of Geomorphology, Soil and Biogeography. Map reading and Interpretation will be an integral part of the course.

The method of study will take the form of lectures, study readings and excursions.

History I

COURSE I

Two hours per week

Students attempting this course will find it an advantage to have successfully completed one course in History at the Leaving Certificate.

The theme of the course will be the development of the British Empire and Commonwealth of Nations from Tudor to modern times. Students will be expected to complete individual assignments and develop a facility in research techniques.

COURSE II

Two hours per week

This is a course of two years' duration and is therefore continued into second year. Details of this course may be found under Special Studies, History Course II—First and Second years. (Page 101).

Second Year

Five hours per week

Geography II

This course contains the following topics:

- (a) Climatology.
- (b) Cartography, Elementary Surveying.
- (c) Methods of Regional Analysis.
- (d) Political Geography.
- (e) Economic Geography of the local area.

The method of study will include lectures, seminars and practical work. Students will be expected to present an essay on a topic of their own choosing.

History II

COURSE I

This course will consist of a detailed and critical study of democracies and totalitarian states from the period 1918 to the present day.

Studies will be made of Britain, U.S.A., Germany, France, U.S.S.R. and Japan.

The method of study will include lectures and seminars. Students will present an essay in each of the first two terms.

COURSE II—FIRST AND SECOND YEARS

This course will cover some of the major developments in English history from the eleventh to the twentieth century, and will involve detailed study of original documents and material relating to these. The whole course will be given unity by a study of the evolution of parliament up to the present time, but the course is not essentially one of constitutional history.

The broad background of each topic will be set in one or two formal lectures after which students will be expected to make a careful study of the sources supplied so that they may contribute to the discussions following the lectures. The course is designed not only to give a fuller insight into English history, but to give students an understanding of the methods of the historian, and practice in the critical evaluation of primary and secondary material.

Topics for study will include:

First Year:

An Approach to History.

Anglo-Saxon England and the Norman Conquest.

Second Year:

Norman England.

Magna Carta.

Edward I and Parliament.

Free Speech in Elizabethan England.

The Great Rebellion.

The Reform Movement in the Nineteenth Century.

A Modern Election.

LOWER PRIMARY COURSES

Students who wish to specialize in Lower Primary training will in their second year, follow the course as listed below.

Art—see course on page 62.

Education—

Health and Health Education—see course on page 77.

Music—see course on page 81.

Natural Science—see course on page 87.

Special Studies—

Physical Education—see course on page 92.

An introduction to the course on Infant Education

1. The Nursery School.
2. The transition of the child from the home to the school.
3. The Kindergarten. The contributions of Froebel and Montessori.
4. The school environment for the first- and second-class child.

LOWER PRIMARY METHOD

First Term four hours per week

Second and Third Terms three hours per week

Lower Primary English Method

1. The growth of *language* in the young child. Language activities in the Lower Primary grades.
2. *Reading readiness* and pre-reading. Reading activities in the formal grades. Grouping for reading. Class and central libraries. Recent trends in teaching young children to read.
3. *Written expression*. The relationship between oral expression, the reading programme, handwriting, and spelling. The wish of the child to express himself in writing.
4. *Spelling*. The gradual growth of spelling ability. Methods which will encourage good spelling habits. Word grouping. Word study.

5. *Handwriting.* The place of handwriting in the Infants' School. Pre-writing activities. Teaching methods in formal classes.

6. *Poetry.* A study of poems suited to young children. Poetry for appreciation, movement, and for verse speaking. Dramatized poems.

7. *Story Telling.* A study of children's literature. Levels of interest. The skill of telling and reading stories to children.

8. *Dramatization.* The value of free and prepared dramatization. Choice of suitable stories for dramatisation.

Lower Primary Mathematics Method

The course is designed to show the teaching methods and the activities used to encourage the young child to gain an understanding of number.

- (1) The pre-number work in Kindergarten.
- (2) An understanding of quantitative relationships.
- (3) Measuring activities—capacity, weighing, length, time.
- (4) Counting activities.
- (5) Recognition of number groups, number symbols.
- (6) Form, position.
- (7) Activities involving the use of money.
- (8) Simple problems.
- (9) Number games and rhymes.
- (10) A study of the Cuisenaire method.

Lower Primary Social Studies Method

This course is planned to give a knowledge of the curriculum for Social Studies, and to outline the methods of presenting lessons in the Lower Primary grades.

Assignments, involving the planning of units of work, will be compiled by students.

Lower Primary Practical

This course is concerned with the study of the principles involved in the construction of work books, work sheets, reading material, and number material. Certain teaching aids will be constructed

Specialist work in Physical Education

THREE YEAR COURSES

DIPLOMA IN PHYSICAL EDUCATION

In 1967, the first, second and third year programmes of the three-year Diploma of Physical Education course will be offered. Successful graduates will be recommended for appointment as teachers of Physical Education in High Schools.

The course shall proceed in six strands. The hours allocated in first, second and third year are generally indicated below:

<i>Strand</i>	<i>First Year</i>	<i>Second Year</i>	<i>Third Year</i>
	<i>Hours</i>		
1. Physical Education	9	9	9
2. Education	5½	4*	4*
3. Scientific Bases of Human Movement	4	4	4
4. A second major subject which will be studied for three years at a University	7	7	7
5. Communication	2	3	2
6. Field Work	Various periods throughout the course		
Totals	27½	27	26

* These hours include time allocated to demonstrations and discussions in schools.

1. Physical Education

First Year: Theoretical foundations of Physical Education, Primary and Infants' School Methods in Physical Education, Practical and Theoretical Aspects of Gymnastics, Games, Swimming, Track and Field and Dance.

This course will also include a study of the methods employed to teach other subjects within the primary school curriculum.

Second Year: Theory and Administration of Physical Education especially those aspects related to the secondary school. The practical work will continue as in first year and some form of specialisation may take place during this year.

Third Year: Theory and Administration of Physical Education and Recreation in the Community. Adapted Physical Education. Programme development in the secondary school. Continuation of the programme in practical work from second year.

2. Education

First and Second Years: A course similar in content and purpose to that given to the general primary student except that where appropriate, the course will enlarge upon those aspects of particular importance to physical educationists and secondary teachers. Demonstrations in general teaching will precede more specialised demonstrations in the teaching of physical education and the second major subject selected at the University. Method work in the second major subject, dealing in the main with secondary education, will also be integrated into this course.

Third Year: Concepts established within the earlier foundation courses will be integrated and applied through seminar discussions of currently significant or controversial educational issues. Demonstrations and method work in teaching subjects will continue.

3. Scientific Bases of Human Movement

First Year: A course designed especially to provide students with an understanding of the laws of physics particularly those governing mechanics. These are directly related to the problems associated with movements of the human body and imparted by the human body. The course will also include some aspects of the biological, chemical and physiological sciences which deal with the growth and function of the human body.

Second Year: A preliminary composite physiology-anatomy course on the functions of the human body especially those related to movement at varying demand levels and the maintenance of an optimum level of health. The course will include an introduction to the problems of measuring human behaviour.

Third Year: A further increase in the complexity and depth of the second year course with provision made for individual and group work in the laboratory and in the field.

4. The Second Major Subject

Each student is required to undertake a study in depth in another teaching subject. Whatever subject is selected by the student should be studied for three years at Wollongong University College adjacent

to the Teachers College. The subject chosen should not involve more than seven hours of attendance in any of the three years. During 1966 the following subjects were studied by Diploma students:

English.

History.

Economics.

Mathematics.

Geography.

Timetable requirements may necessitate some evening attendances at the University as well as some overlap in term dates.

5. Communication

In first and second years the English and Music Departments will provide courses aimed at developing the student's own personal powers of communicating with other individuals. In third year, the English and Art Departments will present such courses.

The English Department will introduce students to specific skills in communication and encourage a critical self-awareness of the student's own ability in these fields:

Written expression.

Spoken English; self-expression; oral reading of poetry and prose.

Self-expression through movement.

Dance drama.

Aspects of dramatic art.

Comprehension; silent reading of poetry and prose; spoken poetry and prose.

Development of self-possession, and individual and sensitive reaction to works presented, e.g., poetry reading by established artists.

The Music Department's course consists of two strands; one cultural and the other practical. The cultural strand will trace the development of music in Western Civilization from the listener's point of view, and is aimed at cultivating intelligent listening techniques. The concept of music as a language of sounds through which the composer can communicate with his listeners will underlie the approach to much of the music studied.

The practical strand will aim at developing confidence and skill in the type of group music situation in which students could later be involved. Opportunity will be given to learn the ukelele or guitar as a means of increasing effectiveness in this field.

6. Field Work

This will incorporate a number of activities such as practice teaching, camping of all types, youth leadership vacation swimming schools, industrial recreation, play centre leadership and community recreation.

Students should consult their course adviser before making arrangements for their vacations as sections of this work will be obligatory during these periods.

UNIVERSITY STUDENTS

1. All undergraduate students attached to this College will arrange their courses in consultation with a lecturer appointed by the Principal to advise undergraduates. At the beginning of each academic year students must report to the Teachers College to arrange courses for the year and to receive warrants.

2. Undergraduate students will be required to do a two-week period of practice teaching during the February of the second, third and fourth years of their courses.

3. In December each year university students will receive a form on which to indicate their university results for the year, and the course they wish to follow in the following year. These should be forwarded to the College within two weeks of publication of the results. Failure to return the completed form may result in the withholding of instalments of allowance until the form is received.

4. Students who have failed or who have been granted deferred examinations must forward results to the College as above, and should indicate intentions (*a*) on the assumption of success in posts, and (*b*) on the assumption of lack of success.

5. Students granted deferred examinations must advise the Principal the results of the deferred examinations immediately they become known.
