- Health Services Research Association AU.NZ.

Thanks

To our conveners, conference secretariat staff and helpers

- Australian Health Outcomes Collaboration, Centre for Health Service Development, UOW
- Centre for Advances in Epidemiology and Information Technology, The Canberra Hospital
- DiscoverQuick and Treonic
- To Pete Stanley, Astoria Barr and Elena DiBez

A New Model for Collaboration

- John's seminar illustrates how important it is for the Australian health system to keep a focus on health outcomes
- Health Outcomes Conference currently not viable in these times of economic constraint
- Seminar series presents a new model for collaboration by bringing key speakers to Australia
- Collaborate by sponsoring a HO strand in a related conference?
- Opportunities and sponsorship – help us to keep a focus on health outcomes alive

Dr John Ware

- First visited Australia in 1994 – led to inclusion of SF-36V1 in many Australian health surveys
- Very useful for both population health (burden of disease), health research & clinical applications
- A very illustrious research career with practical implications for the health industry
- Opinion leader – international comparisons, use of ‘modern’ psychometric methods to refine and cross calibrate measures and computerised adaptive testing – we will hear a lot more today
- Enjoy the seminar!
