OPEN DAY/EXPO SET TO BREAK ALL RECORDS

University Open Day and Radio 2WL's 80's Lifestyle Expo are set to break all previous records for attendance at an Australian University campus. Radio 2WL has extended its advertising coverage for this event into southern Sydney, the Highlands and Nowra. This year

there will also be a regular bus service from Wollongong to the campus.

The University's Open Day programme is set out on the coloured pages at the back of "Campus News".

ACCOUNTANCY /FRIENDS LINK UP

Ald. Keith Phipps, Chairman of the Graduates Committee of the Friends of the University announced that this year the Accountancy Valedictory Dinner would be organized jointly by the Department of Accountancy and the Friends.

"Accountancy is the first University department to formally involve the Graduates Committee of the Friends in its relations with its graduates and potential graduates" he said. "I regard this as a major breakthrough for the Friends."

Accountancy graduates have traditionally been a tightly knit professional group, and their membership of the Friends organization is highly prized.

The dinner will be held on 23rd November, 1984. More details will be announced by Ald. Phipps in the next few weeks.

AESTHETICS AND LANDSCAPE COMMITTEE

The Vice-Chancellor has appointed a Committee to advise him "on aesthetic aspects of the development of the landscape and building environment of the University, and to interface with the Physical Facilities Committee on matters where aesthetics and function cannot be separated."

The Committee will consist of:

Vice-Chancellor (ex-officio Chairman)
Mr. J. Steinke (Vice-Chairman, normally chairing meetings)
Professor Cowie
Professor Smith
Mr. Tognetti
Mr. Turnbull
Landscape Supervisor

The first task of the Committee is to advise on relocation of the Climatological Station, a facility run by Uni-advice in conjunction with the Department of Geography. The station is currently situated south of Kids' Uni.

VISITING LECTURER RETURNS TO U.K.

After a stay of four months Dr. Peter Evans and his family are about to return to Bath, England. Dr. Evans is currently a Senior Lecturer at the University of Bath and has been visiting the Department of Electrical and Computer Engineering. He has presented a series of lectures to both second year and fourth year Electrical and Computer Engineering during his time with us.

Dr. Evans' research interests are in the fields of elect-

rical machines (the electromagnetics of electrical machines with unusual geometries), an interest shared by Professor Smith, and power electronics (inverters and switched-mode power supplies). He presented an entertaining seminar on "An Alternator with AC-Side Excitation" on Thursday, 11th October 1984 to students and staff in the Department.

When Dr. Evans was asked what he would miss most about his stay; he replied: "the weather". We wish him a pleasant journey home.

We will be raffling our usual Christmas Hamper, and all donations would be very welcome, please give them to Ian Mitchell, Maintenance, Lionel or Flora. We hope to hold a Melbourne Cup raffle also, tickets are 50 cents each, 1st prize \$100, 2nd prize \$50, 3rd prize \$25 and a \$5.00 for last place. The draw will take place the Monday before the Melbourne Cup and readers will be notified if they have drawn a horse.

GRADUATES COMMITTEE – NEXT MEETING

There appears to be some confusion about which people are eligible to attend meetings of the Graduates Committee of the Friends.

The answer is any member of the Graduates Group who has paid his or her dues.

A notice in Campus News is the means we use to advertise the meeting. An agenda is sent out, but only to those members who attend regularly.

Please feel free to attend. If you are not sure of your eligibility, this can be checked at the time.

The next meeting of the Graduates Committee of the Friends of the University will be held in the University Council Room on Wednesday, 24th October, 1984, at 6.00 p.m.

All welcome.

Accommodation, guest speakers, transport, venues, equipment, advertising etc. are only a few of the items needing attention. Hard pressed academic and administrative staff can now have these services supplied by Uniadvice.

"INSIDE, OUTSIDE, UPSIDE DOWN"

Theatre South has assembled four beautiful multicultural folk tales for Wollongong's 150th Celebrations in November, the focal period of our year long party.

This event has been compiled for the young people of the Illawarra by Theatre South and made possible thanks to the sponsorship of The 150th Committee. Performances will take place twice daily between the 13th and 23rd November.

The stories, brought to life with the aid of costumes and props and lively action and music (by one man band, Paul Coombes) are proving to be very entertaining already to primary school audiences in other points, south and west of Wollongong, where the company is with the Travelling Theatre Festival.

The cast of four is made up of Lynne McGimpsey and Jill Akhurst and George Leppard all of whom appeared in "The Man From Mukinupin" and for the Wollongong season of "Inside, Outside, Upside Down", Allan McFadden will be replaced by Jim McCallum who played that likeable rogue Uncle Frank in "Tommy".

Performances for school parties will be \$2 per child and staff free. There will be ONE ONLY public performance at 1 p.m., Saturday 17th November and bookings can be made by phoning Theatre South 270.705. Cost of the Public Performance will be \$3 per child, \$4 for an adult accompanying a child.
