## VICE-CHANCELLOR HONoured

The Vice-Chancellor, Professor Ken McKinnon, has been awarded the 1985 Medal of the Australian College of Education.

The presentation was made at the Annual Conference in Melbourne on 20-23 May. The Conference was held jointly with the Australian Council for Educational Administration.

The A.C.E. instituted the College Medal in 1981 as an annual award which recognizes outstanding contributions to education by an Australian educator.

### BROWN BLASTS OFF

At the end of June, Professor A.D. Brown, Foundation Professor of Biology at the University of Wollongong, retires. To commemorate his retirement, the Biology Department has asked him to give the First Biology Occasional Public Lecture. This Public Lecture is also sponsored by the Illawarra Branch of S.A.N.A. (Scientists against Nuclear Arms) and is titled "The Brain and the Bomb: the Ultimate Problem in Applied Biology?"

Professor Brown was born in 1925 and spent most of his early years growing up in Lismore. During the war years he did a B.Sc. at Sydney University. Following his undergraduate training, during which he had developed an interest in microbiology, he worked with Australian Paper Manufacturers as a research chemist. After three years in industry he joined CSIRO Division of Food Research in Brisbane. This was a major change from Chemistry to Microbiology and during this period at CSIRO he did a Masters degree (from Sydney University) on the survival of airborne micro-organisms. He also spent some time at the Low Temperature Research Station in Cambridge.

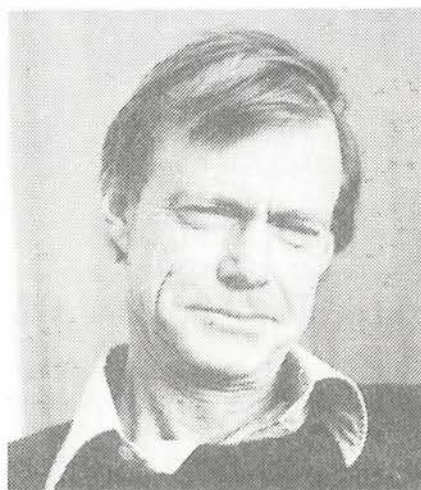

After six years at CSIRO he resigned and took up an I.C.I. Fellowship to do his Ph.D. at the University of Manchester on cell wall and protein synthesis in bacteria. Upon his return to Australia he joined CSIRO again, but this time at the Division of Fisheries and Oceanography. It was here that he began what was to become a major theme in his later research, that is, the role of salt stress in the physiology of microorganisms.

In the early sixties he made another major career change and left CSIRO to join the University of New South Wales.

Even as an undergraduate, he had what he now describes as a "rather naive" awareness of the social effects of science. In the mid sixties he became a member of the group called "Social Responsibility in Science", later becoming president. He recalls an early trip to Wollon-

gong after being invited by a local group to speak on the topic of social responsibility in science. During his period with S.R.S., he and others carried out a major survey of pollution in the Upper Parramatta River. This study was one of the factors that led to the formation of the State Pollution Control Commission by the N.S.W. State Government.

In the early seventies, his interests had become wider and he was appointed to the Foundation Chair in Biology at Wollongong. He had definite and novel ideas about the teaching of biology. Unfortunately, the financial restrictions that affected universities at that

time meant his educational ideas were never brought to fulfilment. He has, however, presided over a very successful Biology Department. A survey in 1982 of Australian Universities showed that although the Wollongong University Biology Department was by far the smallest biology department in Australia it attracted the second highest degree of research funding from the Australian Research Grants Committee.

Professor Brown has been invited to speak at many international conferences and has an international reputation for his work on water and salt stress in microorganisms. Several international scientists have come to work with him at Wollongong. He has led an active research team in this area at the University of Wollongong and for a while will continue to be associated with the Department of Biology after his retirement.

During his decade at the University of Wollongong he continued to broaden his interests and says he has been influenced by the evolutionary themes that have permeated the Biology Department. He sees that "the major threat to the continued survival of the human species lies in certain patterns of our thought processes" and is "profoundly concerned about the dangers these patterns of thinking and our actions have raised for us as a species". In his lecture he hopes to explore whether we can do anything about this problem. This Public Lecture will be held in the Main Lecture Theatre at 7.30 p.m. on June 12.

Mr. Noel Diffey

#### NEW SECRETARY/MANAGER OF THE UNION

Noel Diffey has been appointed Secretary/Manager of the University Union. He took up his appointment on 16 May 1985.

Noel is 39 and married with three children. He has a Bachelor of Business (Accountancy) and has studied at the University of Sydney and the Riverina College of Advanced Education.

Previously Noel was Executive Officer at Rivcoll Union (a "Guild" representing students at the Riverina Murray Institute of Higher Education) since 1979.

His interests include (a) Health and Social Welfare organisations - previously Treasurer and Deputy Chairperson, Wagga Wagga Base Hospital and Trustee, Wagga Wagga Youth Refuge; (b) Politics; (c) the Arts; (d) computers and most sporting activities. Noel was ALP candidate for the last Federal Election for the seat of Farrer, held by the Opposition parties since created.

#### A FREE PUBLIC EXHIBITION OF DRAWING - Combining "Youth Artists of Promise" in the age range of 2 through to Primary, Secondary and Tertiary Studies

Open to public, Monday 27th May to Sunday 23rd June 1985.

Monday to Friday 11.00 a.m. to 1.00 p.m. and 2.00 to 4.00 p.m.; Sunday 2.00 to 5.00 p.m.

The University of Wollongong Long Gallery, sited in Building 25, will shortly present what is in the view of Len Rieser, Chairman of the H.S.C. Examining Board "a unique Exhibition of Drawings" - unique in that Primary, Secondary and Tertiary Institutions are normally separately shown.

In a single exhibition space we will experience in a short interval how a visual language of drawing develops from the age of 2 to that of a worldly, wise, and sophisticated, mature tertiary student.

This selected exhibition has been drawn from specific pre-school, schools, colleges and tertiary institutions in Sydney and the Illawarra.

It demonstrates the first attempts of a 2 year old child to evoke in line what is a recognisable if rudimentary symbol of a parent; we move to the uninhibited delight to be found in the age range of 4, 5, 6 and 7 when economy and directness are combined with energy and astonishing visual wit. We find ourselves chuckling out loud on looking at young childrens renderings of ranks of soldier guardsmen - realised like long legged red back spiders. Children given half a good idea or story by parent or teacher are marvellous illustrators.

The exhibition demonstrates a growing sophistication of manual dexterity and intellectual comprehension of idea or response to the visual works. Many of the drawings in this Secondary School Section are remarkably able and accomplished.

There is a natural flow as we move into the tertiary and final section. In some wild life illustrative drawings or those executed in response to the nude and landscape there is an acute equation between the world of reality and the drawing.

"Young Artists of Promise" participating schools: Brookvale Public School, Sydney. Belrose Public School, Sydney. Terry Hills Infants and Primary, Sydney. Lindsay Park Public School. Austinmer Public School. Keiraville Public School. Mt. Brown Public School, Dapto. Harbord Public School, Sydney. Freshwater High School, Sydney. Warrawong High School. Wollongong High School. The Illawarra Grammar School. St. Mary's College. Berkeley High School. Wollongong Technical College. City Institute of Art, Sydney. School of Creative Arts, University of Wollongong.

#### ICB NEEDS YOUR SUPPORT

The gazettal by the Minister for Communications, Mr. Michael Duffy, of a call for licence applications for a C class licence to serve the Wollongong, Shellharbour and Kiama municipalities, as announced by Colin Hollis, is the first major step in the 4 years of effort by the local group, Illawarra Community Broadcasters, to provide a Class C (community public radio) service for the Illawarra region. Dr. Hugh Spencer, the chairman of the group, said that he is delighted with the timing of the Minister's call, since it is a time when Wollongong is experiencing an upturn in its fortunes, with the mall, performing arts centre, Bicentennial funding for the

Visitors centre and Herbarium at the Botanic Gardens, Channel 'O', and a general ferment in the educational and cultural life of the area, which a community radio station will do much to support and enhance.

"The call for licence applications is only part of the work involved in finally getting I.C.B. licensed and on the air," he said, "since following this there will be an Australian Broadcasting Tribunal hearing with the eventual granting of a licence. Even after this there will be a lot of intensive work to be done before broadcasting will commence, not the least of which will be finding suitable permanent accommodation." The group will be temporarily resident in the old Ellen Street Youth Refuge building, courtesy of the City Council.

Wollongong and the surrounding area is the largest city in Australia not to have a public broadcasting station, and this move by Canberra will help fulfil this long felt need.

## General Notices

### RETIREMENT DINNER FOR PROFESSOR ALEX CLARKE

Friday, 28 June, 1985, Common Room, The Union, 7.00 p.m.

Professor Alex Clarke will soon officially retire from the staff of the University of Wollongong.

To mark his retirement, a dinner will be held in the Common Room of the Union on Friday 28 June, 1985, at 7.00 p.m., and it is hoped that friends and colleagues will attend to mark this significant occasion.

A three course meal will be served, and the price, including beer, wine and orange juice, is \$20 per head. Please note that vegetarian meals can be provided, but only if ordered at the time of booking tickets.

Tickets may be obtained from Mrs. Faye Franklin, Administration. Bookings for the dinner close on Friday, 21 June, 1985.

Any person unable to attend the Dinner but wishing to make a contribution to the presentation is invited to do so by sending such contribution to Faye Franklin, c/- Administration. Cheques should be made payable to "A. Clarke Retirement".

### RETIREMENT DINNER FOR PROFESSOR DUNCAN BROWN

Friday 12th July, 1985 - University Common Room - 7.00 p.m.

Professor Duncan Brown is officially retiring from the academic staff of the University of Wollongong on 1st July, 1985. To mark this occasion a dinner will be held on the 12th July, 1985 in the University Common Room.

As is standard procedure, a collection is being organised. However, Professor Brown claims he "has everything he could ever want and furthermore, has nowhere to put it" and has requested that any monies collected for a retirement gift be donated towards setting up a scholarship to support an aboriginal student through university.

A three-course meal will be served. The price, including wines and orange juice during the meal, is \$15.00 per head (\$13.50 for students and pensioners). A bar will

be available for drinks to be purchased. Please note that vegetarian meals can be provided, but only if ordered at the time of booking tickets.

Tickets can be obtained from the Department of Biology. Bookings for the dinner close on Friday 28th June, 1985.

### SECURITY ARRANGEMENTS

Most members of staff are no doubt aware of the increasing incidence of theft on campus.

A recent incident in the Administration Building has highlighted the fact that all areas of the campus are vulnerable and that care must be taken to protect the University's property as well as personal belongings.

Members of the Security Staff regularly patrol the buildings and grounds, but staff members are reminded to lock their offices when finishing work each day.

Your co-operation and active participation is needed to improve security on Campus.

### "DO THE RIGHT THING"

"DO THE RIGHT THING" stickers have recently appeared on waste containers around the University, in an attempt to minimise the amount of litter on the Campus.

This has been an increasing problem in recent years, compounded by increases in the number of students and staff members.

It is hoped that the stickers will remind people to "DO THE RIGHT THING" by disposing of waste appropriately and ensuring the Campus remains a pleasant place to work and study. (R 26-7-85).

### MAIL DELIVERY

Please note as from Monday, 13th May, afternoon internal mail will leave the Mail Room at 1.30 p.m., half an hour earlier than at present.

This will give the Mail Room staff more time to process external mail for despatch at 4.00 p.m. It will also contribute to better utilization of Patrol Staff.

### BRITISH COUNCIL NEWSLETTER

The May edition of the British Council Newsletter is available from the Editor (ext. 3073).

# AVCC News

The following report of the May meeting of the AVCC has been received:

## 1. REVIEW OF THE STRUCTURE OF CTEC

The AVCC discussed the "Review of the Structure of the Commonwealth Tertiary Education Commission and Arrangements for Co-ordination and Consultation with States and Institutions", carried out by Mr. H.R. Hudson, Chairman, Commonwealth Tertiary Education Commission, which was tabled in the Federal Parliament on 9 May 1985.

The AVCC will be writing in the near future to Senator the Honourable Susan Ryan, Minister for Education to advise her of the AVCC's position on the recommendations in the Report.

## 2. MEETING WITH CHAIRMAN, CTEC

The AVCC Executive met with Mr. H.R. Hudson, Chairman, CTEC on 25 March and informally discussed the following topics with him:

- . Structure of CTEC
- . Review of Tertiary Education Structures and Relationships
- . CTEC Supplementary Report
- . Statistics
- . Special Assistance for Students Program
- . Key Centres of Teaching and Research
- . Research
- . Enrolments 1985 : Unmet Student Demand
- . Copyright Test Case
- . Amalgamations
- . Review of Legal Education
- . Overseas Student Policy

## 3. MEETING WITH FAUSA EXECUTIVE

On 26 March the AVCC Executive met with the FAUSA Executive. An exchange of views took place on the following topics:

- . Tuition Fees
- . Copyright
- . Overseas Students
- . Early Retirement
- . Animal Experimentation
- . Affirmative Action
- . Staffing Guidelines
- . CTEC Review
- . Research Funding
- . Discipline Reviews

## 4. ENROLMENTS 1985: UNMET STUDENT DEMAND

The AVCC received a report prepared co-operatively by the AVCC and the Australian Committee of Directors and Principals in Advanced Education secretariats, providing an estimate of the unmet student demand in universities and colleges of advanced education in the admissions period for 1985.

The Report had been prepared on the basis of information provided by the Tertiary Admissions Centres in Queensland, New South Wales, Victoria, South Australia and Western Australia and by those institutions which did not participate in the Admissions Centres. The study related to undergraduate courses only (i.e. associate diploma, diploma and bachelor degree), and excluded overseas students.

## 5. OVERSEAS STUDENTS

The AVCC noted that following a meeting with the AVCC Executive on 26 March 1985, officers of the Department of Education had met with the Registrars of all universities on 8 May to discuss details of the Government's new policy on overseas students and its implementation in 1986. A further meeting between the officers of the Department of Education and the Registrars will take place on 30 May, by which stage more detailed information will be available about the proposed admissions procedures.

The AVCC believes it would be unsound to implement policy and procedures without taking into consideration institutional involvement, especially in regard to post-graduate students.

## 6. COPYRIGHT TEST CASE

The AVCC considered the decision given on 20 March 1985 by the Copyright Tribunal in the Copyright Test Case. The decision was for two cents a page for multiple copies from monographs made pursuant to Section 53B of the Copyright Act.

The AVCC has approved of meetings between the AVCC Working Party on Copyright, the ACDP Copyright Committee and the Copyright Agency Limited to discuss matters arising from the Test Case.

## 7. TERM DATES

The AVCC has decided to carry out a study on the current formula used to determine the "common vacation" dates. Increasingly, problems are being faced by professional associations and other inter-varsity bodies as university examinations and other activities encroach upon the suggested "common vacation" periods. It is expected that this situation might be compounded by the adoption of four term school vacations in New South Wales and Victoria.

## 8. REVIEW OF AUSTRALIAN STUDIES

The AVCC has noted that the Minister for Education has announced the appointment of a committee to review Australian Studies in tertiary education.

While members of the Committee of Review have spoken to several Vice-Chancellors, the AVCC is preparing a submission to the inquiry.

## 9. INVOLVEMENT OF AUSTRALIANS IN UNESCO PROGRAM

At the suggestion of the Minister for Education, the AVCC will seek to assist the Australian National Commission for UNESCO to increase the involvement of academic staff with expertise in UNESCO's programs in education, science, culture and communications.

## 10. REVIEW OF PUBLIC INVESTMENT IN RESEARCH AND DEVELOPMENT

The AVCC has considered the media release of 7 May 1985, by the Prime Minister, announcing a major review of Public Investment in Research and Development in Australia, to be conducted by the Australian Science and Technology Council (ASTEC). The AVCC expects to make a contribution to this review.

## 11. NATIONAL INSTITUTE OF TERTIARY EDUCATION

The AVCC reviewed the report of the Working Party established to examine the concept of a National Institute of Tertiary Education. The AVCC will be writing to the Minister for Education about the recommendations in the report.

## 12. TEAS FOR DISABLED STUDENTS

The AVCC has written to the Minister for Education to support proposals that the regulations for the Tertiary Education Assistance Scheme be amended to provide full TEAS benefits to significantly disabled students who, because of their disability, are unable to undertake a normal full-time course load.

## 13. ADMINISTRATIVE STAFF CONFERENCE

The 1985 Administrative Staff Conference was held at the University of Wollongong from 5-7 May 1985 under the Chairmanship of Mr. P.D. Alexander, Secretary, the University of Newcastle.

Registrars, Senior Financial Officers and invited guests to the Conference discussed a wide range of matters including:

- . Occupational Health and Safety
- . External Pressures on Universities
- . Industrial Relations
- . Overseas Students
- . Restructuring CTEC
- . Special Assistance to Students Program
- . Staff Training and Development
- . Research Links

# Letters

11th May, 1985

Dear Sir,

I am writing, on behalf of the Women's Collective, to express concern about the statement issued on behalf of the Union Board of Management re the Wentworth/Women's Room, which has been published as an insert in Union News and in both Tertangala and Campus News. This statement purports to be a report on the two hour discussion, at the Union Board of Management meeting on 30-4-85, which ensued following a recommendation from the Union Services and House Committee, regarding the Women's Room.

I would like to draw attention to the fact that the statement presents only a partial account of the proceedings and omits many important points. This, moreover, leads me to question the intentions of the person or persons who wrote the statement in question, as I find it difficult to reassure myself that such omissions were merely an oversight.

I would therefore like to draw readers attention to the fact that:

1. the vote to allocate the Wentworth/Women's Room to clubs and societies was only carried by one vote - 6 to 5;

2) that all Board members who voted against the motion requested that their dissent be recorded in the minutes. This is an indication of how strongly they were opposed to the decision made;

3) two Board members, who were unable to attend the meeting on 30-4-85, conveyed their concern regarding this issue to the Board and requested that the matter be delayed until such time as they would be able to attend a meeting and discuss this issue;

4) that the mover of the original motion, passed at the Union Services and House Committee meeting on 16-4-85, spoke to the meeting on the 30-4-85 and retracted her support for the motion;

5) there were many valid arguments presented by members of the Board and members of the Women's Collective, stating their opposition to the motion, which do not appear in the statement.

These five points were very much a part of the discussion surrounding the Wentworth/Women's Room issue and as such should have been included in any statement issued on behalf of the Union Board of Management. I feel, therefore, that the statement in question can not be held as a complete and therefore accurate account of the proceedings which took place at the meeting on 30-4-85.

Finally, I would like to point out an error, printed in the statement. In particular I refer to so called "fact 5" which states that the Women's Collective received a 70% increase in their budget allocation from 1984 to 1985.

When examined in context, the fact is that the Women's Collective did not submit or receive their budget for 1984 until 19-9-84, the amount received therefore, cannot be viewed as an annual budget as it only covered

the period from the 19-9-84 to the 31-12-84, approximately three months. The amount received on the 19-9-84 was \$307.00, our 1985 budget allocation is \$516.00, and covers a period of ten months.

Quite clearly, in real terms, the Women's Collective has actually received an enormous cut in their budget allocation, and not a 70% increase as was claimed.

Yours sincerely,  
Rosemary Robins.  
University of Wollongong Women's Collective.

15th May, 1985

Dear Sir,

No doubt, the School of Creative Arts has earned a mixed reputation in the University as a group which looks after its own interests at the expense of other units on campus! Nothing could be further from the truth.

During the past two years, the School of Creative Arts has struggled to found its new degree programmes, and to make certain facilities viable to support the wide range of disciplines on offer in the School. During the course of several one-day conferences in the past month, members of the School have expressed a strong desire to find ways of contacting other members of the University to discuss course developments at undergraduate and postgraduate levels wherever there is a possibility of collaboration across disciplines. Some of the topics raised were:

Fusion with some elements of English  
Development of Psychology units in S.C.A. courses and making available human resources to Psychology for research purposes;  
Collaboration with certain Philosophy studies;  
Engineering and Sculpture;  
Earth Sciences and Wild-life Illustration;  
Music and Birdsong;  
Mathematics and analysis in inter-Arts studies;  
Visual and Acoustic Arts and Computer Science;  
Arts Management and Business Strategy;  
Creative Arts and Education;

On behalf of the School of Creative Arts I would like to extend a warm invitation to all interested parties to an afternoon conference to discuss mutual interests in curriculum terms between the School of Creative Arts and other units in the University.

This conference will take place on Monday, 3rd June, at 4.30 p.m. in the Conference Room\* of the Institute. The conference would finish at 6.30 p.m. at which time wine and cheese would be served, and a visit to the current exhibition in the Long Gallery undertaken.

\*Venue may be changed to Music Auditorium, if numbers prove to be great!

With all good wishes.

Professor E. Cowie,  
Head of School.
