## FINANCE SYSTEMS RUN LIVE

*Mark Hall, Analyst Programmer, looks on as the Vice-Chancellor, Professor McKinnon, activates the IBM System 38.*

At ten o'clock last Monday morning (September 2) the Vice-Chancellor, Professor Ken McKinnon, pressed a button in the University Finance Office — and our new financial accounting systems came 'on stream'. By his simple move the Vice-Chancellor produced the first Debtors' Invoices from the Tanbert Software Package, BS.38.

The Tanbert System comprises four basic integrated units —

The General Ledger  
Commitment Module  
Accounts Payable, and  
Accounts Receivable

The system in the future will be enhanced by a program, developed by Mark Hall and John Tong of the Administrative Data Processing Unit, with the addition of a Revenue Module to cope with the activities of the

Cashiers' Window. Finance Office staff have undergone training sessions to teach them the new system, which has the advantage of on-line updating of financial data so that the University's records are no more than a few hours behind the day's events. This ability greatly enhances the accounts inquiry function.

Over the past year or so, staff have been warned of the increase in thefts of personal effects, particularly purses and wallets, from offices.

Already this year there have been 16 reported cases of purses and wallets having been stolen from unattended offices.

The importance of securing such property cannot be emphasised enough. If it is necessary to leave wallets and purses, for example, in unattended offices (locked or not) I strongly advise that such be locked in drawers or cupboards.

Your assistance is also requested in notifying the Security Staff (ext 3936) of any person acting suspiciously in and around University buildings.

Funds are provided by the Australian Development Assistance Bureau (ADAB), through the International Development Program of Australian Universities and Colleges Ltd (IDP). This enables ACPAD to meet the costs, where necessary, of sorting, listing, shipping and entry.

Publications donated by tertiary institutions, business houses and libraries now form part of collections in university and higher education libraries in Indonesia,

Malaysia, the Philippines, Thailand, Fiji and Papua New Guinea.

Donations of scholarly books, reference material, journals (current and back sets) and serials for which annual cumulations are received are sought from individuals and libraries, particularly in the areas of food and agriculture, science, medicine, education, economics, English as a second language and engineering. However materials in all disciplines are need.

For information regarding donations contact: The Executive Officer, ACPAD, GPO Box 2006, Canberra, ACT 2601.

### 1985 CTEC PARTICIPATION AND EQUITY PROJECT

The University of Wollongong has received \$50,000 under the Participation and Equity Programme to conduct a pilot project which will contribute to the longer-term improvement of access to higher education by these disadvantaged groups in the Illawarra: Aborigines, women, disabled person, ethnic groups, young people from low-income families and people living in outer metropolitan and rural areas.

The University will be conducting this investigation in conjunction with Wollongong TAFE and a working group of the Illawarra Regional Co-ordinating Committee on Education. The first task will be to conduct research into the special needs of the various groups before determining the most beneficial preparation programme.

As part of the research, the Planning and Development Section would be interested in hearing from any student or member of staff on issues such as:

- . What are the problems faced by disadvantaged groups?
