10 June 1986

TEACHING COMPANY SCHEME LINK WITH ICI

The University on Wednesday May 21 entered into a formal agreement with ICI Australia Operations under an award made by the Commonwealth Government in relation to the Teaching Company Scheme. This scheme was introduced earlier this year by the Department of Industry, Technology and Commerce. It is designed to enhance industry performance and to assist restructuring by improving links between industry and the tertiary education sector. The scheme involves a company working in partnership with a tertiary education institution on an R & D program that will substantially improve the company's technology and performance.

The University has previously entered into an agreement with Metal Manufactures under an award made in the first round of Teaching Scheme grants. A Research Associate is now engaged at MM implementing a program for computer-assisted quality control monitoring systems.

The successful submission linking the University with ICI was initiated by Dr Gordon Wallace of the Department

of Chemistry. The project will be concerned with the development and application of an electro-chemical sampler.

A Research Associate will be employed at ICI's Botany plant to optimise the cell design of a reticulated vitreous carbon-based sampler. The researcher will work under Dr Wallace's direction.

It is hoped that on development the sampler will be commercialised and offered for sale to industry on the scientific industry market.

The University has recently been advised that it has been successful with a further joint application made with Metal Manufactures. This project, which links MM with the Department of Mechanical Engineering, is concerned with the development of aluminium conductor data for transmission lines.

It appears likely that a fourth award may soon be made to the University under the Teaching Company scheme. The University's performance in this area would appear to rival that of any other Australian university.

Dr Mike Brisk, Research Manager, Technical Section, ICI Australia Operations Pty Ltd, Botany, and Professor Ian Chubb, Deputy Vice-Chancellor (Academic and Research) sign the Teaching Company Scheme Agreement linking ICI and the University

From the V.-C's Office

PROFESSOR OF STATISTICS APPOINTED TO UNIVERSITY

I am pleased to announce that the Chancellor of The University of Wollongong has approved the appointment of Dr David Griffiths as Professor of Statistics. Dr Griffiths has accepted the appointment and will join the University in time for the commencement of the 1987 academic year.

Dr Griffiths was awarded a Bachelor of Science Degree with First Class Honours in 1966 from the University of New South Wales. He was also awarded the University Medal and the S.T.C. Award and Medal.

In 1968 he was awarded a N.S.W. Rhodes Scholarship which culminated in the award of his D.Phil. from Oxford University in 1971. At the end of 1971 Dr Griffiths joined the staff of CSIRO, Division of Mathematics and Statistics, as a Research Scientist, progressing to Senior Research

Scientist in 1976, Acting Senior Regional Officer N.S.W. in 1979-1980, and Principal Research Scientist in 1982. Dr Griffiths joined the University of New South Wales as a Lecturer in 1984 and was promoted to Senior Lecturer in 1985. Within the University Dr Griffiths is Assistant Director of the new Industrial Mathematics and Statistics Group. He was a member of the N.S.W. Rhodes Scholarship Selection Committee 1974-1977.

Dr Griffiths has published extensively in a wide range of prestigious journals on a wide range of topics. Current research and interests, both personally and as a member of the Group, include Analysis of Traffic Crash Patterns, evaluation of vaccines, modelling the shape of lenses, investigation of concrete faults in high rise buildings and research on length-based sampling for cancer screening trials. Consulting has involved liaison with a wide range of Government departments, Statutory Authorities, Tertiary Institutions and other bodies such as The Cornea and Contact Lens Research Unit, Siromath and Biotechnology Australia. Epidemiology is an area of increasing research attention.

K.R. McKinnon,
Vice-Chancellor.

General Notices

PREPARATION FOR UNIVERSITY DAYS

The University's thirteenth annual day for intending students will be held this week.

Year 12 students from 800 schools in New South Wales and Canberra as well as intending Mature Age students have been invited to visit the University on Friday June 13 or Saturday June 14 for lectures on all courses, tours and discussions.

This is the first year the University has offered the program on Saturday. This is in response to several comments from students outside the region whose schools were unable to organise a visit during the week. The Saturday session will also be more convenient for Mature Age students who work.

Visitors should assemble at the Pentagon at 9.15 am when they will be given a program. The day is structured to give intending students a taste of University life. They will have to decide each hour which lecture they want to attend and then find the appropriate lecture room. Any further information can be obtained by contacting Gillian Curtis on 3926.

University Counsellor Greg Hampton talks to 1985 Year 12 students about adjusting to tertiary education.

NSW BUSINESS AND TECHNOLOGY FORUM 1986

The NSW Business and Technology Forum provides a new meeting place for everyone interested in technology, its development and its application. Each month, business men and women, financiers, scientists, engineers and public servants have the chance to not only hear a notable speaker, and to question and debate imperative technology-related issues, but also to meet other people who are helping to turn research and technology into a powerful economic tool.

The joint sponsors of the NSW Business and Technology Forum invite you to be there.

Messrs David Dew and Graham Hogg, BHP Engineering Division, Tuesday June 24, Mosman and Harbord Rooms, Metropole Hotel and Convention Centre, 285-305 Military Road, Cremorne.

Program:

12.15 - 1.15 pm — Lunch

1.15 - 1.40 pm — David Dew and Graham Hogg:

Advanced technology prospects for BHP engineering in computer-aided design and drafting and computer-aided engineering and the availability of BHP engineering facilities and personnel for use as an engineering/drafting bureau.

1.40 - 2.00 pm — Discussion and debate.

2.00 - 3.00 pm — Informal session. The room will remain available for discussion over coffee.

Bookings only: ring Avril Ingram on (02) 2506635 by June 20.

COMMUNITY RADIO INVITES UNIVERSITY STAFF INVOLVEMENT

Illawarra FM Community Broadcasters (ICB), the community-based FM Radio group, were granted a Class C (Community) license by the Australian Broadcasting Tribunal on March 14 this year, to establish an FM Community Access station to serve the Illawarra region from Helensburgh to Gerringong. This group has been active for over five years in its efforts to establish the station.

The University of Wollongong has been involved in test transmissions held by the group over the past five years and is presently a Corporate member of the group. The University has now been invited by ICB to become permanently involved in producing programs which have some relationship to University interests, research, teaching or other activities.

Examples of possible programs would be broadcasts

of concerts and performances by the Conservatorium and the University Singers; drama; political and social comment; discourses on research activities (possibly a Wollongong-based 'Science Show'); and informative or promotional programs. Some idea of the style such programs may take may be gained from listening to 2SER-FM in Sydney. This station is controlled by Macquarie University and the NSW Institute of Technology, and despite being licensed as an educational station 2SER functions as a community station of the type that it is anticipated will be established here.

The limitations on program styles and content are only those imposed by available facilities and the programmer's imagination. It is understood that programs can be produced by both staff and students, and that intrinsic to the concept of public broadcasting is the principle of a 'hands-on' approach to broadcasting and program preparation which means that University members will be encouraged to prepare and produce their own program material with assistance from ICB volunteers should this be required, as well as becoming involved in the station as volunteers.

At the present, program production facilities are restricted to those that will be available at the ICB studios in 6 Ellen Street. However some units may already own suitable facilities capable of producing programs of acceptable technical broadcast standard, and we might expect that, provided the interest of the University as a whole were great enough, a satellite studio could be established on campus similar to that at Macquarie University for 2SER.

Those requiring further information may contact Hugh Spencer on ext 3439 or 711514, or Chris Whilder, Co-op Bookshop, or call the station on 272840.

FURTHER GRANT FOR AEAC

The Automation and Engineering Applications Centre Ltd (AEAC) has recently received \$200,000 from the Department of Industry Technology and Commerce towards its recurrent costs. This makes a total of \$700,000 which has been received to date to fund the activities of AEAC.

AEAC's Managing Director, Chris Cook, said that nearly 80 per cent of this total will be spent in Wollongong. Jobs have been provided for five full-time engineers and three technical support staff, in addition to a number of contract staff.

AEAC manufactures and installs high-technology manufacturing equipment, most of which has been developed for clients in Sydney and Melbourne.

AUSTRALIAN STUDENT WORKSHOPS IN MANAGEMENT RESEARCH

Following the success of the three previous Australian Student Workshops in Management Research held at the Australian Graduate School of Management, the school is conducting the fourth Workshop from July 25-27. Uncle Ben's of Australia is again supporting the Workshop and will be providing free travel and accommodation for students selected to attend. The aim is to attract students from a wide range of disciplines including economics, psychology, finance, operations research, law, mathematics and statistics and other management related disciplines. This is an opportunity to visit the AGSM and discuss research with its faculty and with other student researchers.

This year we particularly wish to attract students who are at an early stage in their research career, that is, Honours and Masters students. Applications from more advanced students are still invited since the Workshop is designed to cater for both kinds of students. The Workshop will include sessions on recent developments in both methodology and theory. These sessions will include topics in which AGSM faculty have particular expertise such as meta-analysis, log linear modelling and small group research. Other sessions

Chris Cook (see 'Further Grant for AEAC' in column 1)

will focus on the nature of the postgraduate research enterprise. Small group and individual discussions relevant to participant's own work are also scheduled.

Applications to Fourth Australian Student Workshop in Management Research, AGSM, PO Box 1, Kensington, NSW 2033. Closing date is June 16.

INCREASING COMMUNITY AWARENESS

The Institute of Metals and Materials Australasia is a professional Institute open to any person or company with an interest in the metals and materials industries and associated sciences. The institute publishes two journals. One is a monthly magazine on the metals and materials industry and is known as *Materials Australasia*. The other publication, *Materials Forum*, is a quarterly journal containing mainly technical papers related to advances in materials science.

The local branch of the IMMA holds monthly meetings at the Department of Metallurgy and Materials Engineering at the University of Wollongong. Each month a different speaker presents a topic in which he has some particular expertise.

The program for the coming months is as follows:

Date: July 2, 5.30 pm

Speaker: Hon. B. Jones MHR

Topic: Materials Technology in Australia

Date: August 20, 6 pm

Topic: Symposium on Scanning Electron Microscopy

Date: September 17, 8 pm

Speaker: Mr P.N. Richards

Topic: Reminiscences

Date: October 15, 8 pm

Speaker: Dr L. Keys

Topic: Professional Consulting

Date: November 21, 7 pm

Annual Dinner

We would welcome anyone to come to our monthly meetings. More details about IMMA can be obtained by writing to The Secretary, Institute of Metals and Materials Australasia, Wollongong Branch, Dr D. Dunne, Department of Metallurgy and Materials Engineering, University of Wollongong.

David McIntyre
IMMA Publicity Officer

Campus Community Interface

At the handing-over ceremony — Miss Ethel Hayton MBE is seen with the Vice-Chancellor, Professor Ken McKinnon

PRESENTATION OF SCULPTURE

Miss Ethel Hayton MBE, Fellow of the University and Life Member of the Friends, presented the Vice-Chancellor of the University with a fine bronze sculpture of the Campus Fig Tree which she had commissioned from renowned local sculptor, Gino Sanguineti.

The Vice-Chancellor, Professor Ken McKinnon, thanked Miss Hayton for her gift to the University and indicated that consideration would be given to using the sculpture as an award to be given each year to the University Department or School which had done most in working with the community.

It was moved Professor Ken McKinnon, seconded Professor Ron King, that Miss Hayton's gift be received on behalf of the University.

The gift is the second Sanguineti work donated by Miss Hayton to the University. The first was the handcrafted Friends Lectern donated in the first year of the Friends' operations, 1981.

Notices — particularly of seminars for insertion in this issue — arrived too late for publication. In point of fact many notices have been received *after* events have taken place.

It takes a week to produce *Campus News*. Deadline is noon on Monday for the issue to appear on the Tuesday of the succeeding week.

WELCOME HOME TO LAUHLAN AND ROBYN

Life member of the Friends, Brian Pullen of the Normandie Motor Inn, 30 Bourke Street, North Wollongong, has offered to conduct a Welcome Home to two other life members, Professor Lauchlan Chipman and Robyn Slater, who will be returning home soon from Harvard University, Boston, Massachusetts.

The Welcome Home will be held on Saturday June 28 at 12 for 12.30 pm in the Penthouse on the top floor of the Normandie.

The price of \$10 per head will include a smorgasbord lunch and white wines, served by 'Lord Brian' himself.

There is a limited number who can be admitted, so money in advance is required.

Members of the Friends who are interested should ring Giles Pickford on 270073 or 270082 before June 20.

PICKFORD TO HOBART

Giles Pickford, University Community Relations Officer and Executive Officer of the Friends of the University of Wollongong, will deliver a paper to the 10th National Conference of the Australian Institute of Tertiary Educational Administrators.

The Conference will be held at the University of Tasmania from August 27 to 30.

The paper will examine the developments at the University of Wollongong in the fields of community relations and fund-raising over the period 1979-1986. The thesis developed will be that successful community relations requires philanthropy as a byproduct, as it produces a greater bonding between the public and the University than other less rigorous relationships.

Various devices and functions developed at the University of Wollongong will be described.

CHANGE OF DATE

The Friends visit to the School of Creative Arts, scheduled for June 26, has been changed to Wednesday July 30 to avoid examinations. A letter from Professor Cowie to Friends will be circulated shortly.

THE FRIENDS CALENDAR

June	
Wednesday 11	Projects Committee 5pm, Board Room
July	
Friday 4	Community Involvement Committee 5.30pm, Town Hall Meeting Room
Sunday 6	High Schools' Chess Tournament 7-8pm, Union Hall
Wednesday 25	Graduates Group 6pm, Board Room
Wednesday 30	Friends Visit to the School of Creative Arts
Thursday 31	Friends Presentation of the Queensland Marionette Theatre to Schools and Friends Members
Date to be decided	Presentation of Papers to Health Professionals
August	
Friday 8	University Day
Friday 8	Graduates Reunion Dinner 7pm, Union Common Room
Sunday 10	Town v Gown Rugby Match 3pm, University Oval
Wednesday 13	Projects Committee 5pm, Board Room

Sources of Funds

The following sources of research funds are now available to members of academic staff. Further information including application forms, where these are to hand, may be had from Ian Strahan on ext 3079 or Tom Moore on ext 3386. Intending applicants are reminded that all research applications must be forwarded through the Research Office.

The Deputy Vice-Chancellor (Academic and Research) Professor Ian Chubb, is happy to discuss aspects of applicat-

ion strategy, including design and presentation, with researchers. To render this process as efficient and productive as possible, intending applicants should first consult widely, for example, with their relevant Chairperson(s) about the content of their application. They are then invited to send a full draft to Professor Chubb for comment before final typing. Please allow sufficient time for consultation and reference to the Research Office while meeting the closing date given by the funding body.

OCCUPATIONAL ANALYSIS TECHNIQUES

The National Training Council is conducting a project into the identification of occupational analysis methodologies. The aim of the project is to increase the quality of information on which training decisions are made, specifically by Industry Training Committees (ITCs), but also by governments and training bodies and other organisations.

As part of this project the Council is seeking the services of a consultant to produce a reference manual containing a guide to the selection and use of proven systems of occupational analysis.

Applications close June 11.

RESEARCH FELLOWSHIP — PLUME RISE AND DISPERSION STUDIES

The State Electricity Commission of Victoria is funding a Research Fellowship at the CSIRO Division of Atmospheric Research. The topic will be in the area of Plume Rise and Dispersion studies in the Atmospheric Boundary Layer. The Fellowship will be for three years subject to satisfactory progress in an area of relevance to the SEC. Progress will be assessed on the basis of annual progress reports. The Fellowship will be tenable at the CSIRO Division of Atmospheric Research, Aspendale, Victoria.

Qualifications: A PhD degree or equivalent qualifications and research experience in physics, mathematics or engineering.

Applications close June 20.

INTERNATIONAL YEAR OF PEACE (IYP) AUSTRALIAN GRANTS

Approximately ten grants to groups and/or individuals, for sums ranging from \$2,000 up to \$20,000, are available to fund projects of national significance to further mark the International Year of Peace.

The IYP seeks to focus attention, and encourage reflection, on the basic requirements for peace in the contemporary world. Priority will be given to proposals which

- * address the objectives of IYP as described by the United Nations, and which are listed on the Guidelines sheet accompanying Application Forms;
- * seek solutions to the problems which are obstacles to the achievement of peace;
- * are likely to have long-term effects; and
- * involve a wide cross-section of the community.

This third and final round of national project funding closes on June 30.

THE NSW STATE CANCER COUNCIL — RESEARCH GRANTS FOR 1987

Research projects are supported annually in all aspects of cancer which elucidate its origin, cause, and control at a fundamental and applied level. The Council is currently

considering the possibility of making grants tenable for two or three years. Applicants are invited to make submission for the longer grants although no guarantee can be given that such a procedure will be instituted for 1987. All applications will be evaluated by peer review and awards may be subject to scientific audit by site review. Applications close July 14.

Scholarships and Prizes

ROTHMANS FELLOWSHIPS

The object of the Fellowships is primarily to assist in the development of postgraduate studies in Australian universities.

The Fellowships are open to graduates of any university, who have had at least three years' postgraduate experience in research, and may be held only at an Australian university.

Application forms may be obtained from Keith Jennings, Secretary, Rothmans University Endowment Fund, c/o The University of Sydney, Sydney, NSW. 2006.

Seminars

All members of the University are invited to attend a seminar hosted by the Centre for Education Policy Studies in the Faculty of Education. Dr Jean Blackburn (visiting Fellow, Research Centre for Women's Studies, University of Adelaide) will be discussing:

Later Policy Developments in Education in Victoria
Time: 10.30 am to noon

Date: Wednesday June 18

Venue: Meeting room, Building 21

Light lunch will follow.

If you will be attending advise Debbie McGavin (ext 3078) or Jane Cook (ext 3963) by Friday June 13.

DEPARTMENT OF PHYSICS

To be held in the Physics Lecture Theatre Bldg. 18 Rm.118.

Date: Thursday July 17

Speaker: Dr John Collins, CSIRO Div. of Applied Physics, Lindfield.

Topic: Low Temperature Thermal Properties of Defects in Alkali Halides.

DEPARTMENT OF GEOGRAPHY

Date: June 11, Wednesday, 12.15 pm

Venue: University of Wollongong, Room G03, Building 19

Speaker: Professor Murray Wilson

Topic: Delayed Child-Bearing in New South Wales

Date: June 18, Wednesday, 12.15 pm

Venue: University of Wollongong, Room G03, Building 19

Speaker: Dr Mike Taylor, School of Pacific Studies, Australian National University (ANU)

Topic: Regional Problems and Inter-regional Comparative Advantage.

Mike Taylor's recent publications include the books: *The Geography of Multi-nationals* and *The Geography of Australian Corporate Power*. His paper arises out of work being conducted whilst on secondment to Federal Government concerning present and future regional development policies for Australia.

DEPARTMENT OF PSYCHOLOGY CONTINUING EDUCATION

Date: June 12

Speaker: Professor Donald Wallis, Department of Applied Psychology, University of Wales Institute of Science and Technology

Topic: Occupational stress and satisfaction among hospital nurses

Venue: Room G 010, North wing, Social Sciences Building, University of Wollongong

BIOMEDICAL EVENING

Seminar will be preceded by a char grill dinner at 6.30 pm in the Union Bistro. Those interested in attending the dinner should contact Dr E.J. Steele before the designated evening so that appropriate bookings can be made.

Seminar will begin at 8 pm in Lecture Theatre, G.19, Building 35.

Date: August 6

Speaker: Dr W.J. Peacock, Chief, CSIRO, Division of Plant Industry, Canberra.

Topic: Gene Engineering in Plants

EEO news...

EDUCATION PROGRAMS CONTINUE

One hundred and fifty six general staff attended the Equal Employment Opportunity information sessions held in March and May (80 females and 76 males).

Typical questions raised at these sessions included:

- Why have EEO programs been introduced?
- What's in it for me or is it just for a few groups?
- Who's responsible if someone is harassed at work?
- How do EEO and Trade Union roles relate to each other?

If you missed one of these sessions and would like to attend a seminar, please let me know and you will be informed when we conduct our EEO Induction courses. These half day seminars will cover, in some depth, the fundamental issues underlining EEO programs.

The next EEO related workshop to be offered will be the two-day Selection Techniques course starting on June 30. Please enrol with Wendy Raikes on ext 3798.

HOW MANY EEO CO-ORDINATORS ARE MEN?

Quite a few participants asked this question. The answer - in New South Wales, at least one in five co-ordinators is a man, out of a total of 127. It could be as high as 35, making it closer to one in four.

Kathy Rozmeta
EEO Co-ordinator
Ext 3917

AVCC News

APPLICATIONS FOR FELLOWSHIPS

FELLOWSHIPS AWARDED TO AUSTRALIAN SCHOLARS

Two Fellowships will be awarded annually, and the selection committee will allocate the awards to ensure that no one country receives both Visiting Fellows in any one year.

Awards will be announced in December 1986. Successful applicants will be required to make their own travel and accommodation arrangements.

FELLOWSHIPS AWARDED TO OVERSEAS SCHOLARS

Two Fellowships will be awarded annually. Australian universities will be responsible for inviting scholars from any of the participating countries and the following universities are rostered to receive Fellows until 1995.

- 1987 - Newcastle, Flinders
- 1988 - ANU, La Trobe
- 1989 - Adelaide, Melbourne
- 1990 - Monash, James Cook
- 1991 - Murdoch, Deakin
- 1992 - New South Wales, Wollongong
- 1993 - New England, Queensland
- 1994 - Griffith, Sydney
- 1995 - Tasmania

The visiting university is asked to nominate at least two people, each from a different country.

It is expected that the nominating university will extend all the necessary hospitality to the Visiting Fellow and will make the necessary travel and accommodation arrange-

ments for the Fellow. The Visiting Fellow will be responsible for meeting all accommodation and other living expenses while in Australia.

As the Visiting Fellows are intended to mix with other workers in their own fields, it would be expected that the nominating university will arrange visits to other Australian universities.

Nominations must reach the AVCC by June 30.

Notices in full at *Campus News*.

VISITING FELLOWSHIPS

A number of grants towards the cost of travel and subsistence will be made to facilitate visits between universities in Australia and the following countries: Bangladesh, Burma, Fiji, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, Pakistan, Papua New Guinea, Philippines, Singapore, Sri Lanka, Thailand.

The Awards Are Designed To Cover Visits Of Distinguished University Scholars Actively Engaged In Academic Work.

Visits so assisted should be of a minimum of 60 days duration and, it is emphasised, should enable the visiting scholars to meet and mix with workers in their own fields and to have discussions with academics and personnel in relevant organisations on subjects of mutual interest, rather than to give a series of public lectures.

The Fellowships are not intended for persons wishing to attend conferences or seminars.

Four Fellowships will be awarded annually — two for Australian scholars to visit universities in any one of the overseas countries listed above, and two for scholars from universities in the above countries to visit Australia.

Any suitably qualified members of an Australian university and a recognised university institution in one of the above countries, who fulfil the conditions, are eligible for consideration.

The AVCC Fellowship provides for an allowance, to be determined by the AVCC, of up to \$5,000 maximum as a contribution to the cost of travel to or from Australia and within the country to be visited, including living expenses in the visited country.

No provision is made for the payment of fares or allowances for dependents of the Visiting Fellow.

Concerts, Exhibitions and Entertainment

GALA CONCERT FOR JUNE 13

The School of Creative Arts has chosen Friday June 13 for a Gala Concert in the University Union Hall at 8 pm.

The program, which will be conducted by David Vance, University Music Development Officer, features a host of guest artists. Australian pianist, Lisa Moore, will play the great D minor Piano Concerto of Mozart, while mezzo-soprano Sue Elliot and tenor James Bonnefin join the University Singers as soloists in the Cantata by Stravinsky. School of Creative Arts flautist, Linda Jones, recently heard at Graduation, is the soloist in J.S. Bach's Suite No 2 in B minor, which includes the celebrated Badinerie, lately popularised by James Galway. In the famous 'Toy' Symphony by Leopold Mozart, the School of Creative Arts Chamber Ensemble (leader: John Stender) will be joined by six eminent celebrity artists: Faye Davis, Susie Elelman, Barbara Tuckerman, Sue Walker, Bert Flugelman and Andrew Ford.

Who could possibly argue with such a program that Friday the 13th is an unlucky day?

Tickets \$8, \$5 concession. Enquiries ext 3985.

Linda Jones, Kathleen Ralston and Sue Newman at Glennifer Brae, discussing the Bach Trio they will perform at the School of Creative Arts lunchtime concert today, June 10. The new University Harpsichord will be featured in this program

LISA MOORE TO SCHOOL OF CREATIVE ARTS

This month the Australian pianist Lisa Moore, now resident in New York City, will be visiting the School of Creative Arts.

Lisa Moore is a pianist of no ordinary talent. She has consistently won critical plaudits in the USA and Australia in recent years.

She will be appearing Friday June 13, 8 pm Union Hall.

..... for PEACE

The Illawarra Choral Society will present its concert ... for Peace, to commemorate the 1986 International Year of Peace, in the University Union Hall at 8 pm on Monday June 30 under the baton of Robert Smith, lecturer in the Faculty of Education.

On this special occasion the Illawarra Choral Society will host well-known local soloists Vera Troitsky and Roy Jackson.

Tickets are available from Jurjens, Keyboard Clinic, Wilsons Record Bar, The University of Wollongong Union Office and at the door, \$5, \$3, Family \$10.

For further information contact Bette Stoddart (Publicity Officer 673994), Sylvia Rice (President 287761) or Robert Smith (Conductor 271319).

Written in the late 1800s and banned from public viewing virtually since that time, Arthur Schnitzler's 'La Ronde' (the Roundabout) was recently staged by the School of Creative Arts. Bob Harper's version of the 10-act play, which depicted the sexual extravagances of pre-war Vienna, was an entirely new approach and employed song, dance and back-projected imagery. The picture above shows Malt Coombe and Micheline Yasmin with Bob Harper

CONCESSION TICKETS TO AUSTRALIAN OPERA PERFORMANCES

A limited number of A Reserve tickets at \$33 (a saving of \$9 per ticket) are available at concession prices for performances by the Australian Opera during its Winter Season.
