

LITTLE LIGHTHOUSE:

Wollongong City Council is well aware of the tourist and civic potential of the preservation of historic features in the Illawarra area and during the year succeeded in securing the preservation of the Little Lighthouse at Wollongong Harbour which it asked our Society to operate.

It was with great regret that our committee had to decline to extend our museum operations which already take all the manpower and funds that we can muster.

We were glad, however, that council has accepted the challenge to preserve the lighthouse and is working to that end.
