EXPANDED FILMMAKERS CINEMA

beginning with the most unusual feature film ever made in Australia, a 90 minute film
poem shot on Sydney locations, EXOTIC, EROTIC, KALEIDOSCOPIC, a mind expanding
colour experiment directed by Albie Thoms *** "MARINETTI" ***
"when making a film I sometimes feel that the film has taken over and is making
itself. When it is complete it is there for people to experience. But it can't
talk back, communicate beyond its content, so people have to try and understand
it as it is. See it over and over if necessary."
Albie Thoms will be present to discuss his work after the screening.

THE FOLLOWING THURSDAY, MARCH 16 - (THEN EVERY THURSDAY AT 8:30PM)

Three filmmakers will be presenting their work,
Jane Oehr - "EASY RIDER GOES TO WOODSTOCK" **** Who is general westmoreland?
is wavy gravy edible? what has artur rubenstein got to do with a hundred US freaks
and the pursuit of nudi-y, love and acid???? a film about another culture
in the making****
Judy Bray - "THE CHANGING HEART", 9 to 5 and an hour for lunch. Been to Australia
Square to perv on the birds over coffee? Groped on the grass in Hyde Park?
a penetrating look at the needs of and amenities for thousands of city workers
at lunchtime.
the ubiquitous Aggy Read - "FAR BE IT ME FROM IT" #0%&& uses erotic images to
explode sexual obsessions, home movies footage to destroy sentimentality
and ruthless @%%#+% editing to break through movie cliches. An unforgettable
biography-in-film including scenes of the incredible shrinking exhibition at
the yellow house. **** ****** ******* ******* ******* ******* ******* *******
