

THE UNIVERSITY OF WOLLONGONG

# CAMPUS NEWS

A WEEKLY INFORMATION SHEET

22 OCTOBER, 1982

Deadline for copy 12 noon Monday.

Distributed each Friday.

Editor: Giles Pickford, tel. (042) 282428.

## 2WL Expo Takes Over Campus

This weekend, Radio 2WL will present the first of its 80's LIFESTYLE EXPO. The Expo will be unique to Wollongong as it is the first to be staged at the Wollongong University Union Building Complex. Over 40 exhibitors will take part in the Expo which will reflect Wollongong's lifestyle. The aim of the Expo is twofold: Firstly, to promote our local business houses and secondly to give the citizens of Wollongong a look at the city's University.

2WL's Promotions Manager, Mark Spurway, explains why the Wollongong University Union Building site was selected: "In looking for an ideal site to accommodate up to 40 advertisers we were appalled by the lack of facilities the city has to offer. The Town Hall was too small and outlying areas considered unsuitable. We wanted to hold the Expo in a central position, close to the city and after talking to Giles Pickford from the Friends of the University, we came upon the best possible alternative to a major exhibition complex. The Union Building facilities are ideal for us. There are 4 large areas which we will use; The Main Hall, the Dining Room, the Common Room and the Lounge facilities upstairs. In selecting this site we also took into consideration the marvellous catering facilities and plenty of space outdoors. The station also felt that here was a great opportunity for the 90% of Wollongong residents who have not been to the University to come and have a look."

There are approximately 40 advertisers involved in the 2WL 80's Lifestyle Expo. These include: Joan Wilson Specialty Wallpapers; ARC Weldmesh; Hunts Marine; Global Marketing; Lotto; Byrne Brothers; Indent Wall and Floor Tiles; Rheem Hot Water; Presidential Solid Vinyl Weatherboards; Paramount Blinds and Awnings; Elegant Mirror Doors; Doorland; A.V. Jennings; Monier Masonry; Corrimall Lounges; The Light Spot; Barnes Darling; Hi-Sierra; Whiteway Sewing Centre; Albion Park Building Supplies; PGH Bricks; Woonona Pool and Spa; Illawarra Credit Union; Palings; Andres Sew-

ing Centre; Illawarra Tile and Slate; Brass Imports; Radnor Homes; IMB Building Society; Keyboard Clinic; Market Car Hi-Fi; Pools; Leisure Coast Video's; L and B Video; Illawarra Home Video and Greater Union Organisation.

The 4 indoor sites have been allocated along the following lines: The Dining Room will basically be used for Home Improvements; The Common Room - furniture; The Main Hall - finance, music and general homeware; Upstairs we will concentrate on video equipment and video and movie hire.

Advertisers will also be utilising some outdoor areas in front of the Common Room. In this area there will be boats, bar-be-ques and surfing exhibitions. Near the courtyard area outside the cafeteria there will be a large tent full of wallpaper exhibitors and also a catering tent. Val Barnhill, from the Union Building is handling all the catering requirements. There will be a variety of food outlets available for the general public over the weekend. The Bistro and Bar facilities will be available upstairs; the cafeteria downstairs and take-away food tents and caravans outside.

On Sunday, during the Expo, Theatre South will be presenting a preview of its original new play "A Change In The Weather" especially written for the Women's and Arts Festival. A free preview will be performed in the Pentagon Complex at the University on Sunday at 1.30 p.m.

The 2WL 80's LIFESTYLE EXPO is on Saturday, 23 October from 12 noon to 10 p.m. and Sunday, 24 October from 10 a.m. to 6 p.m. Admission is free and there is plenty of parking available.

Mark Spurway sums up the Expo ... "It is a great way to see 40 different businesses under one roof, have something to eat and walk around the beautiful grounds of Wollongong University.

## Ties With Oxford Strengthen

Two Wollongong Philosophy lecturers have just learnt that they have been awarded Doctorates of Philosophy. They are Laurance Splitter, who becomes the fourth Wollongong academic to hold an Oxford Doctorate, and Paul Hyland whose Doctorate is from Sydney University. The other Wollongong academics with Oxford doctorates are Phillip Simmonds (Physics), Ian MacLaine (History) and Lauchlan Chipman (Philosophy).

Laurance Splitter's doctoral thesis concerned problems associated with 'natural kinds' and involved novel work in the philosophy of biology. He already holds a Bachelor of Philosophy degree from Oxford which is a special postgraduate degree designed for intending teachers of Philosophy. He originally went to Oxford as a Victorian Rhodes Scholar having obtained a double first from (Continued Page 2)

## OXFORD TIES (from page 1)

Monash University in Mathematics and Philosophy. Dr Splitter has been at Wollongong for four years, having previously been Senior Tutor at Monash University. He has been active in the University Singers.

Paul Hyland joined the University of Wollongong this year on a limited term lectureship. His doctoral thesis was on the subject of 'indicative conditionals' and involved consideration of logical problems associated with the analysis and interpretation of statements of the "If ... then ..." form. Originally a graduate of Sydney University he has also taught at LaTrobe University in Melbourne, as have two other members of the Wollongong Philosophy Department.

## Campus Community Interface

### PLANETARIUM HOPES RISE

The Friends joined a delegation of people from the Illawarra Planetarium Society, the Tourist Association and Wollongong City Council, which called on the Minister for Education, Ron Mulock.

The delegation pointed out that a planetarium is a valuable teaching aid and educational resource, as well as being a tourist attraction. The only worthwhile planetarium in Australia is in Brisbane.

The Minister agreed that NSW needed such a resource and promised to make a recommendation for \$1 for \$1 support for the feasibility study which will cost \$12,000.

The Projects Committee of the Friends, under the Chairmanship of Malcolm Booth of Metal Manufacturers, has agreed to raise \$1,000 towards the feasibility study. The remainder will be sought from the Illawarra Planetarium Society, the University and the local community.

## Seminars

### DEPARTMENT OF SOCIOLOGY

On 29 October at 12.45 p.m. in Room 19-2103, Maria Markus of the Department of Sociology at the University of NSW will speak on "Legitimation Crisis and the Polish Workers Movement".

### DEPARTMENT OF PHYSICS

Professor Brian McCusker of the School of Physics at the University of Sydney will speak on "Quarks" at 8 p.m. on Thursday 29 October 1982 in the Physics Lecture Theatre.

Since the Philosophy Department began teaching in 1976, five of the present staff of seven have extended their postgraduate qualifications while at Wollongong. Philosophy Professor Lauchlan Chipman pointed out that the seven staff have thirteen postgraduate qualifications between them, and that their combined teaching and research experience derives from eight different universities, not counting the many more with which substantial contact has been made during Outside Studies Programmes. Professor Chipman believes that this high level and wide range of experience will be an increasingly important factor in attracting postgraduate students from other universities.

### DEPARTMENT OF CHEMISTRY

At 11.30 a.m. on Friday, 22 October, in the Chemistry Lecture Theatre the following honours seminars will be given:

1. Mr L. Tristram - "A Study of the Structure and Properties of Nickel and Cobalt Complexes of Substituted Ortho-Hydroxybenzophenones".
2. Mr G. Erickson - "A Study of the Structure and Properties of Binuclear Copper Complexes of Schiff Base Ligands formed by Condensing O-Hydroxy Aldehydes or Ketones with 1,3-Diamino-2-Propanol".

On Friday 20 October at the same time and place the following honours seminars will be offered:

1. Mr Mulherron - "The Determination by XRF of Metals in the Respirable Fraction of Welding Fumes".
2. Mr D. Cheesman - "Development of a General Purpose Data Acquisition and Data Processing System for Scientific Instruments based on an Apple II Micro-computer".

### TAXATION REFORM

The 1982 University of NSW Symposium on taxation reform will be held on Thursday, 4 November, 8.30 a.m. - 4.30 p.m.

Ten papers and discussion on the long-term view of taxation - its philosophy, economics, law, ethics, practice and politics will be offered by:

Mr John Howard, Treasurer; Mr Bill Hayden, Opposition Leader; Sir Keith Campbell, Financial Inquiry Chairman; Mr William O'Reilly, Commissioner of Taxation; Mr Eric Ristrom, Taxpayers' Association; Mr Richard Denton, Chartered Accountant; Prof John Nevile, Economist, UNSW; Prof Russell Mathews, Economist, ANU; Prof Don Harding, Law UNSW; Ms Bettina Cass, Social Welfare Research, UNSW.

The public are welcome.

Prior registration through application form essential by Thursday 28 October. No registration fee. Lunch \$8. Printed papers, if ordered by 11 November, \$3. Obtain form and detailed programme from Public Affairs Unit, University of NSW, PO Box 1, Kensington, NSW 2003; phone (02) 662.3741.

# Staff Changes and Movements

## UNIVERSITY LIBRARIAN TO MOVE TO EXTERNAL STUDIES

Mr Jeff Hazell, College and University Librarian since 1st March 1972, has accepted the post of Coordinator of External Studies within the Institute of Advanced Education sector of the University, and will commence in his new role on 1st January 1983. The dual change of vocation and location provides an opportunity to record aspects of his career as a Librarian, and his service to the University.

Jeff joined the State Library of New South Wales (then the Public Library of New South Wales) in February 1944 as a junior clerk and completed university and librarianship qualifications whilst working. He served the State Library in various capacities for almost 25 years (until June 1968) within its General Reference Department, in administration, and in Government departmental libraries including establishment of the State Office Block Library which serves several Departments. After a short period as Reader Services Librarian at the University of New South Wales Library he became its Deputy University Librarian in 1969, and moved to Wollongong as College Librarian (subsequently University Librarian) in March 1972.

There have been significant changes in the growth and development of the University and its Library in his ten years at the helm. Library staff totalled 14 in March 1972 and dependence on "big brother" at Kensington was very evident in the early College years. Appointees from "Kenso" were sometimes viewed with mild suspicion but a sound rapport was soon established. Library growth in staff, collections and accommodation has been spectacular. Staff establishment in 1982 is 57, and collections are approaching 250,000 volumes. Original Library accommodation in the Administration Block was vastly improved when Stage 1 of the Library opened in January 1972. This was followed by Stage 2 in January 1976 providing a facility capable of holding almost 300,000 volumes in open access. The original open plan concept has been disturbed to some extent by the physical accommodation of the Institute of Education Library early in 1982, requiring short term arrangements. When integration is complete service can be restored to former levels.

In dollar terms early book budgets were relatively low (\$85,000 in 1972); in 1982 the allocation for monographs, serials and binding is \$750,596. The current level of support was stimulated considerably by the Tertiary Education Commission's recognition of the need for special annual financial grants of \$170,000 in 1976 - 1978 to purchase source material and to meet other basic deficiencies. This additional level of financial support has been maintained since, although future prospects are less rosy. In the five years from 1977-81 collections grew from 112,320 to 223,038 volumes, including microformats, at an average of 22,143 volumes per year. Library resources to support teaching and research needs of the University, including the Institute of Advanced Education, have improved greatly although far short of absolute needs of a tertiary institution.

Automation of Library processes was begun in 1975, the core of which is the Cataloguing Subsystem which procures a COM (Computer Output Microfiche) Cat-

alogue. Improvement in systems and programs, in conjunction with the Administration Data Processing Unit, has led to the introduction of an automated Circulation Sybsystem already anticipated to some extent by the Delinquent Borrowers programme introduced late in 1981. There is a Serials Subsystem producing a title listing on microfiche and especially significant is the Interrogation System of using the catalogue on-line. In all, the Library has reached a high standard in the Australian scene and has cooperated closely with Macquarie University Library in developing its joint cataloguing system known as PROCAT.

Within his personal, professional and official involvements Jeff acted as statistics coordinator from 1975-1982 for the Committee of Australian University Librarians (CAUL) in preparing Australian and New Zealand University Library statistics for annual publication in Australian Academic and Research Libraries (AARL). He held Office as President of the South Coast Regional Group of the Library Association of Australia for a number of years and is a member of the Wollongong City Library Committee. Jeff gave a paper on Library Unionization at the August Conference of the Library Association of Australia, maintaining his interest in this topic over a number of years.

A most important achievement in cooperation was his establishment of the Illawarra Regional Librarians Co-operation Committee in September 1976. He is the Chairman of the Committee which was reconstituted in July as the Illawarra Regional Committee of the Australian Advisory Council on Bibliographical Services (AACOBS) a body which is located within the National Library and has State Committees. The local Committee has brought together local librarians and fostered co-operation in development and sharing the resources, in education for librarianship, and in maintaining professional awareness.

We are glad to know that Jeff Hazell will continue to serve the University. He has been a member of the Academic Senate since 1977 and his contribution to Library development and the image of the University has been valuable and appreciated. He has our thanks and we wish him well in his new venture.

## Job Vacancies

Details of the following positions are contained on the Campus News Notice Board situated at the southern end of the Hut.

- |           |  |
|-----------|--|
| ANU       | Research posts in Vision, Astrophysics, Environmental Studies, Chair in Zoology. |
| Macquarie | Lecturer in Earth Sciences.  |

# General Notices

## ROBOT IN WOLLONGONG

On Friday, 22 October at 12.30 p.m., Mr Eric Fender, General Manager, Robotics Engineering Pty Ltd, (suppliers of equipment from the world's largest robot manufacturers (Unimation), will present a Public Lecture 'Robots in Australia', and film of robots in action at Pentagon 3, Lecture Theatre, University of Wollongong.

From 2.30 p.m. the same day, there will be a demonstration of a Unimate PUMA robot in the laboratories of the Department of Electrical and Computer Engineering, University of Wollongong.

From the preceding Monday to Thursday this robot will have been on display at Crown Central Shopping Centre.

Contact: Chris Cook, Department of Electrical and Computer Engineering for further details. Telephone the University of Wollongong 297311, ext. 997.

## "FREE WHEELING"

From the Leisure Coast Tourist Association

"On Sunday, 21st November 1982, a one day bicycle tour from Sydney's Belmore Park to Wollongong's Belmore Basin, the 'Freewheeling Sydney to the 'Gong Bicycle Tour. A tour that will become a popular and well known annual event much in the style of the London to Brighton ride held in Britain each year."

"Our desire is to promote the bicycle as a useful vehicle for recreation, travel and sport. The tour is not a race. The aim is to attract a broad range of people from experienced touring and racing cyclists to relative novices - the distance and cycling conditions encountered on our route should suit all comers."

"With this goal we have selected a route which we believe offers some of the most exciting and pleasurable cycling in NSW. From Belmore Park (near Sydney Central Station) we will follow the Princes Highway as far as the Royal National Park, then Lady Carrington Dr. and Lady Wakehurst Dr. to Stanwell Park via Bald Hill lookout. The National Parks and Wildlife Service have offered to close Lady Carrington Dr. for the duration of our presence in the National Park. From Stanwell Park we will follow the magnificent coastal scenery and beaches along Lawrence Hargrave Dr. to rejoin briefly the Princes Highway just north of Bulli, then to use local roads to reach Belmore Basin. The last section of this ride will follow as far as possible the route of Wollongong City Council's proposed Wollongong to Bellambi Recreation Cycleway."

Enquiries to Maggie Jones on 280300.

## CHILDRENS CHRISTMAS TREE 1982

There will be a meeting of the Childrens' Christmas Tree Committee next Wednesday, 20 October, at 12 p.m. in the Common Room in the Metallurgy Building. We would be pleased to see as many of you as possible as we need helpers on the Committee and on the day as well.

## EDUCATION AND THE COMMUNITY

The School of Education held its final Staff Seminar for 1982 on Wednesday, 13th October, on the subject of The School's Role in the Community. Dr Keith Tronc of the Brisbane C.A.E. presented a paper on this subject. He outlined a very wide range of activities in which his campus of B.C.A.E. has been engaged, including clinics that have been provided for school-children, leadership training for service clubs, assistance to national industrial bodies, an on campus educational museum and a very interesting link with the Guangzhou Institute of Foreign Languages in Canton. Subsequent discussion included reference to relationships and possible overlap with the T.A.F.E. sector, and to the current interest in Pre-School in determining new priorities with regard to teaching and consultancy work.

## HEY MOM! IS THAT WHERE CUPS COME FROM?

This is typical of some of the 'cute' public comments made about the 'Centre for the Arts' 3D display 'presently touring shopping Centres in the Illawarra and Campbelltown, aimed at establishing a visible profile for the newly established Centre for the Arts operating from the Institute's School of Arts and Community Studies.

The child's remark above came from one of the many pop-eyed children watching a student "throw" cups and other pottery on a pottery wheel in the display at Corrimal Shopping Centre. A team of lecturers, Artist-in-Residence, Morley Grainger (of weaving fame) and a group of Associate Diploma Students are presenting activities to advertise the Centre for the Arts in particular, and the University in general. The present schedule includes Corrimal Court, Macarthur Shopping Centre (Campbelltown), Westfield Shopping Centre, Warrawong, Crown Central and Nowra.

If initial experiences are any indication this is a good way of reaching the public. The whole team answered a constant flow of questions, brochures and handouts were in demand, and shop keepers seemed positive and supportive because the display lent a 'show-time' atmosphere.

A full sized shuttle loom in operation, spinning, painting, pottery wheel displays, theatre costume displays and a photographic display stopped the main flow of shoppers and made our offerings a reality.

If anyone has any suggestions for additions to the "act" or material offerings please contact Rodney Hollands, Coordinator, Centre for the Arts, Institute Sector.

## CALLISTEMONS IN FLOWER

Take time out to have a look at the garden beds between the Pentagon and Social Science, where there are some spectacular purple-flowering bottlebrushes at the moment. We believe they are Callistemon 'Purple Mist'; in any case, they have been showy for a couple of weeks now, being their first year of full display.

Another Callistemon in the same area has very bright red brushes, and has been in flower constantly for the last two months. This species could be Callistemon 'Harkness', a natural hybrid which appeared in a garden at Gawler, S.A. about 30 years ago.

There are also many different species of Grevillea still in flower, so go and have a wonder around and appreciate the little pockets of colour appearing here and there on campus. There will be regular features of this kind appearing in future issues of Campus News.

## AUSTRALIA DAY AWARDS

Nominations for the following three awards are being called for by the Wollongong Australia Day Committee: City of Wollongong Citizenship Award, City of Wollongong Young Citizen Award, City of Wollongong Sports Award.

Forms for nomination are available from the Friends of the University office in the Hut.

## POET RETURNS

Dr Robyn Rowland, University of Wollongong PhD graduate in Psychology and a founding editor of the local publication 'Poems in Public Places', was recently awarded second prize in the National Poetry Section of the Canning Literary Awards.

Robyn will participate in Women Writers Week activities in Sydney, then return to Wollongong to make her contribution to the Reading of Contemporary Prose and Poetry to be presented by women writers at the Wollongong City Gallery, 16 October, 7.30 p.m.

The Wollongong visit coincides with the launching of her first book of poetry entitled 'Filigree in Blood', which will be released as part of the new Longman Cheshire Modern Poets series. Many of the poems were written in Wollongong whilst Robyn was a student at the University.

On a professional note, Robyn's recent research in the field of 'Childfree Couples' has received wide publicity. She is presently based in Geelong, Victoria.

## PERSONNEL MANAGEMENT

The Institute of Personnel Management Australia, Western Australian Division, are the hosts for Personnel Focus '83 The First Asian-Indian-Pacific Conference of Personnel Management to be held in Perth in October 1983.

The Conference could be the largest convention in the field of human resource development to be held in Australia. It is expected that over 600 participants will be involved with in excess of 200 representatives from the Indian Ocean, South East Asian and Pacific regions.

Inquiries are invited from suitably qualified or experienced keynote speakers for the presentation of papers, and seminar leaders in the following areas:-

1. The Development of Leadership (Developing Leadership).
2. Leadership in Personnel Management.
3. Concepts in Industrial Relations Management.
4. Forecasting the Management of Industrial Relations.
5. The Work Force of the Future-Managerial and Economic Implications.
6. The Effect of the Economy of Human Resource Management.

Following the presentation of the major papers in each of the areas, the Conference participants will examine in seminar, the national and international implications of each subject area.

Seminar leaders are required to chair either the national or international segment of each respective seminar.

The conference commences Monday 3 October and concludes on Thursday 6 October 1983.

It is expected that at least one regional Prime Minister, and a number of other highly regarded practitioners in the field of human resource development will participate in Personnel Focus '83.

Enquiries can be made to the Programme Director Patrick Van Rooyen on 325.3344 or C/- National Theatre, 3 Pier Street, Perth, Western Australia, 6000.

## IMPROVED ACCESS FOR DISABLED AT INTERNATIONAL HOUSE

The Secretary Manager of International House, Elisabeth Hilton, announced that International House is now in a position to offer accommodation to a student confined to a wheelchair.

She stated that access is still limited to some of the ground floor areas, but that a student will now be able to move independently around the service areas, such as the dining room, games room, office and laundry.

International House is offering a study-bedroom with an ensuite bathroom for one handicapped person. Two or more handicapped persons could have their own study-bedrooms and share a bathroom.

Elisabeth Hilton pointed out that there is no shortage of willing hands at International House to move a chair bound student up a flight of stairs.

Barbara Quintrell, of the Handicapped Persons' Trust, acted as a consultant on the changes necessary to accommodate a handicapped person. David Angus, who is confined to a wheelchair, visited the House on several occasions and gave practical comments and suggestions on the alterations.

## Distinguished Visitors

### VISITING CATHOLIC SCHOLAR FRIDAY, 29 OCTOBER, 1982.

The University Catholic Society and a group of people within the Friends have organised a visit by Mr Karl Schmude of the University of New England.

Mr Schmude's itinerary is set out below:

- |                            |  |
|----------------------------|--|
| 10.30 a.m.                 | Visits to interested Departments in the University   |
| 12.30 p.m.                 | Address to Staff, Students and Friends - "Religion - A Proper Study for a University"                                  |
|                            | Venue: Pentagon Lecture Theatre 4, The University of Wollongong  |
| 7.30 p.m. for<br>8.00 p.m. | Address to the Catholic Business Men's Dinner Club, the University Catholic Society, and the Friends of the University |
|                            | "Holocausts in the 20th Century - A Christian Response"  |
|                            | Venue: Renown Court, 43 Kenny Street, Wollongong   |
|                            | Cost: \$12.50 per person.  |

Anyone interested in being included in the above arrangements please contact Giles Pickford on 282428.

# Concerts, Exhibitions and Entertainment

## TRAVELLING FILM FESTIVAL

The Travelling Film Festival presents the best of the Sydney film festival in Town Cinema 3 on 22-24 October. The following films will be shown.

Friday: Double Bill (Part One), 7.30 p.m. - Blood Wedding.

Friday: Double Bill (Part Two), 9.20 p.m. - Bye Bye Brazil.

Saturday: First Session, 5.00 p.m. - Muddy River.

Saturday: Second Session, 8.15 p.m. - Ticket to Heaven.

Sunday: First Session, 5.00 p.m. Veronika Voss.

Sunday: Second Session, 7.50 p.m. - Wasn't That A Time.

## KIDS' UNI. EXHIBITION

An exhibition of work by the Children of the University Childcare Centre in the Northern Lounge.

Official Opening: Tuesday 19 October, 5.30 p.m. Wine and Cheese - All Welcome.

Exhibition Open: Wednesday 20 and Thursday 21 October, 9.00 a.m. - 6.30 p.m.; Friday 22, 9.00 a.m. - 10.30 a.m.

Admission Free - All Welcome.

## SOUTH COAST LANDSCAPES

An exhibition of recent drawings and paintings by Robert Liddicoat and Anthony Hull will be held from 25 October to 5 November in the Northern Lounge of the University Union from 10 a.m. to 8 p.m. on Monday to Friday. Biographical notes on the two artists follow:

ROBERT LIDDICOAT began his art training aged fifteen at the National Art School East Sydney. Successfully completing a Diploma in Painting (A.S.T.C.) after five years study (1951-1956). Matriculating in 1957 at Ultimo College, enabled him to begin studies at Sydney University in Philosophy, Ancient History and Archaeology, for a B.S. Degree.

In 1960 he joined the teaching staff of the National Art School as a part-time teacher in drawing and painting. In 1965 an opportunity came to combine the experience of full-time painting with that of travelling within Australia. Between 1965 and 1969, together with his wife and daughter, he worked and exhibited in five States of Australia. He accepted a position as Art Master in a Secondary School, Barker College, Hornsby between 1970 and 1975. During this time he completed the last subject of his Sydney University B.A. Degree, and then completed a Diploma of Education at New England University (1972-73). In 1974 he spent twelve months with his family in Western Europe and the U.K. He was appointed in 1976 as teacher of Art to the School of Art and Design in T.A.F.E. and settled in the Illawarra Region. He has a close affinity with the bush with its organic imagery and it is this which permeates his work with a Romantic lyricism.

Between the years 1976 and 1982 he has held exhibitions in Canberra, Wagga, Newcastle and Wollongong.

Now represented in many private and public collections throughout Australia such as: Bunbury Art Gallery, Western Australia; Portrait Drawing Prize 1966; A.I.D.C. (Australian Investment Development Corporation) Collection B.H.P. House Melbourne; Wollongong University; Shoalhaven Art Award Nowra.

ANTHONY HULL born in London, England, 1949. My commitment to Art was slow to develop even though I had an interest in drawing and painting from an early age, winning a major school art prize. I left school at sixteen to work as a Trainee Auctioneer in an Antique Action Rooms in London. There followed eight years of business and administrative type jobs before I finally made the decision and successfully gained entry to Camberwell School of Arts and Crafts, London. On starting College I intended to spend four years full-time study solely on painting. However, within a year I had become vitally interested in Ceramics, so I decided to study both. On completion of my course at Canberwell, I was accepted for one year's post-graduate study at Goldsmiths College, University of London. Since 1977 I have been involved with tertiary education, holding positions in various Colleges and Institutions as a visiting or part-time lecturer in Painting and Ceramics. At present I am employed full-time as a teacher of Ceramics at Dapto College of T.A.F.E. My commitment to Arts is total and one of my two "loves", painting consumes much of my time. My painting and ceramics have been purchased for Public and Private Collections in both England and Australia, and I have been exhibiting regularly since 1978.

This exhibition is one of three that I have participated in during 1982. My paintings at this exhibition are as Graham Green described his lighter literary works "Entertainments". They are spontaneous statements, worked on location about the beautiful landscapes of the Illawarra, in which I find myself. Besides friends, my main influences in painting have been Mondrian, Constable, De Kooning and Matisse, and as the latter said these paintings are meant to be as comfortable as armchairs.

## Sport

### PLUGCASTER FOR INSTITUTE

The Institute's Physical Education Lecturer, Harry Fuller, took out the champion of champions crown in the plugcasting titles with a combined distance of 280m from three casts.

Fuller's events and distances were the double-handed 18 gram revolving spool (102.6m), the singles handed 18 gram revolving spool (85.03m) and the double-handed 18 gram fixed spool (92.57m).

Fuller also competed in the weight casting events, finishing third in the accuracy and third in the artificial bait distances.

His longest cast in the 4oz division was 166m.

Harry Fuller has also gained awards in archery.

## Advertisements

### FOR SALE

Two top Jamberoo properties for private sale:

1. Immaculate brick home on 20 acres, magnificent views over village and up and down coastline. \$165,000.
2. 55 picturesque acres, older but attractive home, permanent creek, creek flats, sheds etc. \$185,000.

Both within 1 km. of town and only 30 mins. to University. Phone owner on 360111.

### TO LET

Keiraville: Fully furnished house with panoramic views, 2 km. from the University, 5 bedrooms one with ensuite, formal dining room, rumpus room, garage, from early December to mid-June. Rent \$120 per week. Phone ext. 871 or 289871.

### WANTED

Old cameras and accessories, stereo viewers and cards, old images by a collector of photographica. Please contact Peter Pavlik, Dept. of Chemistry or private on 284925.

### FOR SALE: \$165,000

Large Home, 42 squares, 2 storey. Brick veneer top floor, double brick bottom floor. 6 bedrooms, 3 bathrooms, 2 rumpus rooms. Large rooms. Double garage and double carport on another entrance. Keiraville proper, away from Mt Ousley Road and Motorway. Extensive gardens and trees. City, sea and mountain views which cannot be built out. Private aspect. 7 years old. Ring Tony Bell on 20-2270 or 29-9859 a.h. Brochure available.

### TYPING SERVICE

(Word Processing) "Wordshop"

Are you writing a thesis or doing any kind of post-graduate work?

Put technology to work for you. Your typing will be done faster than ever before and only your alterations will have to be retyped. You will save much time and money by using the capabilities of word processing.

All work is returned promptly and accurately and of course is kept strictly confidential.

For further details please call Mary O'Toole (02)4198000. Our charges are most competitive.

### TO LET

North Wollongong: 3 bedroom modern unit with lock-up garage. Lovely ocean and mountain views, easy walking distance from beach and town, only 5 minute drive from Uni.

Available from mid-November. \$89/week.

Phone Lynn Maxwell ext. 981 or private on 28.6173.

## Scholarships and Prizes

Details on all the scholarships and prizes below are contained on the Campus News Notice Board situated at the southern end of the Hut.
