

FRIENDS AGM WILL HIGHLIGHT PROGRESS

The Friends of the University of Wollongong Ltd. will hold its Annual General Meeting at 5.30 p.m. on Tuesday, 30 April, 1985, in the Union Common Room. The Friends Annual Report contains a graph which highlights its achievements since its creation in 1981. The graph is shown opposite.

The AGM will be followed by the Graduation Eve Champagne Reception for the new graduands. Over 150 people will be attending the reception which promises to be a fine tribute to our new graduates.

There will be an opportunity to farewell Friends Secretary, Doreen Turnbull, at the Reception.

The Friends organization is unique in Australian universities and has been the subject of many enquiries from the newer universities in Australia, which are investigating the Friends model as a potential development on their own campuses.

UNIADVICE — A GOOD EFFORT

The Vice-Chancellor has praised the Uniadvice Research publication which was launched last Friday. He has stated that it may turn out to be a model for research publications in general. "While much thought and effort has gone into consideration of publication of a research publication covering all universities, nothing of quality has so far emerged. I am sure ours is good enough to give a lead", said Professor McKinnon.

PARKING ON GRADUATION DAYS

On Graduation Days 1st, 2nd and 3rd May, the Union Car Park and Administration Car Park will be available only to graduands and their guests. Entrance 2 will admit service vehicles only.

IMMUNOLOGIST JOINS STAFF

Dr. Ted Steele has recently joined the staff of the Department of Biology. He received his Ph.D in Immunology in 1976 (University of Adelaide) for research on immunological mechanisms against diseases of microsal surfaces such as cholera. He then began a post-doctoral fellowship at the John Curtin School of Medical Research, ANU studying mechanisms of antibody diversity and anti-immune reactions. In 1977 this post-doctoral work continued at the Ontario Cancer Institute in Toronto, Canada (through to 1980). During these years his interests in Immunology became intimately involved with general evolutionary mechanisms as well as with the growth of knowledge and the philosophy of science. These developments led to his current work on the

(Continued Page 2)

theory of evolution for which he is probably best known. In 1978 he became very interested in "somatic gene selective" processes to help predict and explain Lamarckian-like modes of acquired inheritance in the immune system of higher animals. These theoretical considerations rely on traditional Darwinian "natural selection" principles occurring among body cells at both the cellular and molecular levels. They showed that a likely evolutionary outcome for an adaptive system such as the immune response would be the inheritance of acquired immunological characteristics. At this time, together with his Canadian colleague Dr. R.M. Gorczynski, his work led to experimental studies using genetically defined inbred male mice. They demonstrated that acquired somatic modifications of the immune system could be passed onto offspring at relatively high frequency. Such "acquired inheritance" effects via the male line could be shown to be transmitted to at least an additional generation.

The work outlined was carried out in Canada and has continued, over the years, to arouse considerable interest, criticism and controversy. In 1980-81 he spent a post-doctoral year in London (Clinical Research Centre, Harrow) where the controversy surrounding his studies reached a peak. In 1981 he returned to Australia to continue post-doctoral studies at the John Curtin School of Medical Research where he extended the acquired inheritance phenomenon to another immunological model system. Over the past few years certain pieces of independent experimental work have been published by other groups which confirm the acquired inheritance experimental phenomenon. Here at the University of Wollongong Dr. Steele will be embarking on a long term experimental programme designed to simplify the phenomenology of acquired inheritance in order to allow genetic and immunological analysis of the paternal transmission mechanism.

Dr. Ted Steele, Immunologist

IRON AND STEEL UNIVERSITY EXCHANGE

A prestigious delegation from the University of Iron and Steel Technology in Beijing visited the University of Wollongong during April.

The group was here to countersign an exchange agreement made between the Chinese and high ranking members of the University and AIS on a visit last year. It covers mutually beneficial exchange of academic and commercial ideas, as well as that of staff and students from Wollongong and China.

The delegation comprises:

Professor Wang Run, President, Beijing University of Iron and Steel Technology
 Professor Xiao Jimei, Beijing University of Iron and Steel Technology
 Professor Gong Guang Xu, Beijing University of Iron and Steel Technology
 Mr. Xu Wen Hai, Ministry Metallurgical Industry

During their stay, they visited the BHP research laboratories and some other universities, as well as inspecting our University and the Steelworks and local tourist attractions.

UNESCO WILL 'CONTINUE' TO BE ACTIVE IN AUSTRALIA

Unesco would continue to be active in Australia in the coming year, the chairman of the Australian National

Commission for Unesco, Professor Ken McKinnon, said in Canberra.

Professor McKinnon said that the Australian National Commission would continue to sponsor projects consistent with Unesco's aims, such as overcoming illiteracy, protecting the environment, and improving communications between peoples using new technologies.

He said that while there was a swirl of political debate around Unesco now following the withdrawal of the United States from the Organisation at the end of 1984, the often unnoticed good work that Unesco did, continued apace.

Professor McKinnon was speaking at the end of the first full meeting of the Australian National Commission for Unesco since the United States withdrawal. The meeting was held at University House, Canberra, 1-3 April.

The 39 member Commission, composed of academics, community leaders and political figures, advises the Federal Government on Australian policy towards Unesco. It acts also as a link between Australians interested in the fields of education, science, culture and communication, and the Organisation.

The Commission was planning to stage in the coming year, among other things, seminars on the use of computers in schools, and how the concept of the 'rights of peoples' might be instituted into the legal process, and a training course for school librarians from Pacific countries.

Professor McKinnon said that much of what Unesco did might seem to be intangible to many people. However, the absence of the machinery that Unesco provided to bring about international intellectual co-operation to solve problems would lead to overcrowded cities, large illiterate populations, poisoning of the waters and the air, and deterioration of monuments of human history.

The Commission hoped that it would be better able to inform the Australian public about Unesco's work in coming months.

LITERACY

Dr. Brian Cambourne, Head of Centre for Studies in Literacy, has been invited by two National Reading Associations to deliver keynote addresses at their forthcoming Annual National Conferences. The Australian Reading Association has requested him to open their July conference with a keynote address that reflects the current status of literacy research and practice in Australia. The New Zealand Reading Association has invited him to deliver a keynote address at their National Conference in August.

Staff and teachers associated with the Centre have had a number of papers accepted for presentation at the Australian conference. Lecturers who have had papers accepted for the Australian Conference are Jenny Hammond, Peter Geekie, Bill Winsor, Julia Fyffe. Three local teachers who are associated with the Centre's 'Special Interest Group' have also had papers accepted for presentation at the National Conference. They are Mrs. Hazel Brown of Balarang Primary School and Ms. Yvonne Mathie and Mrs. Beryl Wood of Warrawong Primary School.

Mrs. Brown will be reporting on the results of a year long action research project she initiated with her grade 5 class in which she is monitoring the reading, writing, spelling development of her class under what she calls 'natural' learning conditions. Mrs. Wood and Ms. Mathie will be reporting on a two year project in which they have been trying to develop a workable method for evaluating children's writing development.

ASEAN PUBLIC SERVANTS GATHER IN WOLLONGONG

Government officials from five of the six ASEAN nations have gathered in Wollongong for the beginning of an eight week training program directed by two Wollongong University academics.

The program was established under an agreement between Australia and the ASEAN nations. Its purpose is to train ASEAN officials in the formulation of strategies for the use of science and technology in development.

Professor Ron Johnston and Professor Stephen Hill, Directors of the University of Wollongong's Centre for Technology and Social Change were selected by the Australian Government to direct the program.

After one week of applying policy analysis to each national context, the ASEAN officials will spend seven weeks under the Director's supervision studying particular Government and industry approaches to technological development in other parts of Australia.

The eight week program is to become a regular feature of the Centre's training activities over the next three years.

The program follows on from a high level consultative meeting held in Canberra in March between top ASEAN Science and Technology officials and the Directors to discuss science and technology policy.

VISIT BY ROSELLA COMO

Italian actress, singer and screen personality, Miss Rosella Como, visited the University on March 27 as a guest of the Circolo Italiano and the Department of European Languages.

Miss Como performed before an enthusiastic audience of students, staff, and members of the local Italian community. Her repertoire included songs and sketches, chiefly from the folk tradition of her native Rome.

Miss Como is currently touring Australia. Her TV and film credits include leading roles in Fellini's "8½", as well as appearances on "the Johnny Carson Show". She will be performing in Wollongong again on May 31 for the annual Italian ball.

News from Council and Senate

At its meeting on 10th April, 1985, Senate:

- * elected Dr. J. Shuster to the vacancy on the Senate Standing Committee;
- * elected Professor Wilson as its nominee on the Selection Committee for the Head of the Centre for Multicultural Studies;
- * considered the preliminary statement on Ethnic Affairs Policy;
- * received the Preliminary Review of the Department of Mathematics;
- * received the Report of the Department of Biology;
- * recommended to Council that the procedures for the review of Departments be revised to provide for a follow-up meeting of the Review Committee 12-18 months after a review to consider progress that has taken place since the review;
- * referred back to the Standing Committee for further consideration the question of the renaming of Pass Masters degree;
- * reconsidered the 1987 Entrance Requirements and recommended to Council that an English pre-requisite be placed on a number of degrees and 100-level subjects;
- * accepted a recommendation from the Joint Universities' Working Party on Schools Liaison and recommended to Council that NSW Universities and the ANU adopt a common terminology on subject degree requisites; the terms 'Pre-requisite' and 'Assumed knowledge' will replace this University's 'Mandatory Pre-requisite' and 'Recommended Pre-requisite';
- * recommended to Council the approved subjects for the Master of Creative Arts degree.

Peter Wood.

General Notices

1986 SUMMER SESSION

Submissions are invited for courses to be considered for inclusion in the 1986 Summer Session Programme.

Faculty and Departmental Chairmen and Heads of Schools have recently received a circular setting out details of the information required in submissions.

Emeritus Professor Geoff Brinson is the academic coordinator of the programme and he is available to discuss aspects of the programme. Suggestions and ideas for the session would be welcome.

Submissions should reach Peter Wood no later than 30th April, 1985.

LIBRARY DEVELOPMENTS

by Howard Petrie
University Librarian

The large increase in numbers of students in recent years has caused growing problems in all areas of the University not the least being the Library. The Library building is too small to satisfactorily meet all the needs of existing users. To remedy this, the University has been awarded a grant of \$4,000,000 to build an extension to the present building. The 3,500 sq. m. of extra space will allow existing services to expand and at the same time a number of facilities, such as an improved current serials display, will be available.

Until the time that a new building becomes available, all library users should be especially sensitive to the needs of others. The University Council recently passed a set of Library Rules which are designed to protect the rights of individual readers, but rules alone will not provide a satisfactory place to study unless all users are sympathetic to the needs of their colleagues. The building extensions will provide a greater number of places where students and staff can get together to discuss their work, but at present these facilities are limited and hence we must restrict the level of noise in a crowded building to an absolute minimum.

Many readers will have noticed the new "barcode" labels which have been attached to the book stock. These, together with the new student cards, are the first visible sign of the introduction of a new computer system, designed to provide users with a better service and to make our processing more efficient. At the present time the system is still under development and no changes have been made. New procedures will be published well in advance of their introduction and they will be designed to make life easier for the user. For instance, it will no longer be necessary to fill out a card for each item borrowed. Rather, it will simply be necessary to produce your card and to have the information from the card and the book recorded in the computer. The whole procedure should allow a faster turnover of books so that more users can get access to the stock. In 1986 the normal access to the catalogue will be from a computer terminal, initially located in the library, but soon after from terminals all round the campus, which will be linked via the campus network.

One of the major problems which will have to be faced in 1985 is the perennially high price increases in serial publications. This year will be particularly difficult because of the large devaluation of the Australian dollar as compared to the U.S. dollar and the British pound. Unless there is a marked recovery in our dollar, or

special funds are made available for the purchase of serials, it will be necessary to cancel some existing subscriptions. This comes at a time when the demand for serial publications is increasing as new departments are created, new research interests begun and new courses brought on stream. Serials in Science and Technology are becoming alarmingly costly, and whereas new technology offers some prospects for a solution in the medium term, there is no solution in the short term, apart from trying to keep up with prices, if the level of coverage is to be maintained.

Many users will remember that the photocopy machines in the coin-operated self service area were a constant cause of complaint last year. New heavy-duty machines were installed which have proved to be much more reliable in operation. We are also looking at the possibility of introducing a plastic card system to replace the metal tokens. Users of the service would be issued with a card and would be able to encode a certain value of photocopying on the card by putting the equivalent amount of money into a machine. This should make photocopying simpler for both users and library staff.

A recent fire at the National Library in Canberra did considerable damage to the building but fortunately most of the nation's treasured collections were saved. However, the fire did cause considerable inconvenience to libraries, including ourselves, which use the National Library's computer in Canberra for cataloguing. By an extraordinary effort, a new machine was installed within five weeks of the fire and the service is again operational. Nevertheless the lack of this essential service has cut back our rate of cataloguing quite severely. The new Library and Administration computer in the University should provide an increased degree of independence from such external problems.

The Library is at present in the process of revising its staff structure which is again designed to increase its efficiency and improve its service to users. In the first of these, Felicity McGregor, former Acquisitions Librarian, has been appointed as Head of Technical and Circulation Services, a move designed to improve the co-ordination of work between Library departments. It is intended, as funds become available, to designate one librarian to be responsible for the interests of users from each faculty, in order to be more sensitive and receptive to users needs.

Finally, although library resources are not infinite, we are very conscious of the fact that the Library is a service organisation for the whole of the campus. If anyone has any problems with the library service, please talk to the person on duty at the enquiry desk. Please place any comments, suggestions or criticisms in the suggestion box, as this feedback mechanism is taken seriously. If you still feel you need to see a senior librarian or myself please do not hesitate to ask. And just a reminder that each department and school has a Library Liaison Officer who communicates with the Acquisitions Department regarding the purchase of new material, and that each faculty/school has a representative on Library Committee.

NEW UNI TAXI RANK

A taxi rank has been installed on the intersection of Northfields Ave. and Union Road. **It will be removed if it is not used.**

A taxi ride is 60 cents cheaper if you don't ring up. So check the rank first before ringing.

RESEARCH FUNDING SCHEME FOR ADAB SPONSORED POSTGRADUATE STUDENTS

Academic Units are reminded that applications for funds under the above Scheme close on 31st May. Completed applications should be forwarded to this office by 24th May.

The Scheme was introduced to assist Australian Universities to offer improved and more appropriate training to overseas research students sponsored by the Bureau. The Scheme is not intended to provide funds for services and equipment which are normally provided by Australian Universities to cover postgraduate training. It is intended to cover only additional costs in respect of a developmentally-orientated program of research undertaken by sponsored students and having direct relevance to the needs of that sponsored student's home country.

The University received \$8,655 under this Scheme in 1984.

Further details and applications are available from Gary Ryan, ext. 3924.

WOMEN IN SCIENCE AND TECHNOLOGY

Women's access and achievement patterns in the fields of science and technology will be the subject of a study to be undertaken by Dr. Elizabeth Hegarty, School of Microbiology, University of NSW, Ms. Frances Lovejoy, School of Sociology, University of NSW and Professor Eileen Byrne, Department of Education, University of Queensland.

The study, which is expected to cover four years, will look at women's access and achievements in these fields at school, in higher education and in employment. It will examine the factors which are effective in attracting women to study science and technology and seek to discover what discourages women from enrolling and continuing in these fields or from going on to postgraduate studies.

The Minister for Education, Senator Susan Ryan, who approved the project said, 'This project relates closely to one of the central objectives of the Government's policies for women - the reduction of educational and occupational segregation. It is concerned with increasing opportunities for education and careers in science and technology for women.'

The Commonwealth Tertiary Education Commission has allocated \$25,000 for the project in 1985 and \$20,000 has been allocated under the Participation and Equity Program.

ON-CAMPUS PARKING

Readers of "Campus News" will no doubt be aware that the parking of motor vehicles has become a significant problem.

The rapid growth in student and staff numbers in recent years, together with insufficient funding to permit the development of additional parking areas has brought about the present situation. The Government Funding Authority does provide funds specifically for the construction of parking areas.

The annual Minor Works Programme and the University's own resources may be used for this purpose but because of the heavy demands for additional teaching space and other urgent services this could not be done in recent times.

Whilst it may be possible in the near future to allocate some funds from the University's General Development Fund to assist in relieving this problem, this source alone will not be sufficient in providing an immediate solution. A number of alternative arrangements are being considered, for example, the charging for all on-campus parking; charging for use of some specifically allocated parking areas; the application of varying parking charges based on reserved parking or time use; the sale of parking stickers, etc.

The various alternatives are currently being incorporated into an overall draft parking policy which will ensure that the everyday business of the University, its staff and students is unimpeded. Details will be available for discussion before final decisions are taken.

In the meantime, the co-operation of all is sought in the use and parking of motor vehicles on Campus to ensure that the safety and convenience of all members of the University community is preserved.

ANSETT INTERNATIONAL TRAVEL - STAFF TRAVEL CLUB

As travel consultants to the University, Ansett International Travel would like to offer all staff members and their families the following travel benefits on personal holiday bookings:

- * 5% travel rebate on the most competitive international air fares, international package holidays and cruises.
 - * These travel rebates extend to staff members and their immediate family as well.
 - * As an international travel agent, we respect the best tour companies and all major international airlines, and can advise you on visas, travel insurance, travellers cheques and the best value for money travel arrangements available.
 - * All you have to do is contact: Janice Ratter, Ansett Travel Centre, 151 Crown Street, Wollongong, 2500. (Telephone: 296655)
- ... and make your travel enquiry. When your booking is finalised you pay in full and receive your 5% rebate approximately six weeks after full payment.
- * If you belong to a social or sporting club and want a quotation for an overseas group tour (i.e. more than ten people travelling together) give Grant or Ray a call at our group department in Sydney on telephone: (02) 2681717.

SALARY ADJUSTMENTS

Academic Staff:

Academic staff are advised that the Academic Salaries Tribunal has notified new academic salaries effective from 19th April 1985 which combine the 2.6% National Wage adjustment and the 3/5ths portion of the May 1984 academic increase. Payment of the new rates will be in the pay of May 30th 1985 backdated to the effective date.

Non-Academic Staff:

Non-academic staff are advised that the recent 2.6% National Wage increase will be paid in the pay of May 30 1985 backdated to 19th April 1985.

Casual Staff and Part-time Teaching Staff:

New rates are currently in the process of being deter-

mined and will apply as soon as practicable. Back payments covering the period from 19th April 1985 to the actual date of payment of the new rates will be processed in June 1985.

STAFF DEVELOPMENT OPPORTUNITY

An opportunity exists for secondment of a University staff member to the Commonwealth Tertiary Education Commission (C.T.E.C.) in Canberra for a period of 3 to 6 months. Details have been posted on the Internal Vacancies Noticeboards throughout the campus. Interested members of staff should contact Helen Kamenos, Personnel Officer, (ext. 3929) as soon as possible.

1985 ENROLMENT

Students who have not received their Session 1 1985 Confirmation of Enrolment Notice should contact Ms. Judy Alexander immediately in Student Administration to confirm their 1985 enrolment.

B.C. Moldrich,
University Secretary.

Seminars

Further details about the seminars are shown on the 'Campus News' noticeboard.

MATHEMATICS SEMINARS

Thursdays, 1.30 p.m., Room 204 Austin Keane Building

May 2

Dr. Chris Coleman,
Department of Mathematics, University of Wollongong

May 23

Dr. Charles Ellen,
John Lysaghts Research Group, Port Kembla

May 30

Professor Nan Phan-Thien,
Department of Mechanical Engineering, Sydney Uni.

DEPARTMENT OF BIOLOGY

Room G25, Building 1 (Metallurgy Building)

Monday — 4-5.30 p.m. — 29th April, 1985

Dr. K.Y. Cho, Department of Microbiology, University of Sydney.
"The Physiology of Mushroom Cultivation".

Monday — 4-5.30 p.m. — 6th May, 1985

Dr. E.J. Steele, Department of Biology, University of Wollongong.
'Acquired Inheritance'.

Friday — 4-5.30 p.m. — 3rd May, 1985

Dr. E.J. Steele, Department of Biology, University of Wollongong.
"Somatic Selection and Strategy of Antibody Genes".

DEPARTMENT OF CHEMISTRY SEMINARS

All seminars are held in Building 18, Room 206.

Friday, May 3, 12.30 p.m.

Dr. Michael Guilhaus, Department of Chemistry, University of Wollongong
"Explorations of the Chemistry of gas phase ions with a versatile mass spectrometer of reversed geometry".

Convenor: Dr. P.G. Burton

DEPARTMENT OF ACCOUNTANCY AND LEGAL STUDIES

The following is a list of seminars to be held in room 19.2035 at 11.00 a.m. on the dates shown.

May 10

Ferdinand Gul, "Public Perception of Auditor Independence"

May 24

John Ryan, "The Monetary Model".

June 7

Hai Yap Teoh - Topic to be advised.

INDUSTRIAL RELATIONS

Time: Wednesday - 12.30 p.m.

Location: 19.206

May 1:

L. Dickens, Department of Industrial Relations, University of Warwick
"Will the British trade union movement survive the 1980's?"

May 29:

M. Terry, Industrial Relations Unit, University of Warwick
"Recent developments in workplace industrial relations in Britain"

June 8:

R. Castle, Department of Economics, University of Wollongong
"Aboriginal Employment and Training Programmes: a critique"

JOINT SEMINAR ON PHILOSOPHY FOR CHILDREN — FACULTY OF EDUCATION & DEPARTMENT OF PHILOSOPHY

10.30 a.m. Friday 10th May, 1985 in Room 19.1016 (Social Sciences).

Speakers: Professor Matthew Lipman and Ann Margaret Sharp, Director and Associate Director of the Institute for the Advancement of Philosophy for Children (IAPC), Montclair State College, New Jersey.

Topic: Philosophy and the Teaching of Thinking Skills.

SCIENCE & SOCIETY

14 - 17 May 1985, University of Sydney.

1985 NATIONAL SCIENCE STUDENTS' ASSOC. CONFERENCE

16 - 19 May 1985, University of Sydney.

CENTRE FOR TECHNOLOGY & SOCIAL CHANGE

Date: Tuesday 30th April 1985.

Place: 19/241 (HPS Laboratory)

Time: 1.30 p.m. - 2.30 p.m.

Topic: "Automated Work as a Field of Contradiction".

Speaker: Dr. Frigga Haug, Visiting Research Scholar at Macquarie University.

Well-known German sociologist and feminist, Dr. Frigga Haug, who is currently a Visiting Research Scholar at Macquarie University from 15 March to 10 May is to visit the Centre for Technology and Social Change.

Dr. Haug lectures in Hamburg at the Hochschule für Wirtschaft und Politik and the University of Hamburg. Previously, she was Assistant Professor at the Psychological Institute of the Free University in Berlin.

Since 1972, she has been the head of a Berlin research group on automation, with special reference to psychological and educational implications.

In recent years, Frigga Haug has published widely in the areas of work and automation, class, gender and feminist theory and critical psychology.

Further information: Contact The Centre on 270639 or ext. 3639.

DEPARTMENT OF ECONOMICS

Date: 3rd May, 1985

Time: 11.00 a.m.

Place: 19.206

Topic: "The Role of Revenue Systems in Economic Development, With Particular Reference to Asean".

Speaker: Dr. Mukul Asher, Department of Economics and Statistics, National University of Singapore and Visiting Fellow, Centre for Research on Federal Financial Relations, Australian National University.

Note: A prepared paper is now available from Mrs. Jenny Sheridan, Department of Economics.

Research Grants

AUSTRALIAN WAR MEMORIAL

Grants are available for Military History and related areas such as biography, weapons and equipment, art, and the impact of war on Australian society.

Further details - Campus News noticeboard.

AINSE REPORTS

A list of technical reports which are available for AINSE sponsored projects during 1984 is available from Trevor Smith on ext. 3079.

EDUCATION DEPARTMENT GRANTS

The Commonwealth Department of Education has grants available for two research themes:

* Artslink courses: A chance for greater participation and equity.

* Ways in which the new technologies can contribute to the goals of the Participation and Equity Programme.

Further details are available on the Campus News noticeboard.

KELLOGG FOUNDATION

The 1984 Annual Report of the Kellogg Foundation is available from the Editor.

NATIONAL BIOTECHNOLOGY PROGRAMME 1986 GRANTS

Closing date 31 May, more details on Campus News notice board.

Staff Changes and Movements

APPOINTMENTS TO 9.4.85

Ms. F. McGregor, Snr. Librarian Gd. 3, Library
Mr. B.C. Webb, Technical Officer, Automation and Eng. Applications Centre.

Mr. O.C. Kennedy, Professional Officer, Mechanical Engineering

Ms. J. Aspley, P/T Typist Office Assistant, Technical and Social Change

Mrs. M.N. Lewis-Driver, Research Assistant, Psychology

Miss N. Reali, Secretary, Computing Science

Mr. R.A. Smith, Officer Assistant, Buildings & Grounds

DEPARTURES

Mr. Q.M. Tran, Programmer, Computer Centre

Mr. S.W. Harrison, Programmer, Computer Centre

Job Vacancies

Details of the following positions are displayed on the Campus News Notice Board situated at 49 Northfields Avenue.

Murdoch Principal Tutor in Drama

Fishing Industry Executive Officer/Technical Advisor
Research C'tee

Macquarie Snr. Tutor/Tutor in Accounting
Reader in Soil Physics

Queensland Chair of Psychiatry
Reader in Electrical Engineering

Wollongong Snr. Consultant (Systems Analyst/
Programmer)
Secondment to CTEC (3 to 5 months)
in Staff Statistics

United Nations Various posts

Italian Social Welfare Organ-
ization Social Worker

Scholarships and Prizes

Details of the scholarships and prizes below are displayed on the Campus News Notice Board situated at 49 Northfields Avenue. Application forms are available from the Student Enquiries Office.

Wollongong YMCA Gus Parrish Scholarships

World Cultural Council Albert Einstein Award (\$10,000)
Jean Jacques Rousseau Award (\$10,000)

Concerts, Exhibitions and Entertainment

CITY OF WOLLONGONG SYMPHONY ORCHESTRA

May 25, 8 p.m., Wollongong Town Hall

Antony Peebles, piano; John Wayne Dixon, conductor
Scarlatti - Keyboard Sonatas
Grieg - Piano Concerto in A Minor
Sullivan - Selections from 'Mikado', 'Gondoliers',
'Iolanthe', 'Yeoman of the Guard'

Tickets: Wilsons Record Bar, 118 Crown Street.

THEATRE SOUTH PRESENTS "AND NOW WE ANCHOR IN TWOFOLD BAY"

April 20	Union Hall 8.00 p.m.
April 26, 27	Woonona-Bulli R.S.L. Club. 8.00 p.m.
April 28	Woonona-Bulli R.S.L. Club. 5.00 p.m.

Tickets available from: Theatre South offices (042) 270705, Wilson's Record Bar and the Woonona-Bulli R.S.L. Club.

SCHOOL OF CREATIVE ARTS

April Events:

Exhibitions - Long Gallery - University Entrance 4
April 22 - May 12 - Peter Shepherd 'More than a Portrait'
Drawings and Paintings

Concerts 8.30pm Music Centre University Entrance 4
April 26th - SCAW Ensemble Conductor Andrew Ford
- Shoenberg Serenade Opus 24
- Shoenberg Nachtwandler/Kurt Weill.
Happy End.

Lectures open to Public
History of Art Music Centre University Entrance 4
9.30 a.m. Mondays
April 29 - Hedonism and Culture - Lisa Scott
Murphy.

Fine Arts Theory Lectures Music Centre Uni Entrance 4
8.30 a.m. Tuesdays
April 30 - Inspiration II - Photography

THE VELVET CAR

"The Velvet Car" (musical theatre for the whole family)
Union Hall Saturday 27th April 2.00 p.m.

Adults: \$5.00 Children: \$2.00
Tickets at door from 1 p.m.

The Wollongong Arts Council has pleasure in promoting this piece of brilliant musical participation theatre by John Shortis, that will delight young and old.

TALENT QUEST

2 Double O Talent Quest Postponed to Thursday 2nd May
8.00 - 1.00 p.m.

Same performers/Same compere etc.

"JAZZ AT ITS BEST"

Don Harper and Stephen McKenna want to feature aspiring young jazz musicians in this relaxing but professional atmosphere.

Fridays between 7.00 - 10.00 p.m.

Enquire from School of Creative Arts or Union Office
ext. 3781 or 297833.

Advertisements

Advertisements in "Campus News" are repeated each week until withdrawn, OR, until new advertisements push the old ones off the end of the column, whichever occurs first.

WANTED

Furnished 1 or 2 bedroom accommodation in Wollongong or suburbs. Please ring ext. 3918 on Wednesdays, Thursdays or Fridays.

THESES

Business Aide will type your thesis quickly and efficiently, and at reasonable rates. The completed work will be delivered to the University. Please phone Angela Newman on 341060 or Jennifer Bolden on 321175.

FOR SALE

XD Fairmont '79, T-Bar Auto, 68,500 klms. 1 owner, excell. condition, mech. A1, log books RM-2961. \$7,500 Ph. 836074.

HOUSE FOR RENT

3 bedroom house in Thirroul, large block, own creek and bushland, available for rent from early July 1985 until late January 1986. Phone Rob Whelan 671037 or ext. 3022.

FOR SALE

Spacious 2 bedroom unit in Coniston. Top floor, with balcony and ocean views. Large lock-up garage. Urgent sale. \$49,500 o.n.o. Phone 969627.
