Discount Quiz

- What card gives you more discounts than any other card?
- What card gives you over 2000 discounts around Australia?

No! It's not American Express or Bankcard. It's the **International Student Identity Card** (for full-time students who can maximise discounts with this card) and the **Australian Student Identity Card** (for all students but this card does not get *all* discounts listed in the NSDS Directory). The **National Student Discount Scheme Directory** points you in the right direction.
