blocks, several from Wollongong and Shoalhaven. There is a marked falling off, during the last few years, in the number of the tribe. And we noticed that the complexion of nearly all the children is a great deal less dark than that of the full grown forming the group; and that their features preserve not the form peculiar to the darkie of this country. In a few years the native tribe belonging to this locality, though once numerous, will have become extinct. Three and twenty blankets were served out to them, and this number supplied each with one. Evidently pleased with their covering for the winter it was hinted to the others by one of the chiefs, Doctor Ellis, that three cheers should be given for Victoria the Queen. They all cheered lustily three times for the Queen, and then dispersed.
