Evaluation of the asthma management program: final report

Keywords

asthma, management, program, final, evaluation, report

Publication Details

K. Quinsey, J. P. Dawber, D. Morris, D. L. Fildes, P. E. Grootemaat, P. D. Samsa, S. Eckermann & M. Masso, Evaluation of the asthma management program: final report (Centre for Health Service Development, Australian Health Service Research Institute, Wollongong, Australia, 2013).

Authors

Karen Quinsey, James Dawber, Darcy Morris, David Fildes, Pamela Grootemaat, Peter Samsa, Simon Eckermann, and Malcolm Masso

Acknowledgements

The funding to conduct the evaluation of the Asthma Management Program was provided by the Australian Government Department of Health and Ageing.

The authors acknowledge that the evaluation would not have been possible without the contributions and cooperation of a number of groups. In particular we would like to thank the projects involved in the evaluation of the Asthma Management Program, members of the Evaluation Advisory Committee, and other individuals involved in evaluation activities. The support of staff within the Chronic Disease Programs Section (Department of Health and Ageing) is also gratefully acknowledged.

Finally, the authors acknowledge the contribution made by colleagues from the Australian Health Services Research Institute during the course of the evaluation.

Table of Contents

EXECUTIVE SUMMARY AND KEY MESSAGES	I
INTRODUCTION.....	1
1.1 Asthma Management Program.....	1
1.2 Evaluation of the AMP.....	4
2 METHODOLOGY.....	5
2.1 Data sources.....	5
2.2 Synthesis of data sources	8
3 PROGRAM DESIGN.....	10
3.1 Does the design of the Program fit with the government priorities?.....	10
3.2 Do the AMP projects address the Program aim and objectives?	11
4 PROGRAM EVIDENCE	13
4.1 Evidence relating to asthma / linked chronic respiratory conditions programs targeted at GPs and allied health professionals	13
4.2 Evidence relating to asthma / linked chronic respiratory conditions programs targeted at school and preschool staff	14
4.3 Evidence relating to asthma / linked chronic respiratory conditions programs targeted at community members and RACF staff members	16
4.4 Summary.....	18
5 PROGRAM IMPLEMENTATION	19
5.1 Has CSP been implemented as intended?.....	19
5.2 Has ACAP been implemented as intended?.....	24
5.3 Has GPAHPAREP been implemented as intended?	29
5.4 Has AIHW been implemented as intended?	35
5.5 Has the ALF project been implemented as intended?.....	39
5.6 Has information regarding linked chronic respiratory conditions been included?.....	42
6 PROGRAM IMPACTS AND OUTCOMES	43
6.1 Program reach and short-term impacts	43
6.2 Program medium-term outcomes.....	63
7 PROGRAM COLLABORATION.....	69
7.1 Collaboration: why and how?	69
7.2 Working relationships within the AMP	70
7.3 Lung Health Alliance.....	75
7.4 Possible improvements in project working relationships	76
7.5 Summary.....	77
8 PROGRAM DUPLICATION.....	78
8.1 Duplicated and complementary activities within the AMP	78
8.2 Duplicated and complementary activities between the AMP and activities external to the AMP.....	79
9 PROGRAM EFFICIENCY	86
9.1 Program economic evaluation.....	86
9.2 Program administration	96

9.3	Project efficiency	97
10	PROGRAM APPROPRIATENESS AND FUTURE NEEDS.....	99
10.1	Continuing needs.....	99
10.2	Emerging needs	100
11	DISCUSSION AND CONCLUSIONS.....	104
11.1	Program design.....	104
11.2	Program implementation	105
11.3	Program evaluation	106
11.4	Project key findings	106
11.5	Strategies for dissemination of key findings	109
12	RECOMMENDATIONS	111
12.1	Fit between program aim and project activities	111
12.2	Efficient and effective management	111
12.3	Future projects	111
12.4	Support of evidence-based practice	112
12.5	Needs of priority groups	112
