A WEEKLY INFORMATION SHEET

Congratulations Bill Mowbray

Bill Mowbray, Senior Lecturer in the School of Education at the Institute, and Deputy Lord Mayor of Wollongong over the last three years, was re-elected last weekend in the Local Government Elections.

Ward 2, in which he nominated, virtually divided into three on the day, electing Steve Martin (ALP), Noel Howard (Independent) and Bill Mowbray (Independent) with roughly a third of the total vote each. All Ward 2 aldermen have University connections as Steve Martin is an ex-staff member and Noel Howard is a member of the Friends of the University, through the Illawarra Retirement Trust.

Other aldermen with University connections who were elected on 24 September are:

- | | |
|--------------|---|
| Frank Arkell | - Chairman of the Membership Committee of the Friends |
| Keith Phipps | - Chairman of the Graduates Committee of the Friends |
| Bevan Femor | - Member of the Friends |
| Peter Bolt | - Member of the Friends and Chairman of IRIS |

"Campus News" congratulates all elected aldermen and wishes them the best over the next four years.

COMMUNITY ACCESS COURSES IN MICROCOMPUTING

The School of Industrial and Administrative Studies has introduced a series of short courses relating to computer programming and involving the use of the microcomputer.

The range of courses available covers both introductory and advanced aspects of programming and includes courses specifically designed for adults and school children. The courses are generally presented over four weeks involving six hours per week with evening courses available for working adults and school vacation day courses for children.

The response from the community has been overwhelming and clearly indicates the extent to which the microcomputer is penetrating the work place, the home and the classroom.

The School is presently planning to extend the range of courses beyond those planned through to the end of January 1984 with a particular view to the specialised applications of microcomputers in business and industry in the Illawarra region.

Enquiries regarding these courses are most welcome since the School recognises the need to tailor these courses to the particular requirements of a community which is experiencing the microcomputer revolution in the work place and the home.

HEALY TO ADDRESS ASIAN HISTORIANS

Dr. A.M. Healy, Department of History, will present two papers to the 9th Conference of the International Association of Historians of Asia, to be held in Manila, Philippines, 21 - 25 November, 1983.

CENTRE FOR MULTICULTURAL STUDIES - POST-GRADUATE PROGRAMME

The Centre for Multicultural Studies is interested in discussing its post-graduate programme with final year students who have interests in the areas of Aboriginal affairs, migration and multicultural studies generally. Higher degree (Master of Studies, M.A. or Ph.D.) can be taken solely within the Centre or jointly with other Departments in the University. The Centre will have a wine and cheese gathering on Wednesday October 19th at 5.30 p.m. at the Centre (53 Northfields Avenue - opposite the Union) where students can see the Centre and discuss plans. If readers know of former graduates or other students who may be interested, please pass the word on. Of particular interest would be students from a non-english speaking background though this is not of course a pre-requisite for study within the Centre.

Book of the Week

From Chris Wilder, University Co-op Bookshop

Thornley, McMurchy and Oliver: "For Love or Money" \$14.95 (Shareholders: \$14.20)

A pictorial history of working women in Australia, this book traces a story which has been long hidden from view. "For Love or Money" examines the cycles of women's gains and losses as they are moved in and out of the workforce according to the demands of the time.

Also available this week is a new translation of Prout's "Remembrance of Things Past" in three volumes (\$14.95/\$14.20 per volume).

* * *

David Malouf: "Fly Away Peter" \$4.95/\$4.70.

For three very different people brought together by their love of birds, life on the Queensland coast in 1914 is the timeless and idyllic world of sandpipers, ibises and kingfishers.

But in another hemisphere the storm has broken and civilization rushes headlong into destructive conflict.

Inevitably, the two young men - sanctuary owner and employee - are drawn to the war, and into the mud and horror of the trenches of Armentieres. Alone on the beach, their friend Imogen, the middle-aged wildlife photographer, must acknowledge for all three of them that the past cannot be held.

"The novel of a poet without a single trace of over-writing" - Daily Telegraph, London.

Also available: "Child's Play" (with Eustace and The Prowler)... "written with the beautiful clarity and sharp edges of cut crystal", Sydney Telegraph, London. (\$5.95/\$5.65).

It investigates by way of interview and astonishing archival film the long term effects of exposure to low-level radiation, attempts by the US government to cover up the lethal results of the tests, and the role played by investigative reporter Paul Jacobs, who brought the story to the public over 20 years until his death from radiation-induced cancer one month before this film was finished.
