

INDEX TO BIOGRAPHIES OF SOUTH COAST IDENTITIES

This is an index to the biographies of persons connected in some way with the South Coast contained in the various volumes of *Australian Men of Mark* [1888] held by the Wollongong City Library.

There is only one version of Vol. 1 of this work but Mr. Keith Johnson of the *Library of Australian History* who has researched the history of its publication has found 11 versions of Vol. 2, each different. The Mitchell Library holds four different Vols. 2, the Wollongong City Library holds three, two of which are held in trust for the Illawarra Historical Society.

These Wollongong volumes contain biographies not included in the Mitchell volumes. One of these three Vols. 2 contains two appendices, the others only one. The main body of the work in each of these Vols. 2 are paged differently and, while generally the same biographies appear in each book, there are some biographies which appear in one book but not the other.

In this index I have designated the various volumes as:

WCL Vol. 1	WCL2 Vol. 2
WCL1 Vol. 2	WCL3 Vol. 2

WCL Vol. 1 is the only version of Volume 1, WCL1 Vol. 2 is the Wollongong City Library's Volume 2 with black spine, WCL2 Vol. 2 is the version with two appendices while WCL3 Vol. 2 is the version with one appendix and red spine.

The appendices, it is said, consist of material supplied by the subject who had to pay £ 2 (\$4) if he wished to appear on record. If this is so, and presuming the subject supplied the information, it is amazing how incorrectly the information could be written up.

All biographies in which a reference has been made to a town on the South Coast have been indexed and the name of the South Coast town stated.

Spelling of some names is suspect e.g. Edward Garrard should probably read Edward Gerard.

Biographies appearing in the body of the work are accompanied by a drawing of the subject.

Though very helpful these biographies must be checked out thoroughly as they are certainly not accurate e.g. Marshall Mt. nr Wollongong appears as "Marsh Mountains". This is a minor mistake compared with some.
