Private Computer Training in Papua New Guinea: From Chaos to Order

A Thesis submitted in fulfilment of the requirements for the award of the degree of

Doctor of Philosophy
(Ph.D)

from

The University Of Wollongong

by

Musawe Sinebare

Dip.S.T., B.Ed UPNG, M.Ed Birm, M.InfoTech W'gong

Faculty of Education

1999
Acknowledgments

This Thesis would not have been completed without the assistance of many individuals and organisations. I owe much to the following individuals and organisations for their assistance:-

A) Academic Supervisors

Associate Professor Barry Harper, Associate Professor John Hedberg, and Dr Michael Wilson from the Faculty of Education at the University of Wollongong for their guidance, support, encouragement, wise counsel and invaluable advise which enabled me to bring forth obscure ideas, concepts, mere thoughts and express them in a thesis of this nature.

B) Organisations

* AusAID (Australian Agency for International Development) for sponsoring my study program between 1993 and 1997 (initially for an M.InfoTech degree and later for PhD degree studies at University of Wollongong, NSW, Australia);

* The University of Goroka (formerly UPNG Goroka Campus) for releasing me to pursue higher degree studies and assisted me in my travel and accommodation costs during my fieldwork in PNG in 1994 and 1996;

* The University of Papua New Guinea's Staff Development Unit which nominated me for an AusAID scholarship tenable at the University of Wollongong, Australia between 1993 & 1997 inclusively, and for funding part of my travel within PNG for the 1996 fieldwork;

* St. John's Lutheran Church Congregation, Pastor Tim Koch, elders, individual parishioners and their families at Wollongong for providing me and my family with our spiritual needs as well as taking care of our social well-being whilst at Wollongong between 1993 and 1997;

C) Individuals

There are far too many individuals whose help I would like to acknowledge by name but am restricted by the limited space on this page. Their individual help is very much appreciated and I pray that the helpers will be richly blessed and rewarded by God who is the source of all knowledge, wisdom and understanding.

The following people deserve a special mention as they are close to me and have personally contributed enormously:

* My dear wife Kay and our children; Darshiney and Nathan for bearing with me and supporting me in their unique ways. Without their support, I would not have managed to survive the many highs and lows experienced over a period of five years in Wollongong; and

* My parents who brought me up and influenced me to pursue into the unknown forest of knowledge and leave an indelible trail for others to pursue further in search of knowledge.
Information Technology (IT) education and training in Papua New Guinea (PNG) like those in many developing countries has not been formally introduced into the public school system. The demand from public and private sector employers for personnel with IT knowledge, experience and qualifications from the workplace is growing rapidly as the workplace is gradually applying computing skills to improve efficiency. PNG nationals from the public sector educational institutions, particularly school leavers from the secondary school level (which constitute that population) urgently require education and training opportunities in computer application skills and IT in general.

In PNG, only the universities, some post-secondary institutions and the private training organisations are conducting some form of formal computer related courses. Since entry to universities is highly competitive and often a limited number of study places are available, the majority of the school leavers and employees who require computer skills training often resort to the short-term computer related courses conducted by private computer training organisations. The private computer training organisations are registered as a ‘commercial organisation’ but conduct computer or IT related education and training programs as a ‘private training organisation’. Such a scenario is allowed and facilitated by the current policy and regulatory framework which promotes unregulated, uncoordinated and ad hoc IT education and training environment in the country.

The private computer training organisations, their computer training courses or programs and their present practices under the existing policy framework were examined. The existing government policies and regulations with a potential to facilitate IT education and training in PNG were analysed in view of the current computer training organisations, training programs, and their pedagogical details examined. It emerged that the private computer training in PNG is chaotic under the present policy and regulatory framework. There is neither a specific policy formulated nor a curriculum guideline provided to cater for IT education and training in the country.

Several recommendations based on the research findings, are put forward for implementation by various existing authorities as well as recommendations for a new authority and new structures under which IT education and training can be facilitated. The thrust of the recommendations strongly supports the view that IT education and training in PNG be given national attention by the government because of the potential in using IT in many socio-economic aspects of the country and more importantly because of its potential to create a knowledge industry within the country. In order for
this to occur, the government must play the pivotal role in formulating a national IT Policy for implementation by both public and private sector. Further, necessary administrative and physical infrastructure should be established as a matter of priority in order for IT education and training to be promoted, applied, and implemented. In addition, the many recommendations made must be implemented within the suggested policy and curriculum framework.

Several implications of the many recommendations put forward are suggested. If the recommendations are implemented then IT education and training in the country would be planned, coordinated, and delivered in accordance with the suggested policy and curriculum framework. On the other hand if the recommendations are not implemented then the status quo would be maintained. A Ripple-Effect theory is postulated which attempts to model the current chaotic private computer training organisations and their respective training programs as well as predict the future private computer training scenario under the proposed IT Policy and IT Curriculum framework.

## Chapter 1: The Research Problem

1.0 Introduction
1.1 Socio-Economic Context
1.2 Demands for Computer Education and Training
1.3 Shortage of People with Computer Skills in PNG
1.4 Computer Education at Public Educational Institutions
1.5 The Role of Private Computer Training Providers
1.6 Government Policy Initiatives and their Inadequacies
   1.6.1 National Training Council Act 1991
   1.6.1.1 National Training Policy and National Training Council
   1.6.2 The National Accreditation Policy
   1.6.2.1 Accreditation and Higher Education in PNG
   1.6.3 PNG Information Technology Policy for the Public Service
   1.6.4 PNG Science and Technology Council Act 1992
1.7 Private Computer Training Programs
1.8 Rationale of the Research
1.9 The Research Questions
1.10 Summary

## Chapter 2: Computer Literacy & Developing Countries

2.0 Introduction
2.1 Definitions of Computer Literacy
2.2 Computer Literacy in Developed Countries
2.3 Computer Literacy and IT in Developing Countries
2.4 Overview of Computers in Education in Developing Countries
   2.4.1 African Region
   2.4.1.1 Botswana
   2.4.1.2 Kenya
   2.4.1.3 Mauritius
   2.4.1.4 Nigeria
   2.4.1.5 Zambia
   2.4.1.6 Zimbabwe
   2.4.2 Asian Region
   2.4.2.1 Bangladesh
   2.4.2.2 China
   2.4.2.3 India
   2.4.2.4 Indonesia
   2.4.2.5 Malaysia
   2.4.2.6 Pakistan
   2.4.2.7 Singapore
   2.4.2.8 Sri Lanka
   2.4.2.9 Thailand
   2.4.3 Caribbean and South American Region
   2.4.3.1 Barbados
   2.4.3.2 Brazil
   2.4.3.3 Jamaica
Chapter 5: Computer Education Scenario in Papua New Guinea

5.0 Introduction
5.1 Public Sector Computer Education and Training in PNG
5.1.1 The National Education Objectives
5.1.2 Primary and Secondary Schools
5.1.3 Technical and Secretarial Colleges
5.1.4 PNG Institute of Public Administration
5.1.5 Universities and Colleges
5.1.6 Other Post-Secondary Colleges and Institutions
5.1.7 Reforms and Innovations
5.2 Computer Education and Training in PNG
5.2.1 Private Commercial Training Organisations
5.2.2 International Education Agency (IEA) Schools
5.2.3 Private Technical Colleges
5.2.4 Private Tertiary Institutions
5.3 Growth and Development of Private Computer Training Organisations
5.3.1 Computer Skills Demand and Supply
5.3.2 National Manpower Assessment Priority
5.3.3 Neglect of Computer Skills Demand and Incapacity to meet the Demand
5.3.4 Introduction of Computers
5.3.5 Re-training and Re-skilling
5.3.6 Growth of Private Computer Training Organisations
5.3.7 Commercialising Private Computer Training
5.3.8 Overview of Private Training Providers
5.3.9 Major Discrepancies in Computer Training Conducted
5.4 Government Policy Initiatives
5.4.1 Background Information
5.4.2 The Training Levy - Purpose and Nature
5.4.3 The National Training Council Act 1991
5.4.3.1 The National Training Policy
5.4.3.2 The National Training Council Secretariat
5.4.3.3 Screening and Accreditation Committee (SAAC)
5.4.4 PNG IT Policy for the Public Service
5.4.4.1 Brief Background
5.4.4.2 Objectives of the PNG IT Policy for the Public Service
5.4.4.3 Administrative Structures
5.4.5 PNG Science and Technology Council Act 1992
5.5 Summary

Chapter 6: Private Computer Training in Papua New Guinea

6.0 Introduction
6.1 Brief Background Information
6.2 PC Application Software Training Courses
6.3 Integrated Training Programmes
6.3.1 Certificate in Information Technology
6.3.1.1 Port Moresby Business Training Institute
6.3.1.2 Institute of Business Studies
6.3.2 Certificate in Bookkeeping-Lotus 1-2-3
6.3.3 Certificate in Salesmanship with Introduction to Computers & Basic DOS
6.4 Administrative and Curriculum Aspects of Private Computer Training Organisations
6.4.1 Entry or Admission Requirements
6.4.2 Competency Levels
Chapter 7: Results and Discussion

7.0 Introduction

7.1 Results and Discussion (Part 1)
7.1.1 Research Question One
7.1.2 Data Sources Consulted and Used
7.1.3 The Similarities
7.1.3.1 Number of Computer related Training Organisations
7.1.3.2 Private Commercial Training
7.1.3.3 Compliance with National Law and Policy
7.1.4 The Differences
7.1.4.1 Course Content or Curriculum
7.1.4.2 Training Provider's Mission Statement
7.1.4.3 Trainers' Educational Qualifications
7.1.4.4 General Course Objectives
7.1.4.5 Delivery Methods
7.1.4.6 Teaching Resources and Facilities
7.1.5 Nature of Computing Skills Methods and Schemes
7.2 Results and Discussion (Part 2)
7.2.1 Research Question Two
7.2.2 Data Sources Consulted and Used
7.2.3 Description of How the Results were Computed
7.2.4 National Training Policy
7.2.4.1 Neutral
7.2.4.2 Agreement
7.2.5 National Training Council and NTC Secretariat
7.2.5.1 Disagreement
7.2.5.2 Agreement
7.2.5.3 Neutral
7.2.6 Computer Skills Training Providers
7.2.6.1 Agreement
7.2.6.2 Disagreement
7.2.6.3 Neutral
7.2.7 Certification of Computing Skills Training Providers
7.2.7.1 Agreement
7.2.7.2 Uncertain

Chapter 8: Recommendations

8.0 Introduction  355
8.1 List of Recommendations  356
8.1.1 For Implementation by the Government of PNG  356
8.1.2 For Implementation by the PNG Information Technology Council (PNG-ITC)  375
8.1.3 For Implementation by the National Training Council  380
8.1.4 For Implementation by the Internal Revenue Commission  387
8.1.5 For Implementation by Private Training Organisations  389
8.1.6 For Implementation by PNG-ITC, NTC and CHE  394
8.2 Summary  398

Chapter 9: Implications for National IT Policy and IT Curriculum

9.0 Introduction  403
9.1 Effects of the Recommendations  403
9.1.1 Effects of the Recommendations if Implemented  404
9.1.2 Effects of the Recommendations if Implemented by the Government  404
9.1.3 Effects of the Recommendations if Implemented by PNG-ITC  406
9.1.4 Effects of the Recommendations if Implemented by NTC  409
9.1.5 Effects of the Recommendations if Implemented by Private Training Organisations  411
9.1.6 Effects of the Recommendations if Implemented by PNG-ITC, NTC, and CHE  414
9.2 Future Developments if Current Practices are allowed to Continue  415
9.3 The Role of the National IT Policy  418
9.3.1 IT Policy Initiatives in Developing Countries  419
9.3.1.1 Non-Existent Policy  419
9.3.1.2 Implicit Policy  419
9.3.1.3 Explicit Policy  420
9.3.2 IT Policy Strategies applied in Developing Countries  420
9.4 What Actions should PNG Take?  422
9.5 Implications of the National IT Policy  425
9.6 Implications of the National IT Curriculum  437
9.6.1 Prescriptive and Descriptive Curriculum Models  444
9.7 Phases of Curriculum Development and Curriculum Conceptions  449
9.8 Summary  454

Chapter 10: Theorising: The Ripple-Effect Theory

10.0 Introduction  458
10.1 Chaotic IT Education and Training Environment  458
10.2 Ripple-Effect Theory for IT Education and Training  461
10.3 Ripple-Effect Theory: Proposed IT Policy and IT Curriculum Framework  470
10.4 General Discussion  471
10.5 Summary  474

Chapter 11: Summary and Conclusions

11.0 Introduction  476
11.1 Brief Background  476
11.2 The Research Problem and Research Questions  478
11.3 Theoretical Framework 480
11.4 The Research Method 481
11.5 Research Findings and Recommendations 483
