Modelling of influence of matric suction
induced by native vegetation on sub-soil
improvement

Behzad Fatahi
University of Wollongong

Fatahi, Behzad, Modelling of influence of matric suction induced by native vegetation on sub-soil improvement, PhD thesis, School of Civil, Mining and Environmental Engineering, University of Wollongong, 2007. <http://ro.uow.edu.au/theses/781>

This paper is posted at Research Online.
