FUTURE POSITIVE THROUGH TECHNOLOGY CENTRE

State Government funding for proposals originating from the University of Wollongong heralds the beginning of a project having the long term potential to halt the economic downslide currently experienced in the Illawarra. Recently announced details of the establishment of a "Technology Centre" associated with the University, reflect the commitment of both the Government and the University to fostering the generation of economic growth.

The proposed Centre is the first part of a longer term proposal and is believed to be an essential prerequisite for the eventual establishment of a technology "park" or estate. It represents an attempt to facilitate the process of transferring modern technology, not only to small or recently established companies, but also to individuals and well established companies who may wish to avail themselves of the services.

An interim submission to the State Government recommends the establishment of a Regional Technology Centre, which will be managed by representatives of the University, Government, Industry and Trade Unions, and will be initially funded by State/Commonwealth governments. It is hoped that the Centre would be financially self-sufficient in 5-7 years. The submission suggests that the Centre be established on or near the University to facilitate the effective transfer of knowledge and expertise in the field of high technology.

Initially a major activity of the Centre will be to provide a consultant service to industry based on application and associated R. & D. In the areas of automatic processes and materials handling. The general orientation of this activity, like others in the Centre will be towards the generation of final products in the form of new processes, techniques and physical goods. The intention is to make a contribution to raising productivity and employment in the region. A number of small businesses and larger enterprises having already expressed interest in associating themselves with the Centre include a software company with a potential world-wide market, a biotechnology company, an established microelectronics company, and a national mathematical consultancy company.

The proposed Technology Centre would have other functions besides enabling more efficient transference of information, knowledge and expertise, to industry. The interim submission suggests that the centre would provide:

1. A consultancy and applications service for both developing and established firms, together with an associated research and development programme directed towards the development of commercially viable products. Such a programme would draw widely on the knowledge and expertise of relevant University staff.

2. Financial management and technical support for small businesses in order to foster and encourage their development.

3. A centre whereby small businesses and technological entrepreneurs may seek advice and interact with each other so that expertise and knowledge can be brought together.

4. A data base for the provision of up to date information.

It is estimated over a five year period, establishment of the Centre will generate a minimum of 500 jobs. Apart from the employment created by the construction of the physical facilities the centre will employ, professional, technical, administrative and support staff on an ongoing basis. It is believed however that the most significant effect on employment will flow from the formation of new enterprises, the presence of which, together with the knowledge and expertise located in the Centre, will provide impetus for the investment of venture capital within the area. There is also hope that the combined efforts of the Centre and the firms which it services will produce spin-off projects and produce a continuing flow of new technological developments and applications.

An intangible but important element of the project is the capacity of the Centre to alter Wollongong's image and reputation by providing a climate conducive to new technology activities. The presence of the Centre could raise outside awareness of Wollongong as a viable area for investment, provide a focus for high technology ventures and make the Illawarra more attractive to companies from outside the region. The Centre will also provide an opportunity for a wide range of academic staff to interact with the staff of the Centre and so improve and apply their skills.

The Centre is only one of the possible initiatives aimed at revitalisation and stimulation of activity, occurring in the area. To be fully effective the Centre needs to be seen as part of a concerted regional effort involving unions, industry, the various levels of government and other groups willing and able to contribute.
NATIONAL SURVEY SHOWS SUCCESS OF WOLLONGONG GRADUATES

Figures released recently by the Graduate Careers Council of Australia indicate that the high employment rate of the University of Wollongong graduates continues.

The national survey reveals that graduates of the University of Wollongong are more likely to be in full time employment than graduates in general.

The survey also reveals Private Sector support of Wollongong graduates.

While the national percentage of Graduates in private sector employment has dropped over the last year, the percentage of Wollongong graduates employed in private industry remains high. 28.1% of Wollongong graduates are employed in private industry, compared with 18.5% of graduates throughout Australia.

Commenting on these figures, the University Secretary, Mr. B.C. Moldrich, said that the strong private sector employment record of Wollongong graduates was particularly pleasing in a time of local downturn.

Overall, the proportion of Wollongong graduates seeking employment at the time the survey was conducted, was 2.3% higher than the national average, but was substantially better than some Universities.

LITERACY RESEARCH

The Centre for Studies in Literacy has been asked to conduct an evaluation of a Reading Recovery Programme which has been implemented in the Bendigo region by the Victorian Education Department. The project which involves an initial grant of $15,000.00 will monitor the effect of the programme on children, teachers and school administration.

RESTRUCTURED COUNCIL

The restructured Australian Manufacturing Council, the membership of which was announced by the Minister of Industry and Commerce, Senator John Button, includes Professor Ron Johnston, Co-Director of the Centre for Technology and Social Change, and Chairman of the Department of HPS.

He is one of the independents appointed to the Council, which is composed predominantly of industry, trade union and government representatives.

Professor Johnston’s appointment marks a further recognition of the strength of analysis of the role of technology in industrial performance at Wollongong University, and of the commitment of the Minister to having the Council take a more positive role in considering issues such as technological innovation, design, and marketing.

PSYCHOLOGISTS MEETING IN WOLLONGONG

The Australian Psychological Society funded a meeting of the full editorial panel of the Australian Psychologist at the University of Wollongong. Ten Associate Editors came from around Australia to meet with the Editor, Associate Professor Linda L. Viney, on Friday, 6 April. In the morning they met to discuss editorial policies and at 2.00 they were available in the Department of Psychology for discussions with authors and would-be authors.

ANNUAL SERVICE FOR TERTIARY EDUCATION

Readers are warmly invited to attend the Annual Service for the University of Wollongong and other tertiary institutions at St. Michael's Anglican Cathedral on Sunday, 6th May, 1984, at 7.15 p.m.

The guest speaker will be Emeritus Prof. Bruce E. Mansfield, Deputy Vice-Chancellor, Macquarie University.

RSVP 2nd May, 1984. Rev. R.E. Heslehurst, St. Michael’s Cathedral, Church Hill, Wollongong. 2500. Telephone (042) 2891329 a.m. - 5 p.m.

ON AIR

Illawarra Community Broadcasters conducted a successful test broadcast from 8 - 15 April, during Heritage Week. The station operated on 106.5 MHZ.

STAFF CLUB NEWS

A meeting of some 35 members of staff was held in Pentagon 3 on 4 April to discuss progress.

The Convenor Peter Burton was able to report that the Vice-Chancellor had provided the Institute Director’s residence to the fledgling club for its use during the remainder of 1984.

After this trial period the Club should be in a position to decide whether it has the strength to proceed to the next stage, which will be to build a club premises near the Drama Hut.

Dr. Burton stated that the Vice-Chancellor had indicated that $1 for $1 funding for the building may be available from the General Development fund for this project.

On the question of membership eligibility it was agreed that it should be limited to staff, postgraduate students, graduates and members of convocation and members of Council.

The Club would need to incorporate and apply for a Liquor License.

The following committees were formed.

Constitution: Ross Lilley (Convenor), Peter Costigan, Dave Cook, Ted Ross, John Ryan.

Membership: Bob Calvin (Convenor), Tony Kent, Julie Gray, Peter Wood.

Activities: Ted Ross (Convenor), Peter Gray, Sue Uniacke, Peter Burton.

On the matter of subscriptions it was agreed that a $30 entry fee plus $50 per annum would be appropriate.

Members expressed the hope that the Club would provide activities not available in the Union - e.g. Card Room, Chess and Backgammon, Darts, etc.

The next meeting will be held on Tuesday, 1 May at 12.30 p.m. in the Pentagon.
FRIENDS ANNUAL GENERAL MEETING

The Annual General Meeting of the Friends of the University of Wollongong will be held on 1 May, 1984 at 5.30 p.m. in the Union Common Room. It will be followed by the Graduates Committee Graduation Eve Champagne Reception for the new Graduands at 6.30 p.m.

Tickets for the latter event are available from the University Union (tel. 270782). Cost: $5 per person. Please come and hear how the Friends are going and help welcome our new graduates.

ELECTION RESULTS

Nominations for the elected positions on the Board and on the Membership Committee closed at 5 p.m. on Friday, 6 April, 1984. There were four nominations for the four vacancies on the Board and therefore the following members have been declared elected:

Frank Arkell
Malcolm Booth
John Peedom
Graham Roberts

There were six nominations for the 20 vacancies on the Membership Committee and therefore the following members have been declared elected:

Ald. Frank Arkell (Chairman)
Ethel Hayton MBE
Elisabeth Hilton
Joseli Munive
Ald. Keith Phipps
Arthur Raymond

Nominations for the remaining fourteen vacant positions will be called for at the Annual General Meeting and a ballot held if necessary.

ZAMPAGLIONE RETURNS

Dr. Gerardo Zampaglione has returned to Wollongong and addressed a meeting of 200 people at the Fraternity Bowling Club.

Mr. Giles Pickford was pleased to report that in the region of $8,000 was raised at the meeting, the largest contribution being from the Fraternity Bowling Club; and further major contributions coming from the Italian Consul and the BHP Group of Companies through the 150th Anniversary Committee.

Dr. Zampaglione reported on progress with his book which is nearing completion.

VICE-CHANCELLOR’S HERITAGE WEEK SEMINAR

The Vice-Chancellor’s 150th Anniversary Heritage Week Seminar was held on 6-7 April and was attended by about 80 people interested in the problems of the disadvantaged.

The Vice-Chancellor reported that public awareness of the problems of the disadvantaged, in years gone by, had been confined mainly to the mentally and physically disabled.

More recently, however, research had made people aware of other groups in the community who did not benefit from the education opportunities available to many. He said it was the task of the seminar to identify who these people were, and what could be done for them.

Summing up the final session Professor Ron King outlined four main stages in coping with the problems raised at the seminar. These were:

1. Awareness - where the public become aware that there is a social problem.
2. Comprehension - where the public become informed about the nature and scope of the problem.
3. Decision - where, because of awareness and comprehension the public reached the point of deciding to act and communicating this feeling to its leaders.
4. Action - where leaders and community groups legislate, finance and eventually resolve the problems.

The Seminar generally agreed that Australian society had reached a point between the second and third level on many areas of disadvantage, some of which were listed as aboriginals, women, immigrants, rural youth, children of solo parents, the physically and mentally disabled, the aged, the unparented.

News from Council and Senate

At its meeting on 24th February, 1984, the University Council delegated authority to the Vice-Chancellor to approve a number of matters.

Under this delegated authority the Vice-Chancellor has approved resolution (84/4) of the Academic Senate meeting held on the 15th February, 1984, which dealt with the “Composition of Selection Committees for Academic Appointments of Lecturer, Senior Lecturer, Principal Lecturer, Associate Professor and Reader”.

Details of the composition of these committees are attached to the minutes of Senate for the 15th February 1984.

T.J. Brew,
Secretary.

PUT WOLLONGONG FIRST

A Unique Personal Opportunity

One of Wollongong's finest public institutions
is its University

Be remembered forever by endowing the University

*by gift  *by bequest
* by bequest reserving life income

For personal and confidential attention call Giles Pickford of the Friends of the University on (042) 270076 or 270555
The problems are being investigated and it seems there are a number of contributing factors.

One of the facilities of the new PABX is that where direct incoming calls to individual extensions are either not answering within a prescribed time or are busy, the call is automatically diverted to the switchboard to be dealt with by the operators. While this 'courtesy' facility has obvious advantages there is a major disadvantage in that it creates a significant increase in traffic to the switchboard which results in the operator having less time to devote to other incoming calls and operator-connected calls.

Arrangements have been made to have this facility disconnected.

The recent decision by the Vice-Chancellor to offer all Heads of Departments and Schools unbarred STD lines, should also result in some improvements in the service because of the proportionate decrease in operator-connected calls for these staff.

Staff can also help to improve the situation by encouraging regular callers to bypass the switch by dialling direct.

Staff would also be encouraged to more fully utilize some of the other PABX facilities such as 'Pursue Me' and 'Diversion' (refer User Guide Card). These facilities will divert unanswered calls to the Secretary or colleagues. This is good for public relations and also takes some of the load off the switchboard.

Staff should also be reminded of the 'Abbreviated Code Calling' facilities which accesses, for example, other Universities and Colleges and avoids the need to direct their calls through the switchboard.

I should also point out that incoming calls to the switch (including dialling '9') are automatically queued. If callers hang up before being answered and then redial, they return to the end of the queue. It is therefore better to 'hang on'.

Telecom has been requested to carry out a technical check of the PABX to make sure there are no technical faults which may be contributed to delays.

The problems we are experiencing are not the fault of the operators and therefore I would ask that staff be patient and co-operative.

The present situation is being exacerbated by some STD calls 'dropping out' soon after connection. The problem is due to a fault at the Wollongong Exchange which Telecom is currently rectifying.

CORRECTION

In previous issues of "Campus News" under the heading "Cheats Beware" it was reported that a student had received a "five year exclusion". The exclusion imposed was for two years".

INSTITUTE GRADUATION LUNCHEON

We have pleasure in announcing that the Institute Students Association are holding their "Graduation Luncheon" at the Institute, on Friday 4th May, 1984 commencing at 12.30 p.m.
PACKAGE DEALS FOR TERTIARY STUDENTS

The Commonwealth Trading Bank of Australia has introduced a scheme to provide loans on a deferred repayment basis to tertiary students to assist with completion of their courses of study.

A package of services will be available to all full-time tertiary students at universities, colleges of advanced education and technical and further education colleges who:

(i) are Australian citizens or permanent residents of Australia, or have applied for and are likely to be granted permanent resident status; and

(ii) have completed at least two years of their study requirements and, generally have no more than two years to graduate; or

(b) are undertaking post-graduate studies.

The package of services comprises:

- Fully Drawn loan up to $3,000 at standard overdraft interest rate
- Bankcard with limit in range $300/$500
- Cheque account, if appropriate

Keycard Savings Accounts, Christmas Club Accounts and the full range of the Bank's other services would also be available.

Benefits in the package are:

- Principal repayments on fully drawn loans would be deferred until students have graduated
- Cheque accounts opened in conjunction with fully drawn loans would be entirely free from accountkeeping charges until repayments on the loan commence
- Minimum payments only would be required monthly on Bankcard debts
- Establishment fee would be applied at a reduced scale
- Loan service fees would not be charged until cessation of studies or two years after graduation
- Loan protection cover would be available at nominal cost.

Application for loans under the scheme may be made at any branch of the Commonwealth Bank.

MEDICARE PROVISIONS FOR OVERSEAS STUDENTS

Under Medicare, which came into operation on 1 February, overseas students who have approval for a stay in Australia for six months or more will be entitled to Medicare benefits from the date of their arrival in Australia and should enrol immediately with Medicare. Application forms are available from post offices.

Those students who originally obtain approval for a stay of less than six months, but subsequently receive an extension of stay which makes their total stay in Australia longer than six months, will also be eligible for Medicare benefits from the date the extension of stay is granted.

Students whose stay in Australia is less than six months will not be eligible for medical benefits and should therefore be acquainted with the possible high cost of medical care so that they can consider taking out private health insurance.

Action has been taken to inform students traveling to Australia of their Medicare entitlement and to acquaint those already here. Students who are uncertain of their entitlement may be referred to the Australian Development Assistance Bureau (ADAB), tel. (02) 2124000, or to a Medicare Office.

HIGH SCHOOL ENRICHMENT SESSIONS IN MATHEMATICS – 1983 REPORT

The Mathematics Enrichment Programme was started in 1981 when the top 2 students from each of years 7 and 8 from all South Coast Region High Schools were invited to the University for a one day session of talks on topics in Mathematics not covered at High Schools. A similar day was held early in 1982 for year 10 and 11 students. Of these groups, those that were interested and lived sufficiently nearby (about half of those that attended the one day sessions) started coming for two hour sessions of Mathematics after school time. These have been held once a month during term time.

After another one day session for year 8 and 9 students held on December 19, 1982, new students came into the system. Others were admitted at their own or their teachers’ requests.

The number attending especially of the older group has dropped substantially over the years so that from September these groups have been combined. Active participants now total just under 50, though depending on other commitments, such as school exams, numbers have varied from 20 to 35.

On May 16 Dr. Graham Winley who ran the Enrichment sessions from January to August of this year and Mr. Max Ross of the South Coast Regional Office of the N.S.W. Education Department organised a one day session for 200 year 7 and 8 students. This time 3 were invited from each year of each school and students came from as far away as Queanbeyan and Narooma. The day had good publicity from local newspapers, radio and television. Of these students 80 to 90 have been participants in our monthly sessions. Actual attendances have varied from 23 (at school exam time) to 70.

In 1983, for the first time, we ran a problem competition for the students in our system. Unfortunately the time we chose turned out to be school exam time and many were unable to attend. We had two tests: one for years 7 and 9 and one for years 9 to 12, with two common questions. Remarkably the best marks for the common questions were obtained by year 7 students! Also the top 6 students from 7 and 8 were from year 7 and the top student from years 9 to 12 was from year 10. Prizes consisting of books and subscriptions to “Parabola”, were handed out by Faculty of Mathematical Sciences Chairman, Dr. Tom Horner at a final session on December 5th. $150 towards these prizes was donated by the Friends of the University, further money for snacks and orange juice consumed at this session was donated by the Mathematics Department.

Dr. M.W. Bunder,
Organiser.
Equal Employment Opportunity Project

LIBRARY DISPLAY

The display on Equal Employment Opportunity, currently located in the foyer of the Library, has generated a lot of interest by both students and staff. The display aims to increase awareness of the concept of E.E.O. on Campus, and attempts to answer the questions:

What is E.E.O.? and Affirmative Action?

It looks briefly at both State and Federal Legislation and the requirement for the University to produce and implement an E.E.O. Management Plan. The display also examines sexual harassment, and looks at the problems of Women, Aboriginals and Migrants in regard to employment.

Copies of the literature used in the display are available from the Project Office, room 123, top floor of the Administration Building, or by phoning ext. 3917.

Research Grants

CARNEGIE CORPORATION ANNOUNCES NEW PROGRAMME DIRECTIONS

Carnegie Corporation of New York, founded for the advancement and diffusion of knowledge and understanding, announced that the foundation would pursue new directions in grantmaking, concentrating on four broad goals:

* Avoidance of nuclear war and improvement in U.S.-Soviet relations;
* education of all Americans, especially youth, for a scientifically and technologically based society;
* prevention of damage to children and young adolescents;
* strengthening of human resources in developing countries.

John C. Taylor, chairman of the board, said the foundation's new programmes “represent a fundamental continuity with past programmes devoted to the education and well-being of children and to policy research, but place these interests in the context of world interdependence and scientific and technological change.”

Further details on “Campus News” Notice Board.

NORTHERN TERRITORY RESEARCH

Any academic in the University conducting research into any aspect of the Northern Territory is asked to contact Giles Pickford on ext. 3076 (83-1-2 refers).

AUSTRALIAN INSTITUTE OF NUCLEAR SCIENCE AND ENGINEERING

Technical Reports on AINSE sponsored projects in 1983 are available from the Editor (5-4-2ii refers).

Seminars

Details of the Seminars below are displayed on the "Campus News” Notice Board.

DEPARTMENT OF BIOLOGY

16th April, 4.00 - 5.30 p.m.
“Hypersensitivity of the yeast Saccharomyces to water stress” - Professor Austin D. Brown, Department of Biology, University of Wollongong.

30th April, 4.00 - 5.30 p.m.
“Physiological ecology of emus” - Professor Terence J. Dawson, School of Zoology, University of N.S.W.

7th May, 4.00 - 5.30 p.m.

DEPARTMENT OF ACCOUNTANCY

The following seminars have been scheduled to be held in room 19.2035 at 11.00 a.m. on the dates shown.

April 13
“True and Fair View”, by Professor J.B. Ryan.

May 11
“Institutional Arrangements”, by Mr. G.E. Tibbits.

June 1
“An Evaluation of the Financial Effects of Counselling Services for Ill or Injured Patients who are Hospitalized”, by Mr. H.Y. Teoh.

All welcome: For further information contact Dr. F.A. Gul, tel. no. 270681, or ext. 3681.

NOTICE OF SEMINAR

Seminar on Experiences of Overseas Students - Paula Todd - Social Worker - Australian Development Assistance Bureau (A.D.A.B.).

A.D.A.B. provides a social work service to sponsored and private overseas students. Paula Todd has responsibility for the University of Wollongong. The seminar will provide an opportunity to gain an understanding of general experiences and difficulties of overseas students.

Academic and Administrative staff invited.

12.30 - 1.30 p.m. - Thursday, May 3 - Private Meeting Room - Union.

Sandwich lunch provided.

Please contact the Counselling Centre (ext. 35921 if you wish to attend.

AUSTRALIAN INSTITUTE OF PHYSICS

Nuclear Arms Symposium - Canberra 14 - 18 May (during ANZANS)

COWIE TO SPEAK ON BIRDS

Illawarra Natural History Society will conduct its April meeting on Friday, 13th, at 8 p.m. in the Music Centre The Institute - University of Wollongong.
Guest speaker: Professor Edward Cowie - School of Creative Arts, will speak on "Birds of North America" and display paintings.

AUSTRALIAN INSTITUTE OF MANAGEMENT

Monthly Meeting.

Topic: "Education - Yesterday, Today and Tomorrow"

Guest Speaker: Professor J. Lauchlan C. Chipman, MA LLS Melb., BPhil Oxf., Dip Tertiary Ed NE Foundation Professor of Philosophy (since 1975) The University of Wollongong and Visiting Professor of Jurisprudence, University of Sydney since 1982.

Date: Wednesday, 18th April, 1984.

Time: 5.30 p.m. Refreshments.

6.00 p.m. Address and Question Time.

Venue: Illawarra County Council Administration Building, Level 7, Bridge Street, Coniston.

Concerts, Exhibitions and Entertainment

WEDNESDAY GALLERY

4/328 Crown Street, Wollongong.

Paintings, pots and paraphernalia.

Open Wednesdays only 10 a.m. - 5 p.m. Enquiries to Bev - Phone 28.3853.

Perfectly simple original watercolour wildflowers. Porcelain painted with pen and ink. Ideal for Mothers' Day.

WOLLONGONG SYMPHONY ORCHESTRA

26th May, 1984 at 8.00 p.m. in Wollongong Town Hall: "Lorraine Smith Plays".

Wollongong violinist Lorraine Smith, now a member of the esteemed Australian Chamber Orchestra, makes her first concerto appearance in Wollongong, playing the Wieniawski Second Violin Concerto. Other works by Elgar and the Beethoven Seventh Symphony.

Guest Conductor: Edward Cowie.

W.U.N.D.A. PRESENTS ANTI—NUCLEAR FILMS

Wollongong University Nuclear Disarmament Association (WUNDA) presents a series of anti-nuclear films.

8th May - Dirt Cheap

5th June - Let There Be Light

All films will be shown at 12.30 - 2.00 p.m. in Pentagon Theatre 1 and 7.30 - 9.00 p.m. in Pentagon Theatre 3.

MUSIC FOR EASTER

Monday, 16 April, Wesley Uniting Church, Crown Street at 8 p.m.

Presented by the Choral Society

Stabat Mater - Caldara
Jesu Priceless Treasure - Bach

Soloists: Madeleine Cincotta, Michele Eve, Barbara Rixon, John Wilkinson, Bill Lawson

Organist: Glenda Snyden

Conductor: Robert Smith

Tickets $10 family; $5 adult; $3 concession at Jurjens or from Choral Society members.

MOZART CONCERT

Presented by Wollongong Conservatorium, Arranged by Nadia Kokot.

Introduction supported by slides of Vienna and Salzburg in the middle of 18th century.

Programme: Flute Sonatas, Trio for piano, Violao and Clarinet, for Piano, Cello, Violin and Opera Arias.

Guest Artists include - Anthony Warlow (baritone from the Australian Opera) and the members of the esteemed Australian Chamber Orchestra David Pereira - Cello, Geoffrey Collins - Flute, Lorraine Smith - Violin, Deborah Lander - Violao, Sue Newson - Clarinet, joined by the Wollongong pianist Nadia Kokot.

Sunday 20th May, 1984 at 7.30 p.m.

Wollongong Town Hall.

Tickets will be on sale at Gleniffer Brae tel. 281122 and Jurjens Pianos, 232 Keira St., tel. 292379.

Adults $8, concession $4.

HERITAGE WEEK CONCERT

The Heritage Committee in association with The University of Wollongong Conservatorium of Music presents Our Musical Heritage — A Matter of Class —

Programme features music enjoyed by nineteenth century Australians.

* Robert Ampt - Organ
* Lorraine Smith - Violin
* Lynne Williams - Mezzo-Soprano

** Guest artists - The Peking Piano Quartet.

Venue: The Historic Wesley Church, Crown Street, Wollongong.

Date: Saturday, 14th April.

Time: 8.00 p.m.

Tickets: Adults $5.00 Concession $2.50 — Available Conservatorium, University, Jurjens, Heritage Office.

THE IONA PASSION PLAY

The Iona Passion Play will be presented in the Sydney Entertainment Centre on Good Friday, April 20, 1984.
Two Performances: 11.00 a.m. and 8.00 p.m.
Cost: $12.00 adults; $10.00 pensioners, students, clergy.
Family Tickets: 2 adults, 2 children $40.00. Each additional child $5.00.
Bus transport is available: $6.00 per seat.
Tickets can be ordered by contacting Giles Pickford on 270076 or one of the phone numbers listed before March 27.
Tickets for those travelling by bus will be issued on the bus. Other tickets will be issued during the first week of April.
Further information: please ring 292937 or 843777.

UNIVERSITY SINGERS
The University Singers will present music for Good Friday on 20 April at All Saints Anglican Church, Gibson’s Road, Figtree (next to High School) at 8 p.m. Donations towards Church Building.

BOOK OF THE WEEK
By Chris Wilder - University Co-op Bookshop
S. Foster Damon: A BLAKE DICTIONARY $3.95.
Although perhaps a little esoteric, everyone who has enjoyed the poetry of Blake will enjoy this dictionary. The ‘Blake Dictionary’ is a complete work of reference: a concordance, a dictionary of terms, symbols, ideas, characters and places appearing in all of William Blake’s known works.
A great work of scholarship, this dictionary has been compiled by one of the best-known Blake scholars; it assembles, synthesises and interprets the clues to Blake’s meaning that are scattered throughout the whole body of his work, both literary and graphic. Diagrams as well as text explain such complicated Blakean concepts as ‘Golgonooza’ and the ‘Mundane Egg’. An index allows fast access to entries and allows for cross-referencing.
Those who just enjoy Blake will enjoy this dictionary, while those whose interest is more serious will find it an invaluable tool.
‘A Blake Dictionary’ is available at $3.95 from our Sale table.

JOB VACANCIES
Details of the following positions are displayed on the Campus News Notice Board situated at the southern end of the Hut.
Adelaide Lecturer/Senior Lecturer in Psychiatry
James Cook Research Fellow in Biological Sciences
