ILLAWARRA CREDIT UNION CREATES STUDENT JOBS

Left to Right: Patrick Eltridge, Lynne Black, John Ledda, Peck Hong Wong, Matthew Eastley, Kathryn Orton, Luigi Volpato, Janette Gomboso, Birsen Bostanci.

The Illawarra Credit Union has generously made available $8,400 to the University to enable part-time employment to be offered to students currently undertaking a full-time course at the University.

16 students have been given 3 hours work a week in University Departments in which they are currently enrolled.

The selection procedure took account of the students' previous academic performances. This scheme has been operating since 1981. Winners for 1985 include:

Kathryn Clare Orton - Creative Arts
Matthew Damien Eastley - Accountancy and Legal Studies
Lynne Frances Black - Geography
John Ledda - Economics
Birsen Bostanci - Psychology
Luigi Volpato - Accountancy and Legal Studies
Janette Gomboso - Economics
Patrick James Eltridge - Physics
Andrew John Huggett - Biology
Peck Hong Wong - Computing Science
Kam Tuck Law - Civil and Mining Engineering
Lynette Joan Ferguson - Creative Arts

Peter David Rogers - Psychology

The Manager of the Illawarra Credit Union, Mr. Barry Kelly, visited the University recently to see the type of work the students will be doing.

AWARD FOR STUDENT PAPER

The Institute of Transportation Engineers - Australian section has awarded the first prize for a student paper to a student from the Department of Civil and Mining Engineering of the University of Wollongong. Some 20 entries were received for the 1984 Award from undergraduate students at Queensland, NSW, Wollongong, Newcastle, Monash, Footscray and Darling Downs Universities and Colleges. The prize of $150 was awarded to Peter Djendjinovic of this University for his paper entitled "The Estimation of a Noise Model for NSW Railways Operations", the subject of his BE Thesis submitted in 1984. The paper appeared in the Newsletter of the Institute of Transportation Engineers - Australia.

The work was supervised by Mr. Richard Kohoutek, a lecturer in the Department of Civil and Mining Engineering.
NEW POLICY ON OVERSEAS STUDENTS

The Minister for Education, Senator Susan Ryan, announced details of the Government's decisions on future arrangements for overseas students wishing to study in Australia.

Senator Ryan said that, in deciding on the new policy, the Government had given careful consideration to the reports of the Goldring Committee, which reviewed all aspects of the Overseas Student Program, and of the Jackson Committee which reviewed Australia's Overseas Aid Program.

Under the new arrangements adequate opportunities will continue to be available to overseas students who wish to study in Australia. The new policy is also consistent with the Government's aim of encouraging greater participation by Australian students in tertiary education.

The Government will continue to set an overall number of overseas students to be admitted for formal education at secondary and tertiary level. The number will not exceed the number of overseas students in Australia at present.

In addition there will be an upper limit for overseas students at any tertiary institutions of 10 per cent of the total enrolment, and a limit of 20 per cent of overseas students in any course.

These arrangements will give institutions considerable flexibility in the number of overseas students they enrol. At the same time, they will reduce the tendency of overseas students to concentrate in particular institutions and courses which are also in high demand from Australian students.

An Overseas Student Office will be established within the Education portfolio to provide improved administration of the overseas student program. The OSO will have responsibility for policy development and administration; it will act as a central applications centre for overseas students, and carry out co-ordination with institutions and education authorities.

Overseas students in normal tertiary courses will continue to pay the overseas charge. Current charges are:

- postgraduate $3,350
- undergraduate (high cost) $3,100
- undergraduate (other) $2,500

These charges will be increased to 35 percent of the cost of a tertiary place in 1985/86 and to 45 percent in 1986/87. The charges for 1985/86, i.e., for the 1986 academic year, are to be:

$4,340 for medicine, veterinary science and dentistry
$3,500 for all other courses

The charges apply to both postgraduate and undergraduate courses. To provide additional opportunities for study in Australia, beyond those which will be available within the quota of subsidised places, two initiatives are to be supported.

Universities and colleges of advanced education will continue to be able, if they wish, to offer courses developed especially for overseas students. These courses will be different from normal tertiary courses for which institutions receive funding from the Government through the Commonwealth Tertiary Education Commission, and overseas students taking them will pay a fee covering the cost of the course.

A Steering Committee will also develop guidelines under which institutions are to be allowed to market degree courses to full fee paying students. Again the places offered in this way will be above and beyond those funded by the Australian Government.

The Overseas Students Program makes a significant contribution to the economic and social development of source countries. It also helps to foster educational interchange as well as promoting cultural and other ties.

The Government believes that the changes it has made to the program will encourage its further development and will lead to greater international co-operation and understanding particularly with the countries in our region.

PRODUCTION OF DOCUMENTARY FILM COMMENCES

Production of a documentary on the impact of computers on the manufacturing sector commenced recently.

The film, financed by the New South Wales Department of Industrial Development, is being produced jointly by the Centre for Technology and Social Change and the Amalgamated Metal Workers Union.

The Centre's General Manager, Daniel Rowland, explained that the project will result in an important educational tool for employees, employers, and others involved in the manufacturing sector:

"Computer Aided Design/Manufacturing (CAD/CAM) technology is only just being introduced in Australia. It will have enormous social and economic consequences for manufacturing. Employment, deskilling, health and safety, retraining, and industrial democracy are only some of the issues that will be dealt with in the film.

The Australian community must wake up to these important issues. Our central concern will be to investigate the most appropriate ways to introduce CAD/CAM technologies in a way which both maximises the social and economic benefits and minimises the social cost."

Daniel Rowland added that the program will be of broadcast quality, and was already attracting interest from a major TV network.

"The skills of Alan Healey's Education and Video Unit at the A.M.W.U. combined with the Centre's research expertise in the social impact of CAD/CAM through Dr. Richard Badham will produce an interesting result.

Yet again, the Centre is demonstrating that it is at the forefront in Australia in communicating with a wide audience on Technology and Social Change issues."

NATIONAL BANK NOTICE

Officers of the Campus branch of the National Bank have indicated that they will not cash cheques unless either:

a) a staff I.D. card, or 
b) a student I.D. card is produced.
PHILOSOPHY FOR CHILDREN
by Dr. L. Splitter, Department of Philosophy

It gives me considerable pleasure to be able to tell readers that Professors Lipman and Sharp, Director and Associate Director of the Institute of the Advancement of Philosophy for Children at Montclair State College, New Jersey, will be visiting Australia to share with us their experiences and expertise in Philosophy for Children.

As some of you are aware, Philosophy for Children is a curriculum which aims to develop and expand the critical thinking and reasoning skills of children of all ages. The objective of teachers in classrooms of Philosophy for Children is to help students construct a community of inquiry, that is, an environment in which they are encouraged and motivated to listen to one another, to raise questions, to examine issues carefully and to criticize constructively. "Campus News" carried a lead story on this matter on 20 July 1984.

It is now clear from research carried out within the United States, where the programme has been taught in hundreds of schools since 1970, that children who participate in a community of inquiry improve across a range of crucial skills, including reading, comprehension, reasoning, critical thinking and mathematical skills, as well as heightened self esteem and motivation.

Objectives of the Visit:

Over the past fifteen months, my own efforts in introducing Philosophy for Children to schools in various parts of Australia, have focused upon this all-important matter of teacher training. This emphasis will be the dominant feature of the itinerary which will include visits to Adelaide, Canberra, Melbourne, Newcastle, Sydney and Wollongong for the purpose of running workshops, seminars and "awareness sessions". Ann Sharp will concentrate on working with teachers and trainee-teachers in workshops extending over a one to two day period. Matthew Lipman will consult with philosophers, educationalists and cognitive psychologists, in addition to conducting seminars at a number of universities and colleges. And both Lipman and Sharp will be available to introduce and discuss the programme with parents and others who may be interested in the teaching of thinking and reasoning skills.

As a result of this visit, an Australian Centre or Institute of Philosophy for Children will be formally established.

The main features of the itinerary will be the first extended Australian workshop for prospective teacher-trainers in Philosophy for Children, to be held at the University of Wollongong during the period 13-18 May.

The objective of this workshop is to produce suitably qualified individuals who may proceed to work with and train classroom teachers. I participated in just such a workshop conducted by Lipman and Sharp (January 1984). Its effect on me as a professional philosopher and teacher, have been truly profound.

Editor's Note:

There is a need for help in funding this important visit. Members of staff, students and Friends of the University are invited to make a tax-deductible donation to the Friends of the University in support of this project. Those who wish to help can use the reply form below.

Please rush my tax-deductible receipt for $......................donated to the Philosophy for Children Institute, to the address below.

Campus Community Interface

GRADUATES COMMITTEE - NEXT MEETING

Meetings of the Graduates Committee of the Friends of the University are open to all graduates and members of staff.

The next meeting will be held at 6 p.m. on 24 April, 1985, in the Friends Board Room.

Three nominations have been received so far for the positions which will become vacant at the Friends Annual General Meeting. They are:

Chairman - Ald. Keith Phipps
Vice-Chairman - Mr. David Henderson
Secretary - Mrs. Bev Ring

1985 FRIENDS ANNUAL ELECTIONS SCHEDULE

15th March - 5 p.m. The Membership Roll closed to establish the electorate.
18th March Notice of AGM calling for nominations was posted to the members.
29th March - 4 p.m. Board of Directors Meeting. Close of nominations for all elected positions.
15th April The Annual Report and any ballot papers will be posted to the members.
30th April - 5.30 p.m. Annual General Meeting.
General Notices

IMPORTANT DATE FOR STUDENTS

Last Day for withdrawal from Session One subjects:
Friday, 19th April, 1985.

UNIVERSITY OF WOLLONGONG UNION
ANNUAL GENERAL MEETING

The Annual General Meeting of the Union will be held
in the Union Hall at 12.30 p.m. on Wednesday, 10th
may be obtained from the Union Office in due course.

UNIVERSITY CHURCH SERVICE

The Annual Church Service for Tertiary Education
will be held in St. Michael’s Anglican Cathedral on
Sunday, 5 May 1985 at 7.15 p.m. All staff, students,
graduates and members of the Friends are welcome.

CHANGES IN UNION WORKSHOP COURSES

Gentle Exercise Classes - Without Union knowledge,
classes were moved to Wollongong High School Gym.
Nutrition Classes - Cancelled.
Spinning and Weaving - Cancelled.
Massage - Rest of students on waiting list can join in
second session classes (please notify Union Office).

INTERNAL TELEPHONE DIRECTORY

The University’s internal telephone directory has not
been amended since November, 1983 and accordingly,
requires urgent updating.

However, it would be inappropriate to proceed im-
mediately because of the large number of moves currently
taking place on campus. Over 70 moves are expected to
be made by the end of May when the Health Sciences
Building is completed.

It is then proposed to update the directory and depart-
ments will be contacted during May and asked to provide
information so this may be done. The new directory
should be available for release in late June, 1985.

THIRD BIENNIAL PLAYWRIGHTS’ AWARD 1985/86
BEST NEW STAGE PLAY AWARD — $1,000

Production of the winning play by the Stage Company,
Adelaide, will take place during the South Australian
Jubilee 150 Year, 1986 and be part of the official
program.

Conditions of Entry:

1. Playwrights must be resident in Australia.
2. Play must not have been previously published or read
   in public.
3. Two copies of each entry must be submitted.
4. Entries are to be typed, double spaced, on only one
   side of each page.
5. Each entry must be accompanied by a completed
   official entry form.
6. Entries to be delivered to (and additional entry forms
   available from):
   Playwrights’ Award
   The Australian Elizabethan Theatre Trust Adelaide
   Committee Inc.
   28 Fifth Avenue
   St. Peters, S.A. 5069.
   together with $10 entry fee.

An entry form is available from the Editor.

STATE SUPERANNUATION BOARD ELECTIONS

Notices concerning the State Superannuation Board
Elections are displayed on the “Campus News” Notice
Board. The poll closes on 15 May at noon.

UNIVERSITY PLANNING: DEPARTMENTAL,
SCHOOL, FACULTY AND UNIVERSITY—WIDE
DISCUSSIONS

A message from the Vice-Chancellor

As foreshadowed at the first meeting of the Academic
Senate for 1985, it is proposed during 1985 to explore
the views of the academic community about the next
stages of development of the University and to crystal-
lyse these views into more concrete planning, which will
become the basis of our submissions to the Common-
wealth Tertiary Education Commission concerning the
triennium of 1988-90.

This memorandum is a general invitation to members of
the academic community to participate in this activity
to the maximum extent possible. In addition to propos-
als for the further development of particular faculties,
which will come forward from Faculty Planning Com-
mitties and which should reach me by not later than the
30th June, I propose to make myself and/or Deputy
Vice-Chancellors available for discussions with Depart-
ments, Schools, Faculties and/or groups with special
interests, to explore particular developmental ideas.

As part of these discussions, tentative arrangements have
been made for the Chairman of the Commonwealth
Tertiary Education Commission, Mr. H. Hudson, to visit
the University on Tuesday, 23rd April. Subject to
confirmation of that visit, detailed arrangements for
discussions with Mr. Hudson will be promulgated later.

Proposals for my involvement are set out below:

1. Monday, 22nd April, 12.30-2.00 - University Forum -
Pentagon 1

A review of developments since 1980. The implica-
tions of the various developed initiatives begun in the
University in this period will be discussed and some
preliminary options for the future, depending on
different levels of availability of resources, will be
discussed. The forum will be open to the whole
University community. Discussions will centre on
options for development.
2. Department, School and Faculty discussions

(Discussions with individual Departments, Schools or Faculties of approx. 1½-2 hours duration, preferably between noon and 6.00 p.m., to discuss issues of interest to those seeking such discussions. Those interested should book an appropriate time with my secretary Ms H. Majer).

3. Tuesday, 25th June, 12.30-2.00 - University Forum - Pentagon 1

Review of development possibilities emerging from earlier discussions and presentation of planning for 1988-90.

4. July - December 1985

Refinement of planning and processing through University committees and the University Council.

I hope members of the academic community will take advantage of this process to involve themselves in the shaping of the University's future development.

MIGRANT WORKERS IN THE ILLAWARRA

If there are any readers who need copies of papers or material coming out of the above conference please contact Ms. K. Stavrou, Migrant Liaison Project, c/- South Coast Trades and Labour Council, 14 Station St., Wollongong, ph. 273622.

ANNUAL GENERAL MEETING OF SPORTS BODY

The Annual General Meeting of the Sports Association will be held on Thursday, 18th April, 1985 at 5.30 pm in the Northern Lounge of the Union Building.

The Sports Association Annual Report will be presented as well as the election of Office Bearers and discussion of General Business.

All students are encouraged to attend and participate in the administration of your Sports Association.

UNION POSTCARDS

The Union has recently had a series of six drawings of the Union Building and central campus area by local artist Terry Houghton produced in postcard form by the University Printery.

The cards will be on sale in the Union shop at a price of 30 cents each or $1.50 per set of six.

AN IDENTITY FOR AUSTRALIAN SCIENCE AND TECHNOLOGY

A paper on the above topic by Dr. Peter Pockley of the University of N.S.W. is available from the Editor.

Distinguished Visitors

The Department of Geography is hosting the visit to Wollongong of Professor W.R. Derrick Sewell.

Professor W.R. Derrick Sewell is an internationally-known authority on the development of natural resources and the management of the environment. Presently Professor and Chairman of the Department of Geography at the University of Victoria, British Columbia, he was formerly on the faculty of the University of Chicago, and previously was an economist with the Water Resources Branch of the Canadian federal government. In the latter capacity he was involved in the negotiation of the Columbia River Treaty between Canada and the United States. He has been an advisor to several international agencies, including the United Nations and the World Bank, as well as the governments of numerous countries.

Professor Sewell's work has focussed principally upon policy with respect to water and energy resources and the management of the environment. He has been particularly involved in research concerning hydro-electric power, floods, urban water supply, water quality management, renewable energy resources, energy conservation, and offshore hydro-carbon resources. He has made important contributions with respect to the development of techniques for the evaluation of projects, the role of perceptions and attitudes in decision-making, and the role of public policy in shaping scientific research programs.

The author or co-author of some 25 books and more than 150 articles in scholarly journals and the technical press, Professor Sewell has received wide acclaim as scholar and a researcher. Last year he was presented with the Canadian Association of Geographers prestigious Award for Scholarly Distinction, 1981. He has been invited as a Distinguished Professor at several universities across the world. He was Chairman of the Academic Advisory Panel of the Social Sciences and Humanities Research Council of Canada in 1983-84.

Details about two seminars that Professor Derrick Sewell will be giving on 11 April are set out in the "Seminars" column.

ARTHUR JACOBS' VISIT

The distinguished critic, writer, translator, editor and teacher, Professor Arthur Jacobs, will be visiting the School of Creative Arts at the University of Wollongong from 1-15 April. He has had many teaching posts throughout the U.S.A. and U.K. and is, perhaps, best known as Editor of the Penguin Dictionary of Music. The following lectures are open to the public and are held in the School of Creative Arts Auditorium.

Thursday 4th: Beethoven Op III 8.30-10.30 a.m.
Peter Grimes by Britten 1.30-3.30 p.m.
Thursday 11th: Analysis v. Criticism 8.30-10.30 a.m.
Wagner's Operas 1.30-3.30 p.m.
Seminars

Further details about the seminars are shown on the 'Campus News' noticeboard.

MATHEMATICS SEMINARS

Thursdays, 1.30 p.m., Room 204 Austin Keane Building

April 18
Dr. Chris Coleman,
Department of Mathematics, Wollongong University

May 2
Dr. Chris Coleman,
Department of Mathematics, University of Wollongong

May 23
Dr. Charles Ellen,
John Lysaghts Research Group, Port Kembla

May 30
Professor Nan Phan-Thien,
Department of Mechanical Engineering, Sydney Uni.

DEPARTMENT OF BIOLOGY

Room G25, Building 1 (Metallurgy Building)

Monday —4-5.30 p.m. — 15th April, 1985
Professor F.C. Gibson, John Curtin School of Medical Research, A.N.U.

"The Biochemical Genetics of ATP Synthesis in Escherichia coli".

Monday —4-5.30 p.m. — 22nd April, 1985
Professor E.O.P. Thompson, School of Biochemistry, University of New South Wales.

"Amino Acid Sequences of Globin and their use in Estimating Phylogenetic Divergence Points".

Monday —4-5.30 p.m. — 29th April, 1985
Dr. K.Y. Cho, Department of Microbiology, University of Sydney.

"The Physiology of Mushroom Cultivation".

Monday —4-5.30 p.m. — 6th May, 1985
Dr. E.J. Steel, Department of Biology, University of Wollongong.

DEPARTMENT OF CHEMISTRY SEMINARS

All seminars are held in Building 18, Room 206.

Thursday, April 4, 12.30 p.m.
Professor D.A. Sweigart, Chemistry Department, Brown University, Providence, R.I.

"Hydrogen bonding in Metalloprophyrin Reaction".

Friday, April 26, 12.30 p.m.
Dr. Stephen Pyne, Department of Chemistry, University of Wollongong

"The Arachidonic Acid Cascade".

Friday, May 3, 12.30 p.m.
Dr. Michael Guilhaus, Department of Chemistry, University of Wollongong

"Explorations of the Chemistry of gas phase ions with a versatile mass spectrometer of reversed geometry".

Convenor: Dr. P.G. Burton

DEPARTMENT OF GEOGRAPHY

Visiting Professor W.R. Derrick Sewell will deliver the following lectures on 11 April, 1985.

1. 10.30 - 11.30 a.m. Room 19/006 Geography Department, Social Science Building

"Climate Variability and Change: Implications for the Research Agenda"

Increasing losses from severe weather events across the world, the impacts of acid rain, fears of effects of an increasing CO2 content of the atmosphere, and other factors have given growing prominence to climate as a resource. They have also led to a call for a major increase in the research effort and for institutions more closely attuned to the management of atmospheric resources. This presentation examines these developments and offers suggestions for future actions.

2. 12.30 - 1.30 p.m. Room 19/G14 Geography Department, Social Science Building

"When Do Environmental Problems Become Strategic Political Issues?"

An exploration of the reasons why certain environmental questions receive attention while others are ignored. It examines several cases in detail, ranging from small, local issues to broad, global matters. A number of hypotheses which purport to explain variations in attention are offered.

DEPARTMENT OF ACCOUNTANCY AND LEGAL STUDIES

The following is a list of seminars to be held in room 19.2035 at 11.00 a.m. on the dates shown.

April 12
Jim Jackson, "Agency in Joint Ventures and Joint Operating Agreements"

May 10
Ferdinand Gul, "Public Perception of Auditor Independence"

May 24
John Ryan, "The Monetary Model"

June 7
Hai Yap Teoh - Topic to be advised.

FACULTY OF HUMANITIES SEMINAR

Readers are cordially invited to attend a lunch time seminar given by the Hon. Mal Bryce, Deputy Premier of Western Australia and Minister for Industrial Development, Small Business, Technology and Communication.

Mr. Bryce is visiting the University of Wollongong for Heritage Week and the Seminar will be held on Monday 15 April 1985 at 12.30 - 2.30 p.m.

Lunch will be provided.

Please RSVP to Mrs. Joan Hutchinson, on 3709 by Thursday 11 April, 1984. Numbers strictly limited.
DEPARTMENT OF COMPUTING SCIENCE SEMINARS

Dr. Leslie M. Goldschlager, Basser Department of Computer Science, University of Sydney.

Friday, 19th April, 1985 12.30 p.m. Skylab

Abstract: A model which captures some of the computational characteristics of the brain. The model involves a vast number of processes which operate asynchronously in parallel. Capabilities of creativity, consciousness, self and free will are explainable within the model.

***

Sparse Multidimensional Arrays is Sigma

M.P. Shepanski, Department of Computing Science, University of Wollongong

Friday, 12th April, 1985 12.30 p.m. Skylab

Abstract: Sigma (1) is a language for convenient manipulation of flexible arrays; flexible not only in their size, but also in their number of dimensions.

Previous Sigma implementations have represented arrays in the traditional way, by mapping each element onto a particular cell in a contiguous vector of storage. This has the disadvantage that every element must be stored, regardless of the amount of redundancy.

This seminar describes an attempt to reduce the storage requirement by taking advantage of the fact that many arrays used in real-world applications are largely full of zeroes. Although mathematicians have developed many ways to compress these so-called “sparse” arrays, their techniques are invariably limited to two-dimensional arrays, and then sometimes only to symmetrical ones. The technique here developed is an attempt to take advantage of sparsity in all the wide range of arrays which Sigma permits.

Letters

BROWN BLASTS “CAMPUS NEWS”

Dear Sir,

In Campus News of 29th March, you reprinted a letter of mine that had previously been published in “Nature”. In an introduction to the letter you said I “questioned the “soothing” findings of R.P. Turco et al. who believes (sic) that the effects of nuclear war would not be all that bad.”

My criticism was not of Turco et al. who first brought to public attention the possibility of a “nuclear winter” as an aftermath of nuclear war. In a general sense, it was a comment on those who later sought to correct and modify in fine detail, Turco et al.’s analysis. In particular it was a critical of such an exercise by Edward Teller. The editor of “Nature” managed to get it right because the letter was published under the heading “Cold Comfort for Teller”.

Yours etc.

Concerts, Exhibitions and Entertainment

WANTED — LOCAL PLAYS

The Illawarra Playwrights’ Association are looking for plays (about 20 to 60 minutes long) for a Season of Local Plays at Workshop Theatre in September 1985.

Please send manuscripts (with a stamped self-addressed envelope) to: Local Plays, P.O. Box 1, Wollongong East, 2500, by 1st May.

Enquiries phone Leigh 297307.

THE PLAY THAT ROCKED BRITAIN

18 - 20 April — “The Man They Could Not Buy” —

A play about Keir Hardy, the Scottish miner who became the founder of the British Labour Party. Touring Australia after a successful season in Britain.

Town Hall Booking office for tickets. $5, $3 concession.

BUDAPEST FOLK ENSEMBLE AT THE GALLERY

The Wollongong City Gallery will sparkle with the sound of Hungarian and Slavic folk music on Tuesday 9th April when Tambura (The Vujicsics folk ensemble from Budapest) open Musica Viva 1985 concert series.

Tambura consists of six outstanding musicians - all graduates of Budapest’s prestigious “Bartok” and “Liszt” academies - who have cultivated and popularised the traditional music of the Southern Slavic nationalities, especially that of the Serbs and Croats living in Hungary. Many of the instruments used are very rare and highly unusual, including tamburas, sopile, pipes and hurdy-gurdy.

Tickets for the concert can be obtained in advanced from the University Union (tel. 297833) or Jurjens (tel. 292379). Tickets can also be purchased at the Gallery on the night of the concert which commences at 8.15 p.m.

Other concerts this year in Musica Viva’s Gallery series are:

Wednesday 26th June: Leighton-Jones Byzantine Duo;

Friday 9th August: Tasmanian Symphony Chamber Players;

Thursday 12th September: Capital Brass;

Friday 18th October: The Song Company.

INTERNATIONAL YOUTH YEAR ’85 CONCERT

Friday 12th April, 1985, Wollongong Town Hall, 8 p.m.

Featuring local talent:

- Paul Stanhope, Organ (Organ by courtesy of Jurjens Pianos and Organs)
- Michael Diaz, Tenor
- Alexandra Stender, Violin
- David Piper, Piano
- Wollongong Conservatorium String Orchestra
- St. Mary’s College (Excerpts from ‘The Mikado’)
- Yugoslav/Australia Zloboda Dancing Group

Tickets: $7, $4 concession, $14 family - available from Jurjens Pianos and Organs (292379); University of Wollongong Union Office (297833) and Wollongong Town Hall.

Job Vacancies

Details of the following positions are displayed on the Campus News Notice Board situated at 49 Northfields Avenue.

Wollongong Deputy Vice-Chancellor (Academic and Research)

United Nations Various Posts

ANU Research Posts in Water Quality Modelling, Modern Japanese History, Human Geography, Ultraviolet Physics
Lecturer in Political Science
Snr. Lecturer in Accounting
Snr. Lecturer/Lecturer in Law
Professorial Fellow in Plant Hormone Research
Chair in Environmental Biology

Macquarie Lecturer in Computing
Research Assistant to the Education Committee

Newcastle Lecturer/Snr. Lecturer in Chemical Engineering
Lecturer in Sociology

Flinders Professorial Fellow in Transport Policy

Adelaide Snr. Programmer (Analyst)
Systems Programmer
Buildings and Estate Officer
Administrative Officer (2 posts)
Postdoctoral Fellow in Molecular Biology

Scholarships and Prizes

Details of the scholarships and prizes below are displayed on the Campus News Notice Board situated at 49 Northfields Avenue. Application forms are available from the Student Enquiries Office.

CSIRO Postdoctoral Fellowships — 65-3-3 refers

ANZAAS Esso Energy Award — $5,000

Advertisements

Advertisements in “Campus News” are repeated each week until withdrawn, OR, until new advertisements push the old ones off the end of the column, whichever occurs first.
