The HNE health palliative care data project

Abstract
The Hunter New England (HNE) Palliative Care Program recently engaged the Australian Health Services Research Institute, University of Wollongong to undertake a relatively small scale project to explore the similarities and differences between palliative care services that operate within the region. In part, the project was commissioned out of an acknowledgement of the diverse range of current practices and the need to better understand the impact of those from a planning and service delivery perspective.

# Table of Contents

1 INTRODUCTION
   1.1 Purpose of the project
   1.2 Structure of this report

2 OVERVIEW OF PALLIATIVE CARE SERVICES IN THE HUNTER NEW ENGLAND

3 PALLIATIVE CARE ROLE DELINEATION FRAMEWORK
   3.1 Primary care services for people at the end of their life

4 METHODOLOGY ADOPTED FOR THIS PROJECT
   4.1 Overview
   4.2 Document review
   4.3 Stakeholder and telephone consultations

5 SUMMARY OF CONSULTATION PROCESS
   5.1 Overview of service staffing and activity levels
   5.2 Overview of models of palliative care in HNELHD
      5.2.1 Model of care for community palliative care services
      5.2.2 Model of care for designated palliative care beds in hospices
      5.2.3 Model of care for acute hospitals
      5.2.4 Patient journey chart
   5.3 Overview of Data collection processes
   5.4 Overview of information system issues
      5.4.1 Summary of information system issues
   5.5 Opportunities to participate in initiatives such as PCOC
   5.6 Other issues

6 CONCLUDING COMMENTS
   6.1 Models of care
   6.2 Early intervention helps most
   6.3 Continuity in the relationship between palliative care and generalist services
   6.4 Linking specialists and generalists

Acknowledgements

We would like to thank the many clinicians and key stakeholders from across the region who gave their time to participate in the consultations for this project. We thank them for their considered comments and feedback.

We would also like to gratefully acknowledge Associate Professor Katherine Clark, Director & Area Director of Palliative Care and offer particular thanks to Ms Debra Hinton, Program Coordinator of the HNE Palliative Care Program. Debra’s extensive knowledge of the palliative care sector provided invaluable assistance throughout the project.
