Bespoke instruments, stunning music

Ensemble Offspring kicks off the year by taking its unique handmade instruments on the road in Between the Keys. Between The Keys extends our successful Partch’s Bastards project. We follow the lead of the iconic Harry Partch whose music was so radical he needed to build his own orchestra of unique instruments to play it. Ensemble Offspring has commissioned visually striking and sonically beautiful instruments on which to perform vivid new colours and scales. Insightful education workshops accompany the concert program.

**Media & Acclaim**

“This was a most enjoyable concert exploring an intriguing and rarely visited sonic landscape. Different, but very accessible, the program proved a hit with barely an empty seat in the house” [Full review](http://www.partialdurations.com.au/)
